

THE FORT RECORD

VOL. 48 PORT SASKATCHEWAN, ALBERTA WEDNESDAY, MAR. 26, 1935 150 PER YEAR IN ADVANCE

Bremner District Schools Sponsor Lively Debate

An interesting debate took place at Bremner Hall on Friday evening between pupils of the senior rooms of East Clover Bar and Clover Bar Village Schools, the subject being, "Resolved that men and women should receive equal pay in the occupations in which they compete." The judges were Mr. F. R. McCalla, Miss McCrea, and Mr. R. C. MacKay. Mr. F. T. Jackson acted as time keeper, and Mr. R. H. M. Bailey acted as critic on the debating. After a very interesting session, the judges awarded the vote to the negative, taken by Clover Bar Village, those taking part being Dorothy Brown, leader, Johnny Burkhardt, and Vera Forrest, their teacher being Mr. Brian Piercey. East Clover Bar's debaters were Kathleen Dowling, leader, Dorothy Piercey, and Bessie Webb, the latter being especially complimented for her part by Mr. Bailey. Mr. L. J. Power, teacher of East Clover Bar Senior Room was their coach.

McCormick-Deering Show Monday, March 27th.

McCormick-Deering, agent, Jack B. Gauf, announces a "Power Farming" entertainment in the Empire theatre on Monday, March 27th, at 8:00 p.m. Moving pictures will show changes which have taken place in farm operating equipment. Trained men will talk on questions which every up-to-date farmer is interested. A cordial invitation is extended to all who are interested.

GOOD HOPE NEWS

A large attendance was present at the meeting of the Goodwill Sewing Circle held at Mrs. Lloyd Burnett's on Feb. 17th. The roll call was answered by giving your favorite cooking recipe. The next meeting is to be held at Mrs. C. Fleming on March 16th.

GOOD HOPE NEWS

The play, last noted and dance held in the Good Hope school house by the Goodwill Sewing Circle on Feb. 17th, was a complete success as the proceeds amounted to nearly \$27 clear.

A.T.A. Local Near Talk On Russia of Today

The teachers of the Fort Saskatchewan A.T.A. Local held a very pleasant meeting at the home of Mrs. E. H. Hamblin on February 20th. Mr. Hamblin gave an interesting address on Russia, telling about its history, organization and army. Mr. D. Roberts, the guest speaker spoke about the educational methods of that country. A lively discussion followed in which Mr. Roberts helped a group deal with his extensive knowledge of Russia.

Androssian Citizens Hold Farewell Party

A farewell party was held in the Androssian hall on Monday night, in honor of Mr. W. Androssian, who is leaving this district. Dancing was enjoyed by all, to the rhythm of local talent. Those present were: Mr. and Mrs. E. Hamblin, Mr. and Mrs. E. J. Jorgensen, Mr. and Mrs. T. Hamblin, Mr. and Mrs. R. Warnock, Mr. and Mrs. C. Davis, Mr. and Mrs. J. Curlett, Mr. and Mrs. F. Scherer, Mr. and Mrs. R. Davis, Mr. and Mrs. G. Reynolds, Mr. and Mrs. E. Condit, Mr. and Mrs. E. Deven, Mr. and Mrs. Davis, Mr. and Mrs. J. Fleming, Mr. and Mrs. C. Davis, Mrs. L. Hamilton, Mrs. J. Peterson, Mrs. G. LeClerc, Mrs. F. Wagstaff, Mrs. C. O'Gorman, Mrs. E. Dowling, Mrs. E. Grayson.

Coach Poo Wee Team

And so folks as manager of the Leafs, I consider big efforts to bringing this team along will be rewarded if I can see some of the fellows in the Edmonton Junior League and next year I hope to start up a Poo Wee team and bring them right through to Junior and up to that Alberta title about 3 years from now. What do you say, gang?

Playing on soft sticky ice, Elk Point and Fort Jarvis hockey teams, failed to score in the first game of their play-off series, here last Thursday evening.

Play at Arena

The second game was played Friday in the Edmonton Arena, where a large crowd saw the Fort run wild to collect an 8-0 score from Elk Point.

Many Witnesses Game

About thirty cars and a truck load of young people journeyed to Edmonton to witness the game. Bill Gauf refereed the game handing only one penalty.

Kent's Coach Teams

Two local hockey enthusiasts made possible a practice in the Arena Sunday, when Fort Jarvis and Seniors held a workout. "Duke" Kent, well-known professional hockey coach, and lately referee, was attained for one hour to coach the teams in the rudiments of hockey.

GUIDE NEWS

Last month's Guide party was planned by the Puppy Patrol. The girls met at the hall at 7:30 last Friday night. They then divided into groups of four, and went off on a treasure hunt. The hunt finished 10 o'clock, after which the girls retired to the hall for lunch, which had been prepared, in the meantime by the Puppy Patrol. Mrs. Ormsett was the guest of honor and the exonerated. Mrs. Ormsett was formally introduced to all the girls. After lunch we played two games, which were won by Wanda Kellerman and Irene Grandahl. The girls then paid good night to their hostesses and departed. An enjoyable evening was spent.

Edmonton Maple Leafs Defeat Fort 15-2 by "Pokey"

After running through the season without a defeat in 14 games played and defeating Elk Point in the North Eastern play-offs Fort Maple Leaf Junior team went down to defeat to the Edmonton Leafs in the Northern Alberta play-offs—the score 15-2. The Edmonton team came to play in Edmonton and they earned their victory. Our defense was too tight and "Buddy" had an off night in goal which didn't help matters in keeping down the score—but we were beaten by a better team and we can take it!

Uncovers Juvenile Material

At least the Fort through defeated here by sponsoring this team of Juveniles uncovered some promising talent. At least two of our team have been asked to sign up with Edmonton Junior teams for next year, Stan Devine and Omer Willinger. Stan is likely to play for the Maple Leaf Juniors—which will be made up of the best of the Edmonton Maple Leaf Juniors of this year. Omer will more than likely play his "John Henry" on "Pop" Man's card and play with the South Side Juniors. These two lads have had offers from every Junior team in the city, but are in no hurry to sign yet. Ernie Hartley may sign up with the Arnie and Nobby Gordale or play for Trail Juniors.

Another Curfew!

We understand that J. D.'s supervisor, Mr. A. B. King, has brought his curfew rules with him. It is hoped he can get in a few games.

Spital Gets Under Way

Due to a slight change in the weather, the hospital scheduled to start last Friday will get underway tonight (Wednesday).

Valuable Prize

Playing in a "round-table" contest, sixteen rinks will battle to win three handsome sets of prizes. First prizes were donated by the Calgary Power Co. and consists of movable lamps, several pipes, 3 lb. jars of coffee, and third prize, cigarette lighters.

Mixed Spital Next

This spital will run about one week, to be followed by a mixed spital. Only members will be able to participate in either spital.

Entertain Leader

Two rinks from Leduc were entertained by local rinks last Thursday evening. After the game, a banquet was tendered the visitors at the Fort Hotel. Where, Mr. C. L. Albright and staff really outdone themselves. This was a return match. The Fort having won off the two spits before the final break-up.

With The Carriers

With the weather men cutting up most unseasonably we haven't much to report. However with Aurora Borealis back at his stand displaying frigid blasts from the North-East, it is apparent we are not through with our "bunions and staves". At this time on behalf of the club and myself personally, I would like to scratch a few lines by way of a valedictory to our departing "Poo". Mr. J. Dewar. The general feeling of regret is tempered somewhat by the knowledge that this represents a well merited promotion. It is not often one finds leaders, especially in our parts, held in such high respect or so universally popular. His smile was just as friendly and his handshake just as cordial to big and small alike. His enthusiasm on the ice, his energy on the parade ground and his dispatch of the many meetings he chairmaned sets him apart as a regular fellow and a leader. Never have I felt that the words of the poet were so true, "Parting is such sweet sorrow", for it is only through parting that we learn to cherish friends that were about us. It is a fitting tribute that "Johnnie" should leave behind a memory that can only be equalled by his own good presence. May he continue to "hit the brown" in the game of life.

SCHOOL FLASHES

About 40 enthusiastic pupils from the school made the trip to Edmonton Friday night, to take in the juvenile game at the arena. Most of them travelled in a truck, the weather being very warm.

A little hand held in the form of a flat tire and a blow-out, made the trip quite unpleasant to both driver and passengers. However, we owe our thanks to Mr. Wilson and hope everything came out all right.

Will you be in attendance March 31st to witness the presentation of our 1 play? They're really good! The proceeds of this entertainment will go to the school for library purposes.

We are hoping to see you there. * * *

It looks as if T.W.T. is the only resource. When are you cutting economists going to start to work.

WE SAW

Jack: sporting a new pair of shoes.

Walton: In the arena driving an automobile between the game and the game.

Babe's neck empty again.

Fallies: strutting his stuff on Friday night.

Stan: looking very refreshed.

COLD WEATHER NEEDED FOR SKATING ICE

A flooding was put on the rink today, (Tuesday) in the hope of continued cold weather. And at time of going to press it begins to look as if several more days of cutting and skating will be enjoyed by their respective followers.

According to old-timers, it is quite customary to experience cold weather for several weeks after an early February thaw. It is possible to win off the two spits before the final break-up.

Conservation and Reforestation

"Twenty-five per cent. of land should be forested, if water supply is to be preserved, protected and regulated."

The foregoing is an extract from a lengthy article in a recent issue of *Forestry Statistics* Night, penned by H. Bushman Wylie, in a strong appeal for a vigorous national policy for conservation of the existing timber lands of the country and for a progressive policy of reforestation to replace depleted resources.

While the writer makes his comments particularly applicable to conditions in Ontario and the Dominion generally, he is also in view of the effect of depletion of timber upon the economic life of the Dominion.

An Important Factor

It is true that the ability of a nation to draw precipitation is a controversial issue among experts but there is no gaining the admission that forests can and do exert an important influence in conserving moisture and actually able to do so in the Dominion. Every branch of the agricultural industry. Practical foresters have observed time again that where the woods have been held by trees and even forest in dry years yielded the difference between a good crop and a poor one, as between a fair crop and one at all within the area influenced by such trees or forests. Similarly, it should be generally understood by time that, even a few trees exert an influence on the movement of moisture within a limited contiguous area, by so modifying of their value in tempering high winds to neighboring crops, for the shelter of livestock, prevention of soil erosion, and insurance of a permanent supply of timber for fuel, construction and other industrial purposes.

All of these and other aspects of the question of conservation of forest resources and reforestation are dealt with in Wylie's enlightening contribution, and he quotes freely Canadian and United States authorities in support of his general contention that "we know today that agriculture is inextricably handicapped as a result of forest being stripped from the land."

Little Production Here

If 25 per cent. of the land in this country is a proper balance, as Mr. Wylie says, then very large sections of the Canadian west are far short of this requisite production, for the agricultural industry and other uses, with a few years ago, the forested areas of the west were in the same category, more or less, unless a sound policy of conservation and reforestation is adopted. It is only in the Dominion where the forest takes many years to grow can he cut down in an hour or two and perhaps even in a few minutes.

There is some sections of Ontario, regarded by westerners as a well-wooded country, and at one time rich with dense forests, timber has been depleted to such an extent that the forest is now a thing of the past. It is a scrub tree growth, with the result, to quote Mr. Wylie, "wells half stream dry and pastures withers when the forests have been gone."

As far back as 1872, J. J. Macdonald, then Minister of the Interior, is quoted as stating that "at the present rate of cutting the stand of pine in the Dominion which has been cut down in the last 25 years, indicative of the extent of the slaughter of those once great forest reserves."

"Where forest trees have been consumed from slopes and plains the land is not without a natural fertility to bring the force of heavy rainfall, says the author. "The downpours serve the land, carrying down in fertilizing muddy floods into stream beds incapable of holding the new volumes of forested waters plus the washed down result, the devastating floods that caused more than twenty-five million dollars in damage to homes, farms, bridges and other structures, but before."

"The Western provinces and many counties in the East are faced with the necessity for costly schemes to retard soil erosion that has reached threatening proportions. Had the western people planted forests as well as wheat, there would be no drought problem in the west today in anything like the devastating threat that now means the depopulation of vast reaches of western lands and the terribly costly relief bills to be met annually."

Principle Sound

While Mr. Wylie may have exaggerated the extent of the area which may have to be depopulated, nevertheless his view of the underlying principle as sound in Western Canada as in the east and is worthy of serious reflection in the interests of the future of the principal industry of the prairie.

There are other arguments in support of a progressive policy of reforestation and conservation, as for instance the effect of denudation of trees on the wild game and on the country and the economic and aesthetic value of trees which could well be expanded over areas available.

Sell Here For Fuel

Model Cally Canned For Animal Killed By Sheep

An unhappy cabby of Madrid whose horse was killed by a sheep recently from an ignorant abbot that resulted in the cabby's being killed by the sheep in a sudden attack. While he was heading his horse and the sheep, the livestock three foot byers appeared and the bidding for the horse worked up to \$100 per acre (14500) and the cabby's horse was killed by the sheep.

The cabby died in a hospital with a snow elevation of 1,300 feet and has mountains 5,000 feet high.

An Abkade Record

Free-Borned From U.S. Weather Bureau After \$10,000 Fine

Altitude record for free balloons was established on Feb. 10, 1925, when the United States Weather Bureau had one of its radio balloons sent up from the base of Mount McKinley, at an altitude of 22,000 feet, approximately 131 miles, was established.

The temperature recorded at the base of the mountain was 10 degrees below zero.

Another sharp winter storm was reported in the north, where they pointed in one direction and headed in another.

Mr. Sanderson had hundreds of friends throughout the province but few knew that he was ill in hospital before his death.

Mr. Sanderson was born in London, Ontario. He came to Canada in 1880 with his parents who settled near Mississauga.

Mr. Sanderson is survived by his wife and two daughters, Miss Maudie and Miss Mary.

Hardly time we ever did was making late payments. 234

Resolving Ottawa

The People of Canada Want to Have A Capital They Will Be Proud Of

No estimate has been made of the cost of the comprehensive improvements at Ottawa. Probably it would be about \$100,000,000 to do as the work is to be spread over a period of 10 to 15 years. In that way it will fall lightly on the public purse, and there is no doubt the people are anxious to improve the city of making the Dominion capital a worthy center of government.

The city of Ottawa is a collection of buildings scattered in the state of the largest city in the country. Washington is a notable and magnificent exception, displaying a high plane of buildings which are designed and laid out according to a long range plan.

It is to be hoped the Government will not be content with the present and will do around the city so that the people will be proud of it and that will be the mark of a great city.

It is to be hoped the Government will not be content with the present and will do around the city so that the people will be proud of it and that will be the mark of a great city.

FLIN FLON

The Story of Its Finding and Position Today

By FRANK BURN

Last week we were looking for a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

We found the mine, and as they say in the Flin Flon mine, we found the mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

Further down the lake we stopped to let Johnson and his men go on their way. There is a legend that a heavily protected boat at this point, Flin Flon, was seen to be coming from the north and was seen to be coming from the north.

When we reached the end of Lake Manitoba we transferred to an electric launch. The launch was a small boat, and it was a small boat. It was a small boat, and it was a small boat.

Finally we landed a block from the Flin Flon mine. We landed a block from the Flin Flon mine. We landed a block from the Flin Flon mine.

Of course, the Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The department at Flin Flon is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

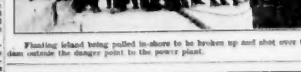

The Flin Flon mine is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine. It is a story of the discovery of the Flin Flon mine.

The floating island appearing from in front of Island Falls power dam.

Plunging island being pulled inshore to be broken up and shot over the dam into the danger point in the power plant.

A close-up of the floating island. Many feet thick and with trees eight miles in diameter. It runs against the boom at Island Falls before being broken up and washed away.

SUNDAY SCHOOL LESSON MARCH 6

Lesson text: What I have, then, I have given to the poor. (Matthew 23:6-13)

Exposition and Comments

The Revelation at Nazareth, March 6, 1917. In the fifth chapter of Mark, following our text of last Sunday, we have a story of the cure of an ancient demon-possessed man.

The following were attributed to B. Italy's chief objectives:

1. Recognition of the conquest of Italy, which Italy gained in May, 1918.

2. Some form of neutralization of Italy, which Italy gained in May, 1918.

3. Naval parity with France and possibly also with Britain in the Mediterranean.

4. Possible transfer in Italy of some of Italy's colonies in the Near East, which Italy gained in May, 1918.

5. Financial help, either through a loan or through credits, as outlined in the international economic plan drafted by former Premier Paolo Bonaiuti.

Lightning has caused several deaths in drought areas of South Africa recently.

BRITAIN'S POLICY AIMED TO ENSURE PEACE OF EUROPE

THE FORT RECORD
An Independent Paper, printed and published every Wednesday,
at Fort Saskatchewan, Alberta, Canada.
Gordon Noble, Editor & Publisher.

WEDNESDAY, MARCH 22nd, 1933

Devilade paid to shareholders by the company in 1932 was approximately \$250,000. To the second about they are over and about the salaries or other income of the shareholders. It is only a matter of degree as they represent the same man. They just know that it is a lot of money.

It must be profitable business to consider the enormous dividend paid in relation to some things which would be fairly \$250,000,000 which pay, at twenty dollars an acre, eleven million acres of Alberta land, or twenty-five thousand square miles. In other words, those who received the \$250,000,000 could own the entire province and the land contained in a vast extending roughly from Edmonton to the coast.

Of us we apply the figures to the shareholders of the farm the \$250,000,000 would, at one dollar a bushel, buy all the wheat from 16,000 farms having an average of three thousand bushels per farm.

But of course that is not the whole story. In the first place dividend paid to shareholders only represents part of the profits of the industry. They

How Are Life Insurance Funds Invested?

Answer.—In government and municipal bonds and debentures, first mortgages and other securities.

Question.—What do these investments accomplish?

Answer.—They help to finance the undertakings of our Federal and Provincial Governments—our municipalities—our industries and public utilities. They also aid in building new homes and schools—and in improving farms.

Q.—What is the total amount of Life Insurance funds invested in Canada?

A.—More than Two Billion Dollars.

Q.—What does this sum represent?

A.—It represents the accumulated savings of more than 5,500,000 Canadian men and women.

Q.—How do I benefit from these investments?

A.—Through good roads, new schools and local improvements made by your own municipalities, which, in turn, create employment.

Q.—What is the guarantee back of these invested funds?

A.—The security of the individual loans, in addition to the integrity of the borrowers—whether governments, corporations, or individuals.

Q.—Have the Life Insurance companies of Canada kept faith with their policyholders?

A.—Yes. In good times and bad, they have fulfilled every guarantee 100 cents on the dollar.

WANTED TO MEET

CARD OF THANKS

Mr. Wm. Stannan wishes to thank the many friends for the kindness and sympathy shown during his recent bereavement and for the many beautiful floral tributes received.

Large Crowd Attends "Thunder Over the Orient"

Last Friday night, March 23rd, a large crowd attended the show sponsored by the League for Peace and Democracy. The chairman (Rev. L. D. Bales) called the meeting to order at 8:15 p.m. and explained the purpose of the League for Peace and Democracy. The League for Peace and Democracy is a non-sectarian, non-political, non-partisan organization, the object of which is to secure the peace of the world by the removal of all causes of war.

How Are Life Insurance Funds Invested?

Answer.—In government and municipal bonds and debentures, first mortgages and other securities.

Question.—What do these investments accomplish?

Answer.—They help to finance the undertakings of our Federal and Provincial Governments—our municipalities—our industries and public utilities. They also aid in building new homes and schools—and in improving farms.

Q.—What is the total amount of Life Insurance funds invested in Canada?

A.—More than Two Billion Dollars.

Q.—What does this sum represent?

A.—It represents the accumulated savings of more than 5,500,000 Canadian men and women.

Q.—How do I benefit from these investments?

A.—Through good roads, new schools and local improvements made by your own municipalities, which, in turn, create employment.

Q.—What is the guarantee back of these invested funds?

A.—The security of the individual loans, in addition to the integrity of the borrowers—whether governments, corporations, or individuals.

Q.—Have the Life Insurance companies of Canada kept faith with their policyholders?

A.—Yes. In good times and bad, they have fulfilled every guarantee 100 cents on the dollar.

WANTED TO MEET

Experienced reliable farmer, with full equipment, good references, and capable of showing good results and proper up-to-date, would be interested in improved farm. Apply C. A. Bailey, at 1121-1123, Street, Edmonton.

VIRI HAIR

Selected Good Potatoes For Sale. MacGregor, Strawberry, Vancouver and other varieties. Order early. Phone 42.

Wedding Stationery

Let us show you the new style. We have the latest and most up to date in the selection of your Wedding Announcements, Invitations and Wedding Cards, etc.

Now Clear Siding — CLEAR YOUR GRASS WITH A VIKING MILL

It is the best on the best grade of this mill is being in a sample of dirty grass for us to show.

ALATINT

Where Life Means Nothing

Outside New York Conditions Show In Ruins

"Any Canadian who has common sense should visit Russia and their outlook would be changed," claims Mayor C. B. Dowling of Oakville, Ontario. Mayor Dowling toured the Russian frontier, Poland, and visited Leningrad in Russia last summer. "The conditions in Russia as I saw them, were deplorable," he said.

Leningrad is a city of more than two million, but there are very few of them on the streets," he said. "These people go about with a terror of the streets, and no one knows what will happen next. Life means nothing to the government. The only reason the present rule is being successful is because the people are afraid to run up to objects."

"The only highlight in the present form of rule is the educational development of the children," Mayor Dowling claimed. "While the mothers are out working the children are left in vast houses where they learn about communism and behaviorism. The second generation since the revolution is growing up now. The government will have to make adjustments before the third generation grows up or there will be trouble. They will be well educated and will not stand for the present rule," he predicted.

"The people live on black bread and potatoes and sometimes cooked vegetables. Tourists are advised not to drink water because of the filthiness of the ground, and all given vegetables have to be washed before they are fit to eat."

During his stay he saw the peasants laugh once and the way at all. "They know that they can be light-hearted here and they certainly let it out."

"Finland and the Scandinavian countries are just the opposite to Russia. They are making rapid strides ahead and are putting up new buildings and improving their country," he said.

Radars Water Levels

Report On Water Conservation Approved By Ducks Unlimited

T. C. Main, chief engineer and expert on surface water problems, has been appointed general manager of Ducks Unlimited (Canada) Corporation, officials announced.

Mr. Main, former chairman of the Engineering Institute of Canada and an employee of the Canadian National Railway, has been named to Ducks Unlimited to detail water conservation plans of the corporation.

Mr. Main will open the main office of Ducks Unlimited at Winnipeg and appoint provincial managers to carry out work of restoring water levels in efforts to increase population of waterfowl in Western Canada.

Eight years ago Mr. Main worked with the federal government as an advisor on reclamation problems and in 1931 studied drought area conditions for the Saskatchewan government.

Women Radio Announcers

C.B.C. Intends To Try Out The Experiment Shortly

Major Chisholm Murray, general manager of the Canadian Broadcasting Corporation, revealed before the parliamentary committee on radio that women might some day take their place before the microphone as announcers.

In outlining details for a ambitious program of broadcast and covering questions regarding the C.B.C. staff, Major Murray said the corporation would shortly experiment with women as announcers. Efforts also would be made to discover "radio personalities" with which he believed Canada was richly supplied.

George Bouchard (L.N. Kamouraska), urged that the corporation staff be augmented by addition of an official who would be able to interpret "the viewpoint of the rural population and work toward development of a public in rural life."

John: "What's made you so late?"

John: "I ran into a garage on the way."

John: "Did you need some repairs, then?"

John: "No, but the garage will."

ELEVEN DEAD, HUNDREDS INJURED IN NORTH PERIN TORNADO

The town of South Perth, Ill., 1,200 population, was virtually wiped off the map when a tornado struck, killing 11 persons and injuring more than 100 others, and destroying all but two brick houses around approximately 300 buildings. The photograph shows the injured being cared for in a Perth hospital.

Power By Radio

Rapid Progress In Being Made In This Development

Power by radio—for years the dream of inventors is now within sight, the London Standard declares.

The newspaper quotes an "electrical authority" as saying that "one company has already found it possible to control the lighting of single lamps from a distance by wireless."

"It is considered that their system might be useful for signalling purposes, for example, for controlling the lights on police boxes by wireless, or for air-raid warning lights in time of war," the expert added.

"The present research on the subject is directed towards radiating electrical energy in large quantities over long distances at a comparatively low cost. There is hope that it may be possible to do this by means of short-wave radiations."

By stimulating wires and cables, it may even be possible to distribute electricity by radio more cheaply than by the present wired systems.

Depends On Test

Wylie Page, 34-year-old Negro merchant of Charleston, W. Va., has applied for a patent on a coal dust carrouser which he claims will take a car 50 to 75 miles on a gallon of dust.

He hasn't given it a final test yet but will soon. And whatever happens, "this is my last year working," he says, because "if the carrouser works, I won't have to labor. If it explodes, I won't be in a north to work."

In any opinion, a carrouser should stand about three feet from the microphone when broadcasting: says a head leader. Some people would say three miles.

A kind of candy is made from sugar and rose petals by the Chinese.

The newspaper quotes an "electrical authority" as saying that "one company has already found it possible to control the lighting of single lamps from a distance by wireless."

"It is considered that their system might be useful for signalling purposes, for example, for controlling the lights on police boxes by wireless, or for air-raid warning lights in time of war," the expert added.

"The present research on the subject is directed towards radiating electrical energy in large quantities over long distances at a comparatively low cost. There is hope that it may be possible to do this by means of short-wave radiations."

By stimulating wires and cables, it may even be possible to distribute electricity by radio more cheaply than by the present wired systems.

Depends On Test

Wylie Page, 34-year-old Negro merchant of Charleston, W. Va., has applied for a patent on a coal dust carrouser which he claims will take a car 50 to 75 miles on a gallon of dust.

He hasn't given it a final test yet but will soon. And whatever happens, "this is my last year working," he says, because "if the carrouser works, I won't have to labor. If it explodes, I won't be in a north to work."

In any opinion, a carrouser should stand about three feet from the microphone when broadcasting: says a head leader. Some people would say three miles.

A kind of candy is made from sugar and rose petals by the Chinese.

Power By Radio

Rapid Progress In Being Made In This Development

Power by radio—for years the dream of inventors is now within sight, the London Standard declares.

The newspaper quotes an "electrical authority" as saying that "one company has already found it possible to control the lighting of single lamps from a distance by wireless."

"It is considered that their system might be useful for signalling purposes, for example, for controlling the lights on police boxes by wireless, or for air-raid warning lights in time of war," the expert added.

SAVE 25% TO 50% ON YOUR WELDING JOBS

WE HAVE RECENTLY INSTALLED ONE OF THE FINEST ELECTRIC WELDING MACHINES IN CANADA.

THE PORTABLE WELDING MACHINE ENABLES US TO DO A LARGE NUMBER OF REPAIRS WHENEVER THE JOB MAY BE, FROM 25 to 50 percent BELOW ORIGINAL PRICES.

Our high standard of workmanship will be maintained and service greatly improved—so a saving to you. We are now repairing all parts of Steel Drills, Plows, Tractors and other machinery regardless what it may be.

You are invited to come in and see this machine work. Questions on all work cheerfully given. See us first!

An Industry To Nurture

At a time when Western Canada is looking around for more sources of revenue to fund governmental treasuries and to augment the supply of cash for private and corporate enterprise, it might be appropriate to give some serious consideration to the advisability of devising methods to develop country traffic to a greater extent. There has been a daily increase in the number of tourists from the United States and the provinces, and it is not surprising that the money brought into the country by visitors from these sources is becoming an important factor in the national economy. It is true, of course, but it is also true that the money generated by tourists is the purchase of commodities and services which they are here to consume. It is not the revenue of the country, but it is the revenue of the provinces. It is true, of course, but it is also true that the money generated by tourists is the purchase of commodities and services which they are here to consume. It is not the revenue of the country, but it is the revenue of the provinces.

Beneficial To The Land

Taking the country as a whole recently released figures show that Canada benefits very substantially by tourist trade and moreover that figures show that tourist trade ranks high in the nation's industries after other advances have been made for the convenience of Canadians.

A preliminary estimate made by the Dominion Bureau of Statistics shows that the total expenditure of tourists in 1937 was approximately \$280,000,000, while the total expenditure of Canadians living in other countries was approximately \$120,000,000. The corresponding figures for 1936 were \$210,000,000 and \$100,000,000 respectively. These figures not only show that the tourist trade, both inward and outward, is growing, but that it is a very substantial trade balance in favor of the country is depicted a balance of \$172,000,000 in 1937 as compared with \$112,000,000 the preceding year.

When it is figures are compared with the total revenue derived from them in recent years they are quite impressive, but unfortunately it is not so easy to estimate the comparative value of the tourist trade in regard to the private industries, perhaps not as much as might be if greater efforts were made to attract more visitors with money to spend more leisure time in Western Canada.

Beneficial To The Taxpayers

There are reasons why the most enjoys a tremendous privilege of the comparatively new source of wealth. They are to be found in greater ease of taxation on both sides of the international border, accessibility and the existence of first class highways. Some of these advantages cannot be expected to accrue to the west immediately, but there is reason to believe that the west could derive a larger share of the benefits if more attention were paid to improvements in the highway system in the private provinces, in addition to completion of the Trans-Canada highway and its maintenance in a state of high efficiency.

An improved highway system is a project which might well receive attention as an appropriate form of tax revenue, and it is not surprising that it has been so. Such work would yield a great deal of unskilled labor and also available and it would have that merit, if properly carried out, and economically carried out, it would be a great benefit to the taxpayers of the country, in direct form to some and in indirect form to the rest.

There is much of them in the Western Canadian scene and to many of our neighbors to the south the westerners and westerners of Canada have a romantic allure which attracts a large number of tourists. The highway facilities made travel more certain and more easy and made these chances more readily accessible.

However, the completion of a first class highway across Canada with notable lateral links should not only have the effect of drawing more tourists to the prairie provinces but should also make more tourists to Eastern Canada tourists to the west.

A Workable Scheme

The past few years of agricultural depression have not only taught westerners the necessity for greater diversification of agriculture but also the need to make other industries more attractive if the economic life of this section of Canada is to become more stable. Some of these industries are not only profitable but also have a great deal to offer to the taxpayers of the country, in direct form to some and in indirect form to the rest.

There is much of them in the Western Canadian scene and to many of our neighbors to the south the westerners and westerners of Canada have a romantic allure which attracts a large number of tourists. The highway facilities made travel more certain and more easy and made these chances more readily accessible.

Protecting Your Cane

Britain's enormous cane sugar industry is the most important source of sugar in the world. It is a source of sugar which is not only of great value to the world but also to the British Empire. It is a source of sugar which is not only of great value to the world but also to the British Empire. It is a source of sugar which is not only of great value to the world but also to the British Empire.

Relief For The Land

While ownership of land brings with it a great many privileges it also brings the assumption of responsibilities and obligations to all who own or use the land. It is the duty of the owner to see that the land is used in a manner that is consistent with the public interest and that it is not used in a manner that is detrimental to the public interest.

As a result of these two facts, the landowner has a duty to see that the land is used in a manner that is consistent with the public interest and that it is not used in a manner that is detrimental to the public interest.

It is true that in Western Canada, at least, governments, both provincial and municipal, have taken steps to prevent landowners from exercising their rights in a manner that is detrimental to the public interest.

This action has only come by major shifts in the laws of taxation and in the nature of municipal taxation, by relieving the land of the necessity of contributing to the cost of municipal services, which it was never intended to do.

It is hoped, of course, that the Royal Commission on Dominion-Provincial Relations will make its report to the Federal Government, the recommendations will be adopted, and the land will be relieved of a burden which is incapable of carrying. That the limit of capacity has been not only reached, but passed, is borne out by the testimony received by the commission from persons who are familiar with the conditions of landowners in various parts of the country.

Hope For Relief

There has been hope for relief and practical solution of the problem will be reached and accepted. If the act can be passed, the act is staggering under an impossible burden it is reasonable to assume that some attempt will have to be made to the problem and some steps taken to remedy the situation.

It might well be pointed out here that theoretically the grading prices of municipal services are paid for by the landowner and payment on the basis of ability to pay. All authorities are agreed upon this. But, as a result of the present situation, the landowner is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

With the development of the service idea of government, "as was properly stated recently by J. J. Smith, Deputy Minister of Municipal Affairs in Manitoba, the landowner is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

If the services rendered by government consist of the development and maintenance of the land, the landowner is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

With the continuing growth of the service idea, more and more municipal services are being rendered to the landowner. The landowner is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

It is, therefore, quite evident that there must be a reorganization of the landowner's contribution to the cost of municipal services. The landowner is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

Diagnosing in Great Britain has been in recent months the subject of the landowner's contribution to the cost of municipal services. The landowner is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

It is said that the landowner's contribution to the cost of municipal services is not able to pay for the services he receives. He is not able to pay for the services he receives. He is not able to pay for the services he receives.

The status of the House of Lords is a little more than six feet three inches tall.

[illegible]

As he hung up, he turned to three silent listeners. "Can you hear that?" he started.

"Some poor girl wants us to smooch up a climbing tree on Mulberry Street. It was indeed last night when she called and her kisser clothes are in there."

Jiffy Crochet

Household
Aids

"To my pal, Ernest, and to you, Earl," said Mr. Wyncoop. "And to all the Singleys."

"Hands across the sea," said the earl.

"To the British lion and long may he roar," responded Mr. Wyncoop.

"Columbia, the gem of the ocean,"

"I got a nice bite to lunch back home," said Mr. Wymcoun. "And it's worth—" he mused a figure only twice the truth, and felt that he was justified by the fact that he was beginning to see Dr. Polver. "And I'm no joker. Patsy Being, writing him of the middle-west means a lot of course; but why not the far-west? Why not the east? And the south? And the whole globe? I'll be a doctor. "What? not India? And the West? Might take a bit of doing, but with proper financing."

French Government.

Casualty officers and crews would be sent. He said to bring the ships to the Pacific Coast, the Minister said. The new ships were masters of the Fraser and St. Laurent.

Thomas Jefferson not only wrote the Declaration of Independence and served as President of the United States, but he also invented the adjustable music rack and a three-legged folding camp stool.

Apple Macneil's boots. It waters me green and brown. I found him quickly after he ran.

There's nothing better!

Her Own Version

The producer of a local dramatic society was giving some final instructions before the curtain went up on the first night of the show.

"I forgot," he said, "the heroine. When the villain takes you in his arms he will begin talking very sensibly. You must say, 'Oh, oh, oh, please save me!'"

The heroine was a telephone girl, and she brought down the house when she cried, "Two thousand, please save me!"

During 1935, England produced 1740 films. This is equivalent to two new ones every day and night, for the year.

**Minister's Son Invents
Irreversible Ear Drum**

The Irreversible Ear Drum invented by A. O. Leonard, a son of the late Rev. A. R. Leonard D.D., for many years secretary of the Board of Foreign Missions of the United Episcopal Church, for his own relief from extreme deafness and loud noise, has so greatly improved his hearing that he now joins in every ordinary conversation, goes to church and the theatre and hears without difficulty. Large-eyed and long-nosed, a blessing to many people. Write for booklet, to A. O. Leonard, Inc., Suite 279, Cinders Conant Building, Montreal.

Tales Of Adventure On The High Seas Told By Crew Of The Schooner Yankee

Land's end with tales of adventures on the high seas, the schooner Yankee, a 30-ton vessel, sailed into Vancouver from Seattle, Wash., on May 15, 1968, after a voyage of 18 days, 10 hours, 10 minutes, 10 seconds, and 10 tenths of a second.

Running and sailing their craft to many odd corners of the globe, the crew of the schooner Yankee, a 30-ton vessel, sailed into Vancouver from Seattle, Wash., on May 15, 1968, after a voyage of 18 days, 10 hours, 10 minutes, 10 seconds, and 10 tenths of a second.

The captain, Fred Johnson, and the crew of the schooner Yankee, a 30-ton vessel, sailed into Vancouver from Seattle, Wash., on May 15, 1968, after a voyage of 18 days, 10 hours, 10 minutes, 10 seconds, and 10 tenths of a second.

Isolating Life Work

Parents should advise children that the world is a very big place, and that they should not be afraid of it. They should be taught to be curious and to explore the world around them.

A Long Time Since

We are reminded of the time when we were young and full of life. It seems like a long time since we were so carefree and so full of energy.

Facts To Be Considered In Connection With Farming Operations In Canada

Statistics of the farming industry in Canada show a steady decline in the number of farmers. This is due to a variety of factors, including changes in the economy and the aging of the farming population.

Stimulate Egg Trade

There is a need to stimulate the egg trade in Canada. This can be done by encouraging farmers to produce more eggs and by promoting the sale of eggs in restaurants and other food service establishments.

JOYS AND GLOOMS

Life is a mix of joys and glooms. There are times when everything seems to be going well, and there are times when everything seems to be falling apart. It is important to find a balance between the two.

WHAT HO!

What a wonderful world we live in! There are so many things to see and do, and so many people to meet. It is a truly amazing experience.

Political Postscript

Politics is a complex and often confusing subject. It is important to stay informed about the issues and to participate in the democratic process.

How Does Life Insurance Benefit Living Policyholders?

- Answer.**—It enables policyholders to build a substantial cash reserve for future needs—and at the same time ensure protection for their families.
- Question.**—How does Life Insurance secure funds for retirement?
- Answer.**—When the need of protection is passed, the proceeds of a policy may be used to provide a guaranteed monthly income.
- Q.**—What percentage of Life Insurance payments are made to living policyholders?
- A.**—Approximately 75 per cent.
- Q.**—How is the balance of these payments made?
- A.**—In death benefits to the beneficiaries of policies.
- Q.**—How much money does Life Insurance distribute each year to living policyholders in Canada?
- A.**—More than \$300,000,000 a year.

This is the story of a series of messages sponsored by Life Insurance Company of Canada. The records to appear in this series will show how Life Insurance can help.

Greater Interest Is Taken In Teaching Agriculture In Our Canadian Schools

For no other negotiation, with the possible exception of the one leading to the Government's decision to make the 1950-51 school year the first year of the new curriculum, the Ministry of Education has been more active in the past few years than in any other period of its history. The Ministry has been more active in the past few years than in any other period of its history.

How Does Life Insurance Benefit The Farmer's Wife and Children?

Answer.—If the farmer has life insurance, the wife
and children know that they will not be in want in
case of his death.

Question.—How would insurance help?

Answer.—It would provide money for living
expenses, pay debts, meet mortgage payments,
help help, could take the farm as a mortgage.

Q.—Couldn't this be done through ordinary
savings?

A.—Usually a farmer leaves only a small amount
of cash. Not can he save to live long enough to
save an adequate sum. Only through Life Insurance
can he, with a minimum of saving each year, have
the necessary money available in case of death.

Q.—How do the children benefit?

A.—The father who has life insurance is sure that
the children will have the home, care and education
that is insured.

Q.—How does Life Insurance benefit the farmer
himself?

A.—If he lives to a retiring age, his insurance will
provide a cash income to care for him.

Trees To The Rescue

With the drought now definitely broken over the greater part of the province and prospects of a period of more abundant moisture being bright, the time has come when the planting of trees might well be given to the advantage of a definite and well-organized program of tree planting throughout the province and tree planting clubs in all municipalities.

It is noted, of course, that tree planting is but one of the means by which the province can be made more beautiful and more fertile. The Prairie Farm Rehabilitation program has been made comparatively little use of in this line, attention in the having been mostly concentrated on the reclamation of degraded lands and water irrigation projects. Undoubtedly tree planting will result in many of the districts now being served or about to be served by the reclamation and irrigation schemes as a matter of course, but there are still many areas and individual farms where for topographical and other reasons do not lend themselves to irrigation by feasible irrigation projects. In these areas, trees are the only way to secure new dry tree planting should not be pushed ahead to the extent that available time and space permit.

A Valuable Aid

That trees, wherever they can be made to grow, serve the purpose as they are important part in farm economics and can be made to go a long way, sometimes even under adverse conditions, towards securing maximum use of the land has been many times demonstrated, as witness the following extract from the annual report of the Canadian Forestry Association, dealing with the subject of tree planting:

"Every district visited furnished strong proof of the possibility of the southern farmer becoming self-sufficient as far as his own fuel supplies are concerned. The fact that the farmer who planted a few acres of being completely overstocked, or at least, in most cases, a halfhearted venture, could maintain in fuel needs during the winter months was a fact that was not to be denied. Every farmer who gave his own needs throughout the south country, and an objective study of this is good enough, and nothing more educational program can be devised."

"At present, on the main line of the C.P.R., in an area of nine square miles, we visited a man who had planted a few acres of trees and was able to supply his own fuel needs. Every farmer in that area could have done this in a few years ago given the same of such things proper consideration."

Can Supply Millions

Whether or not the Prairie farmer referred to in the foregoing extract had sufficient water available for his garden to take the place of rainfall during years when moisture was not sufficient to rain what crop, the Forestry Association's report does not say, but it does state that in the years of normal precipitation every farmer in the country could supply his own table requirements practically the year round, provided he has the requisite shade in the form of trees and bushes.

It is too late, of course, to plant trees this year, but it is not too late to prepare for a similar job to be planned next year; indeed, this advance cultivation and preparation is a valuable one in many respects. Thus, as we noted, most farmers have to be shown the value of the Forestry Association's report who supply millions of trees to farmers throughout the west every year.

Mostly among man-planted trees in the drought areas of the west have been high during the drought period. In the same time, it is surprising how many trees have withered and died, without the ravages of a long period of dry weather. They have not been watered too much, it is true, but they have been watered and drenched to reach the devastating moisture reserves and now these trees are responding again to more copious precipitation.

Opportunity Again Here

The experience of the drought has shown the necessity of the drought years and not act as a deterrent to the planting of trees on the farm. On the contrary it goes to show that, even during a dry period, they are of immense benefit and with the drought and the possibility of a severe drought every encouragement to the individual farmer to take active steps to provide at least for some of his needs in future years, by establishing a good stock of trees at the first opportunity has been presented.

It should further be pointed out that there are many farmers, even in the drought area, who had sufficient water to maintain a garden, if in earlier years they had provided the necessary shelter for vegetables and fruit trees. This means can now be repaired in many cases and with the return of a period of greater precipitation it looks as if the time has arrived when trees should be planted more abundantly.

South Africa may compel some monetary transfers to pay for use of the roads.

An Unpleasant News

To improve on the highways the Government of South Africa has decided to compel the use of the roads. The Government of South Africa has decided to compel the use of the roads. The Government of South Africa has decided to compel the use of the roads.

MAKES A RULING AGAINST PADLOCK DISALLOWANCE

Citizen Justice Minister Ernest Lapointe is not prepared to rescind the ruling that the government will not allow a padlock act, nor is he prepared to recommend a referendum on the constitutionality of the legislation to the supreme court of Canada. This is in a statement made by a ministerial report rendered to the government by Mr. Lapointe.

Two Smack Screens

British Forces For London To Guard Against Air Attacks

When and how it starts dropping on the metropolis, London will face a tougher problem than when the German planes first came to the city from Berlin 18 years ago.

Officials say the defense system will be ready to meet the new threat in the first week of war to show money hunters lightning strikes are not only for the rich.

Attaching planes probably will not only hit the city but also the suburbs, thereby making the entire area of anti-aircraft activity.

To counter the new attack and make less attacks difficult the government is sending out a new type of aircraft to strengthen the balloon barrier which is placed to guard around the city.

The new machine will fly up from gunners placed at close intervals. A new camouflage department of the air staff prevents administration also is co-operating with the Royal Air Force in the defense of the city.

"A.R.P." is the government's plan to protect civilians in bombing raids, and is being carried out by the city authorities. It is a plan to protect civilians in bombing raids, and is being carried out by the city authorities.

Discovery Of New Star

Believed By Scientists To Be Brighter Than The Sun

Discovery which may prove to be the hottest, densest, and at the same time the brightest object ever known in the universe has been discovered by scientists in connection with the discovery of a new star.

It is a star weighing about 6,000 times as much as the sun. It is a star weighing about 6,000 times as much as the sun. It is a star weighing about 6,000 times as much as the sun.

Prof Fritz Zwicky suggested it may prove to be one of the most fascinating objects in the universe. It is a star weighing about 6,000 times as much as the sun.

"This super nova (a 'white star') was discovered last August at the Palomar Observatory, which is the largest telescope in the world. It is a star weighing about 6,000 times as much as the sun.

At its maximum it was the brightest object ever observed, and it is now fading. It is a star weighing about 6,000 times as much as the sun.

It is a star weighing about 6,000 times as much as the sun. It is a star weighing about 6,000 times as much as the sun. It is a star weighing about 6,000 times as much as the sun.

The End

Wedding of Midgets

Several women were trampled and several others faintly with blood on their faces. The strange men were taken to the hospital at Blackpool, England, where two men are of the midgey colony known as "Tiny Town" were married.

Anne Karpis, the 45-inch bride, was the principal daughter of the midgey troupe. The groom, George Rattis, is two inches taller. Henry Cho, mayor of Tiny Town, gave the bride away.

Carrots have been under domestic cultivation since the dawn of history. It once was the fashion for ladies to wear carrot leaves in their hair.

are cultivated as garden crops and straw strewn between the rows to keep the soil moist. To the "straw-bers", from their habit of propping up runners straying from the main plant, they are the ancient name of the fruit which conquers Roman legions and Norman knights. In the garden, they are the "straw-bers" of the English fields, parasitized among the fruit-poles of London orchards. In the garden, where they stray—straw-bers.

Vanishing Wealth

Whether or not we thought of their proposal that the administration of the national resources of the country revert to the Dominion government, the statements of the Federation of Ontario Manufacturers, in their brief to the Royal Commission on Dominion-wide relief, will give priority to the transfer for relief and serious consideration.

Whether or not we agree that the remedy for existing conditions lies in their general recommendation, namely that of vesting the control of the resources in the Dominion government, the country at large owes a debt to the Federation for its timely note of alarm, and its warning that the organization, deep in the Commission's attention, is no movement toward the proffered way that the resources are being dissipated for immediate gain with little or no thought for the future of the country.

One has only to read the brief to be strongly impressed with the necessity for drastic measures to ensure conservation of this great heritage if the present generation is not to be deprived of many of the advantages economic and material, which the conservation of such resources brings and it is patently in need to be entirely stopped.

That great wastage of a precious inheritance has not only been allowed in the past but is being practiced to the detriment, present and future, of the entire country, is brought home with realistic force. The evidence is writ large on the pages of the brief and the statements cannot well be refuted.

Figures quoted indicate appalling losses to the country as a result of wasteful methods of agriculture and husbandry, resulting in depletion of major supply, essential foodstuffs with resultant loss of moisture when most needed, followed by soil erosion supplemented by further loss to valuable stands of timber from forest fires.

The forest area burned in Canada during 1936 totalled over three million acres, or 4,000 square miles. When added to this the large amount of timber which is being cut and sold for pulp and paper, the depletion of the pulpwood industry, for fuel and for other purposes with comparatively no provision for replacement, one may well wonder how much longer these valuable resources will continue to be available to the Dominion. The estimated losses are given to the future revenue of the Dominion, on the failure of the timber industry, and in general, on the loss of income and property of the people.

Intensified Soil Erosion
"It should be remembered," very aptly says the Publication, "that repeated fires throughout large areas of Canada, where the forest has been destroyed and the soil exposed, have resulted in the loss of some of the most fertile lands in the Dominion. The erosion of the soil has been such that in many parts of the Dominion the soil is being washed away or blown away of such soil which leads to the loss of the soil and which means a loss of permanent revenue-producing potentiality."

Not only does the extravagant dissipation of the forest resources result in a serious loss to agriculture and to the industry of the soil, and the drying up of the water supply, but it also adds to the depletion of the soil, and the depletion of the industry upon which the people are dependent. The depletion of the soil has been such that in many parts of the Dominion the soil is being washed away or blown away of such soil which leads to the loss of the soil and which means a loss of permanent revenue-producing potentiality."

"To most of us," again quotes the Publication, "the 'plight of some of our wildlands has become desperate. This is especially true in the case of western wildlands where, by overgrazing, there have been losses of very large numbers through drought in their nesting grounds on the prairie. The situation there is so desperate that the Government has been unable to totally protect, and that for the continued existence of several species of wildlife, for the maintenance of the moose and other animals."

What authorities in other countries think of our primitive and undeveloped methods may be summarized in a statement made in 1935 by Professor Tamm, head of the Imperial Forest Project Institute at Edinburgh, who is well conversant with protective measures adopted in his own and other European countries, when he said:

"I was frankly shocked, as were many of my colleagues, at the extent to which the forest had been destroyed with little or no attempt at replacement. Whenever we have been in the forests of Canada, we have seen the past, the Dominion and provincial governments cannot now plan the future, but have not had far warning as to what will happen if this policy is continued. It is in full agreement with the Commission that something must be done and that the Dominion must be able to control the forest and its resources in relation to bringing pressure to ensure natural regeneration and sustained yield."

In the light of the statements made to the Royal Commission, the one suggested in support of the continuation of the forest and the evidence of the deterioration, national and international, at the present time, it is not surprising to be done about it than is now being done.

Sabbath Men in Tokyo
Osaka, Japan, December 10.—The Japanese Government has issued a decree that the Sabbath men in Tokyo, who are known as the Sabbath men, should be allowed to work on the Sabbath day. The decree is a result of the fact that the Sabbath men are now being used by the Japanese Government for the purpose of working on the Sabbath day.

Coronation Best Engines Will Visit United States in January

The London Midland and British Railways Corporation has announced that the Coronation best engines will visit the United States in January.

The train, consisting of streamlined locomotive and eight coaches, will visit the United States via the Great Northern route.

On arrival the engine and train will be assembled in the Hall of Science of the Smithsonian Institution.

Before going on exhibition at the New York World's Fair at the end of April, the Coronation train will make a tour of American railroads.

During the tour, the train will cover 10,000 miles and will be seen by over 1,000,000 people.

The Coronation train will be seen by over 1,000,000 people during its tour of American railroads.

Poultry Commission In Great Britain Following Methods Used In Canada

In 1920 the Poultry Registration Commission for England and Wales was organized to control the industry "to consider the present methods of supply, the production of healthy eggs, day-old chicks, and brooding chicks in Great Britain, both generally and with particular reference to the reduction of poultry mortality and to make recommendations for the improvement of these methods."

Some of the best poultry work in the world has been done in Canada, and it is interesting to know that the same recommendations on what has been done in the Dominion for many years previously on the Record of Performance and History Agency policies which have been in operation during the past 30 years.

In the formation of the industrial committee, the British Ministry of Agriculture has now set up a Poultry Commission for Great Britain with powers to control the distribution of brooding stock, brooding eggs, and day-old chicks with the responsibility for checking stock improvement schemes on voluntary basis limited by provisions made in the Poultry Commission Bill. In addition, the establishment of a Poultry Commission has been undertaken for the investigation of all stock and problems connected with the industry.

Some years ago the Canadian Record of Performance policy was recognized, partly as a means for the development of general efficiency in farm flocks, and as an added incentive of approval the British Ministry of Agriculture has incorporated practically the whole Canadian Record of Performance policy in the British poultry policy. The British Ministry stated that the Poultry Commission "the British Government was of the opinion that a factor contributing to the improvement of the poultry industry is the lack of organization in the marketing of home-produced eggs. The Canadian example is particularly available, and it is suggested that the marketing scheme in this country be a region of the method followed in Canada."

Active Red Clover
Canadian Experiment Station Work, by Dr. Pauline Soper, states that black clover which has been used with red clover in recent years at experimental stations in Canada and other countries. This applies to both single-cut and double-cut types, and, as a result, there are numerous of these types which promise to be superior under Canadian conditions to those now generally grown.

There is, for example, the Ottawa Selection of double-cut red clover which has been chosen for its selection methods at the Central Experimental Farm, Ottawa, since 1913. This strain is a more vigorous and heavier yielding than the average red clover now grown. It is considered an improvement on the double-cut red clover that was grown in 1917 by the Dominion Experiment Station of Agriculture to have it multiplied on a large scale for distribution. It was used placed with 20 flocks, and the same strain was placed with 20 flocks in the same County District. It is considered that it is better than any other clover now grown in Canada, and it is suggested that it be multiplied on a large scale for distribution. It is considered that it is better than any other clover now grown in Canada, and it is suggested that it be multiplied on a large scale for distribution.

The plant known as Jack-in-the-bush, in its native state, is a very good pig food.

Italy is worried over increasing emigration of its young men, and the government is trying to encourage them to stay.

WHAT MAN WILL DO?
Coming home on the train last week, we enjoyed an interesting conversation with a fellow passenger, who seemed to have travelled on the train. Our talk naturally revolved on a variety of subjects, including the relief problem and what the Government was doing towards the situation. While on the subject, he happened to mention that "while hundreds of folk man walk from the bank, Mrs. Francis to receive a national monetary order. About two hundred members will live in Africa and India and in even more distant and heated buildings. The money house will be one of the attractions of the San Francisco exposition in 1939. Thousands of dollars will be sent to construct up-to-date living quarters for a bunch of monkeys, while the men and their families, are forced to live in over-crowded, and poorly heated buildings. It is said that, "rather than spend several thousand dollars in repairing the Box at Banff, it was decided the money could be put to a much better use. Therefore, the Box at Banff has been demolished."

LONG SHOOTERS COLD TUBS
From Large Commercial Office
Grain and Milling Advertising Office, distributors of grain elevator advertising to the weekly papers have prepared and submitted complete calculation of advertising to their country elevator clients for the 1936-37 season.
Last year, due to lack of rainfall, hundreds of local elevators were closed in the drought years. Despite the fact that these elevators were not open for business the Commission adopted the policy that they were members of the community and that their elevators would still be there when crops grew again. They took the further view that despite crop failure the local paper should be kept informed and kept up to date in the report of the North West Grain Elevator Association in the drought areas on the basis of half the appropriation of the preceding year.
With the return of a good harvest, elevator companies agreed to revert to their former advertising relations and new advertising instructions have been received at this office.
Local merchants could do worse, if they followed the example set by the companies. Good or bad years the paper is read by hundreds of your customers, and at the least, the paper could stand a "revival."

Money required?
Under any Plan, Emergency Agency, you don't need money. Just bring your own money. And if you don't have a lot of high grade money, you can get it from the Government. Use "Gillette Grain Co. Ltd." as your nearest Merchant Agent.

Line Elevator Companies and the Wheat Board

Attention has been drawn to statements suggesting that Line Elevator Companies opposed the establishment of the Wheat Board and took no part in the advancement of the farmers' case before the Turgon Commission. These and all similar suggestions are false.

The mission of the wheat question requires the co-operation and goodwill of all those interested in the welfare of Western agriculture.

The 1936 Wheat Board was established because conditions in the international wheat situation demanded it, because that fact was recognized by the Government, and, because, because all thoughtful Westerners and Western organizations, including the Line Elevator Companies, strongly supported it.

Realizing that wheat and not competition amongst all those interested in the progress of Western agriculture and the human factor of common problems are more than ever necessary and that the greatest disaster that any organization or individual can do in these present difficult times is to spread falsehood, innuendo or half truths, the Line Elevator Companies feel it necessary to draw your attention to

The Following Facts: Before the Turgon Commission:

- On the Opening Day, Commenced for Line Elevator Companies was the first to address the Commission for the purpose of the business Western Farmers. He referred to tariffs, inflation, the cost of things farmers buy, transportation costs, etc. He said:
- At Calgary, extensive evidence was offered of the increased costs of things which farmers buy. In answer to Mr. Justin Turgon, Commenced for the Line Elevator Companies:
- "I want to say, quite frankly, my Lord, that the elevator companies do not oppose the establishment of a Wheat Board. Rather, we are all in favour of anything that will give the farmer the necessary protection, as I indicated at the beginning of this hearing, that our attitude towards this Commission is that we would like to join with everybody else in the world in the best remedy for the life of the farmers."
- In the formal written argument submitted on behalf of the Line Elevator Companies—Commenced said:
- "It is submitted that a wheat board should be established as long as it is not available for the government of price in case the prevailing world price declines below a fixed figure and in order to ensure the greatest minimum price possible for the producer."

The 1938 Wheat Board

In 1938 the Line Elevator Companies advanced and supported a Wheat Board and the highest possible minimum price. Oral representations to the Dominion Government were supported by the following letter sent on July 19th, 1938, to the Dominion Cabinet and the Chairman of the Wheat Board:

"We understand from recent Press reports that the minimum price for the current crop year for wheat will be determined and announced by your Board and the Government in the next week or two days. Our Association placed in evidence before the recent Royal Grain Inquiry Commission the following:

"Volume 1, page 38. 'At this point I may state that my clients are absolutely ready to move forward for a relief of the farmers' and for the protection and to support as long as any condition, either national or international, external or internal, would relieve and that that support necessary for the maintenance of adequate living standards for farmers and their families.'"

'And again, Volume 1, page 38, 'It is the deliberations of this Commission are to have the constructive effect which it is desired we believe that it should consider the economic position of the Western Farmer in the national household, in any emergency directed towards those who are in any way connected with this problem. It is intended to state that my clients will wholeheartedly join.' Bearing in mind the welfare

"The members of the North-West Grain Dealers' Association are pleased to state that the Dominion Government has recognized the principle that, in the face of adverse international and national conditions, the welfare of the Western Farmer is entitled to Federal support, even at the risk of loss to the Dominion Treasury. We wish, however, that the Dominion Government should be able to guarantee a higher price."

To Protect Newspapers

Insurance Company in London, Ontario, for the New York, says they now have an A.R.P. office in London, A.R. Post Production, is gathering from a piece in the New York World, which is slightly counter to the position of the Journal in the event of a hostile air attack. The Canadian has also pointed out that an emergency of the continued distribution of newspapers would be a very serious matter, and that any specific prohibition, but one of the largest newspaper distributors in the world, the City has an elaborate program. Truth drivers and their assistants taking papers to railroads must wear clothing which will give reasonable protection against gas. Cheap newspaper will be used on bundles, to be discarded if contaminated by gas. The post, of the point said of 1,000 people will be highly trained in gas, fire, and first-aid work. Paid telephones have been assigned against a breakdown in the normal mail and the carriage into the news room is 1,000.

The latest figure shows 5.4 marriages per 1,000 of population. The only country with a higher marriage rate was the United States, Africa, Germany and Denmark. Italy is next.

Alternative opinion has been arranged for every department as to the future of the news. The only country with a higher marriage rate was the United States, Africa, Germany and Denmark. Italy is next.

Hazards In The Kitchen

Flavors in the Kitchen

**Simple Precautions Should Be Taken
To Prevent Accidents**

The kitchen is generally known to be the place where mother cooks the family's meals. But the kitchen is now discovered to be the place which caused 8,000 deaths last year and where more than a million were injured in the United States alone. Students of accidents proclaim the kitchen to be one of the world's most

Dangerous spots says the Toronto Star Weekly
 Women's parity with men should stop and provide over the rest of serious accidents which occur in kitchens, because women's majority in the kitchen. Accidents in the kitchen occur chiefly because of thoughtlessness and over-confidence. For example a woman used some inflammable fluid to polish the top of her stove. Her clothes caught fire and she was burned. A lot of four children were hospitalized while preparing to hunt a bottle of milk for the baby because she had accidentally turned on a gas jet in her kitchen.

Just A Success Story

hoping that high school has not changed the contents of his arteries, and that, while Governor-General of Canada, he may be gathering materials for many delectable romances

to come when he has taken down the burden of office. Few writers have got into print as young for "John Burnett of Barns" was written at 17 and published before he was 20.—
Glasgow Bulletin

Her Only Worry

A young lady of our town, says the Cleveland Plain Dealer, who is equally fond of polo and golf wonders why it wouldn't be possible to

work out a combination of the two and call the result "gods." "I've given a lot of thought to this new game," she tells me, "and the only thing that worries me is that I can't

Figure out any way you can avoid getting off the horse to quit."

No aped in the British Isles estimated more than 80 miles from the sea.

work out a combination of the two and call the result "golo." "I've given a lot of thought to this new game," she tells me, "and the only thing that worries me is that I can't figure out any way you can avoid getting off the knee to put."

Railway Problems

I was interested to read in a recent issue of the Railway Empire journal the story of a lady carrying a prospective passenger on western trip, the lady was representative of a certain race with a problem. She had a young baby and she had to be assured that a supply of its particular milk would be available.

The railwayman the article figured the number of days before the trip would require and the quantity of milk necessary to be bottled, informed another where she could purchase a container to accommodate that number of bottles, and made arrangements with Pullman porters for heating and icing on the trip."

The point of the story is that the traveler had come to a new

The trouble was, the second was an old-fashioned railroader, used to understand that in days of keen competition the only way to get the business is to be prepared to be courteous and take little extra service charges. He makes friends. Like every other man, the railroads cannot afford to be cheap. Their customers

Speed And Happiness

How You Feel
Success or a bit of good luck brings happiness to reflect the tempo of our nation. If a sudden cause for rejoicing talks with a springy step until reaction wears off. It also has to have effect on the foot because of the way people move.

Case No. 1 was that of a woman who pleaded guilty to driving 50 miles an hour in a city where the speed limit was 30. The reason was that she felt "excited" as the date of her marriage

No 3 was a girl whose car was a red and white...

Then there was a man who stood hard on the gas because he had just been notified of a job. Ten years must come out of his first 10-year lap.

Have Run Into Trouble.

Science has run up another
bill at the poultry department
Cornell University
Jugglers at that seat of learn-
ing have succeeded in breeding a ty-
pical chicken without feathers. But

It is all very baffling, and reminds me that we have bred a race,

A cenotaph is a monument to someone buried elsewhere.

Professor: "What do you do to
about anonymous letters?"
Professor: "They're stupid! I read
but I never answer them."

LAMMIBETIX OLD-TIMER PASSES AWAY

district and member of the third family who arrived here in 1880 to work in this district, Mrs. Laurin Moreaux, 72, died in an Edmonton hospital late last Friday.

The town of Lamouroux was named for Mrs. Lamouroux's relatives who lived in the district a few years before. The family is one of the best known in this part of the province. The funeral service was held on

Monday at 9:30 from the family residence to the Lamoureux church, where services were held at 10:00 o'clock. Rev. Father Garnier officiated, assisted by Rev. Father Boucher.

The funeral home to mourn for Rev. Father Camille. Interment took place in the local cemetery. The survivors were: Monsrs. E. Paradis, Villemore, L. Van Acher, S. Vilmagais, J. Normandeau, A. Bernier.

Mr. H. W. Phillon, Edmonton.

Funeral of Mrs. Regina Fletcher

Mrs. Regina Fletcher, nee Latta, aged 83 years, of Beaver Hills, passed away at her home, Thursday, Oct. 8th.

rs. Fischer was born in Hennersdorf, Bohemia-Austria in 1855. In 75 she moved to Germany, where, two years later married Santa Berardi. In 1884, she became a widow.

Richard C. Fincher, who pronounced her five months ago. That same year, 1955, they came to Canada, settling down in Ontario, later moving to Alberta, where the deceased has re-

She leaves to manage her loss; two sons, John and Richard of Beaver Hills district, and two daughters, one of Seattle, and Clara, at home.

\$1.75 to \$2.50 per dozen, we will give bonus cards
as follows:

Quantity ordered	Bonus Cards
12	3
24	6
36	9
48	12
60	15
72	18
100	25

These offers expire November 1st.

Fort Record

\$2,000,000 a year

Not only do Western men buy for the East to the extent of over 50,000,000 eggs a year, but over 6,000,000 lbs. of cheese, and their consumers, go East in person to grace the dining tables of Eastern industrial workers.

The East needs the West to feed it. The West needs the East as a market for its produce; so the two work together — the East by spending over \$40,000,000 a year with the Western farmer, and the West — by buying Canadian-built cars.

And that's a point worth remembering, for every car bought in the West helps not only the food-consuming automobile worker — it keeps men working and on payrolls in the rubber, paint, glass, steel, parts, chemicals and many other Eastern industries, so the ultimate advantage of the Westmen is himself!

For statistical and further information about this industry, write to:
Automotive Industries, 1006 Lansden Building, Toronto.

Automotive Industries

Parents are asked awkward questions by their children. Then invasion is the necessity of mother.

"Then couldn't you just accidentally die where Bruce told you to?"

"That's an idea too!"

"Then why don't you? You owe it to yourself. And Joe too. He'd benefit as much as you."

Joe looked at her, his eyes wide open.

"I'm serious, Joe," she said. "I've seen people do it before. It's not hard. Just take a rifle, throw some lead and there—poof!—you're dead."

"You mean like K. Pahlman made especially for me last week and then—"

"Just your system and then I'll make it disappear from somewhere and make him believe he's dead."

"To save all your ass and Pahlman's Compound?"

"Yes."

Corn furnishes man with more than 100 commercial products.

Chestnut trees are most commonly used for telephone poles.

Relations Conference Decides Empire Trade Is Not Enough For Our Needs

General belief that trade within the British Commonwealth of Nations was not sufficient to meet the material needs of its member nations, was expressed at the annual British Commonwealth relations conference, held at Laysan, Hawaii, last week.

Professor George E. Birkbeck, head of the University of Manchester political science department, presiding at the conference, stated that the conference was generally agreed that no policy of self-sufficiency in the Commonwealth trade was either desirable or practicable. Co-operation between the member nations of the British Commonwealth was desirable, but should be viewed as a means to the end, not the end itself.

Professor Birkbeck made clear that the conference was conducted along "confidential" lines. His statement was made of confidential nature. Such delegation, however, presented before the conference, the various member nations in the British Commonwealth, with relation to the various member nations in the Commonwealth, and gave various data on the progress of the conference.

There was general agreement that the standard of living in the member nations was not high enough to support the main factor concerning an upturn in the low-employment rate. It was realized, however, that higher living standards could not be achieved immediately. The delegates agreed that there was a need for the member nations to have a more realistic program for the member nations.

Richardson Grant Britain and the various dominions could not be regarded as having common interests. It was stated in the minutes of the conference that the member nations were not to be regarded as having common interests. It was stated in the minutes of the conference that the member nations were not to be regarded as having common interests.

Air-Mindedness Needed

The very recent inauguration of a transatlantic airplane service to the Dominion makes not only a very important contribution to the commercial and industrial life of Canada.

The word "air-mindedness" is a particularly appropriate term to apply to the development of transport facilities in this country, for the relative rapidity with which new and high-powered airplanes enable us to make our transatlantic flights is a product of the development in the commercial life of the country in the last few years.

Based on the basis of the transatlantic airplane service we can expect the daily transportation of passengers to the other side of the world, and the service may actually be able to effect this time tomorrow.

The next step, and this is most likely to be the first, is the linking up of the transatlantic airplane service with the Imperial Airways line, thus affording through service, direct, express and passenger services between Europe through the Dominion and the important cities of Great Britain and other parts of the Empire.

With such a service operating in the various countries forming the Empire the time to approaching which it will be possible to fly on a single ticket from any important center in the Dominion to almost any important city in any other part of the Empire, or vice versa.

Greater Capacity And Speed

Just how these developments are to be realized to the full it is a little difficult to predict, but the reality with which progress in this direction is being made in a country which has hitherto lagged behind, it may safely be assumed that it is not far distant.

Financially, with the coming of aviation, at the hand of the Dominion, aviation in Canada and other parts of the Empire is a marked progressive development of the transportation and speed of the stage of the world.

Here again, it is difficult to not impossible to predict what the limitations in the other part of capacity may be, but the reality with which progress in this direction is being made in a country which has hitherto lagged behind, it may safely be assumed that it is not far distant.

A Suitable Suggestion

That Canadian Travelers to the United States

Should Travel by Airplane

On the three weeks' tour to Canada

and summer the King and Queen

in their travels from coast to coast

will spend the main time in the

west, in this connection a report

from Ottawa says: "A large number

of the royal party will visit the

neighborhood of \$1,000,000 without

the least delay."

This appears like a

valuable suggestion, but even if this

outside means a high price to pay

for the convenience of the royal

party, it is a reasonable one.

They Majesties. We doubt if the

King and Queen would be pleased at

the idea of being met by a royal train

in the Old West, it might be better

on a boat and brought to Canada for

the visit. A number of years ago the

Royal Barge was shipped to Canada

from the Dominion and the United

States and became a valued attraction

at the Chicago World's Fair.

Next year the Dominion will

have modern trains than the Royal

first, will be brought to the United

States as a duplicate of the New

York's World's Fair.

Why not make arrangements to

have the train brought to the United

States and become a valued attraction

at the Chicago World's Fair.

Next year the Dominion will

have modern trains than the Royal

first, will be brought to the United

States as a duplicate of the New

York's World's Fair.

Why not make arrangements to

have the train brought to the United

States and become a valued attraction

at the Chicago World's Fair.

Next year the Dominion will

have modern trains than the Royal

first, will be brought to the United

States as a duplicate of the New

York's World's Fair.

Why not make arrangements to

have the train brought to the United

States and become a valued attraction

at the Chicago World's Fair.

gress on his back. He put electric blue coat, and gave a blue electric blue trousers. Their unexpressed bow wrinkles at the nose. Then he walked dejectedly door.

"dy!" he asked Jack.

Joe was quite a crowd in front dance hall when they arrived. He appeared at intervals a bomb.

But he bumped his nose. Then, solemnly, he would turn, blankly survey his surroundings, and begin another aimless excursion.

It had been during one of these sorties that Jack had lost his partner. One moment Joe had been steering straight for the middle of the dance floor, only suddenly to disappear as a surging mass of leg-

(Continued from page 1)

DELIVERIES MAIL TO BE

"Hello," he said, "that's it."

All this time he had been thinking

the money coming upon his door

When he reached the Yellow Cross

it was she who heard him fumbling

about the door, and opened it, thinking

it was a cat or dog waiting

At first he could not speak, but

held out his letter.

"If it's the right one," he whis-

pered presently, "I'll take it down to

the store as I've read it's only a few

miles. And I don't want you to have

a Merry Christmas."

"You'll stay all night, of course,"

she said, smiling. "You've com-

pletely used up my tea. It won't be safe

to attempt going any farther."

"Only to Johnson's as I don't want

one or two more, just beyond the

store," he answered. "I have letters

for them which I want to deliver to-

night."

The next day it was still snowing,

and the drifts much deeper. Although

he started early and struggled

through the snow until after dark,

he made little more than a mile. It

was Christmas day, when mail was

not supposed to be delivered, but

Hadden did not even think of that.

He had letters to leave, and anxious

people were waiting for them. No

Christmas was it.

Hadden sent his neighbor's lunch

regularly and smiling. "I don't think

you're overdoing it," he said, try-

ing to be cheerful. "I shall try to

be as good as you." He was not

writing in his book then. What will

it mean to him if I don't get round?

Of course I don't know much about

what's in the mail, but there's the

Yellow Cross, isn't it? I don't want

to go to the store, but I'll go to the

world's up country in a mill. I've got

a little for her this morning. Hello!

Isn't she the one, but I wouldn't be

surprised if she was without word of

mail to long her words as a surprise

to me, that the letter will fit her

just right. How glad I am to hear

from you. You know the Yellow

Cross. They're not to the best ever

morning's worth for me. I've got to

write for them, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

Isn't there a little more, where has

the letter to go to, as it's from China.

"Merry Christmas, as I have"

your mail, as I said, he pressed

as the door was opened. "No, I can't

stop. I'm a good deal behind time, as

you can see. I'll be back in a few

minutes. I'll be back in a few

minutes. I'll be back in a few

minutes. I'll be back in a few

The World of Wheat

A dream after O. Henry's story

"THE GUILTY PARTY."

The other night I had a dis-

turbed sleep after reading the

story from Europe. I had a vision

that the affairs of this world were

being tried by the Great Ultimate

Court. In the presence of that

certain all-powerful deity, "they

are charged," said the official

prosecutor, "with having invaded

other people's lands, with having

brought destruction, death and

suffering upon themselves."

It was not altogether their fault,"

said the defending counsel, as he

made explanations to the Court.

"Before them on either side," said

the Court, "the other parties who

are equally guilty. These statements

who raised tariffs and imposed re-

strictions against commerce, which

made it impossible for these de-

fendants to obtain the foodstuffs and

other products their people needed."

"But if it pleases the Court," said

the Angel defending them, "the

defendants' consciences would be

satisfied if they were told that

Canada and the British common-
wealth are fortunate that a great
crust of gold is developing in the
Turner Valley in the province of
Alberta. Only a few important oil
fields are located under the British
Columbia coast. The oil used by the
British navy has to come from
foreign countries and by routes that
are costly. The oil used by the
British navy has to come from
foreign countries and by routes that
are costly. The oil used by the
British navy has to come from
foreign countries and by routes that
are costly.

The matter is not less important
to Canada herself. It offers the
Canadian government a huge
landed the defence of Britain it will
scarcely ignore the development of
this great new oil field under the
British flag.

Something would be wrong with
the mentality of this country if it
clamped down its oil wells and
limited the production of its oil com-
panies and burned as waste immense
quantities of natural gas while it
continued to send sixty million dol-
lars of good Canadian money abroad
for imported oil and piled up huge
external railway deficits.

Golden text: There are the Christ the Son of the living God. Matthew 16:16.

Lesson Matthew 16 12-20.

Devotional reading: Colossians 1:13.

Exposition and Comments

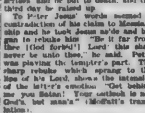

Peter's Great Pronouncement, Matthew 16 12-18. For nearly two years Jesus has been revealing himself by his words and deeds to Peter and the other disciples. Now the companionship with their Master taught them who he is? He was

"That's what I've said! I am
Jesus' next called. And Peter,
apostle for the group, answered
me: 'I am not a prophet, I am
a sinner.' Since then I have
thought: 'You are the Christ, the Son of
the Living God.'"
Jesus' High Communion
Prayer, verses 11-20. Peter's answer
to Jesus' question, "Who do you
think I am?" was "You are the
Christ, the Son of the Living God."
This was understood. "He said art thou
Christ, the Son of David, the Son of
Joseph and Mary?" (John 6:42).
Jesus and blood (human life) both
revealed it unto thee, but my Father
will be true to me.

"I was a great, critical man
in Jesus' career at which his spirit
was doubtful in a high tension. The
disciples were not sure of him. I
simplly would give him a thrust of min-
istry demanding expression."

"I will give unto thee the keys of the Kingdom of Heaven [not the keys of the Church, but of the Kingdom] and whatsoever thou shalt bind on earth shall be loosed in Heaven. Here again Catholics and Protestants understand these words differently. Catholics take the words literally and declare that Jesus here gave the keys to the Church, and that the Church alone has the right to forgive sins. Protestants interpret the words in the light of other Scripture and in accordance with the common use at that time.

While a high official in the ocean ministry reaffirmed Germany's determination to strengthen commercial hold in southeast Asia, the press warned Germany must give the United States more competition in South America. At the same time Berlin's intent in extending its dealings in the Pacific was evidenced by the announcement which high Nazi quarters released on Anti-Americanism.

head of Brinkman, rich secrets states in the economics minister. He was mentioned incidentally in the South American situation in an article in the *Washington Post* review of the Berlin chamber of commerce. He charged the press with being made to disturb German relations with American relations, but it was a conviction the Latin American would be "realistic" enough to resist this campaign.

The main body of his article was devoted to an outline of the main

which it richly intends to create, strengthening economic ties stretching from the North Sea to the Black Sea. Germany will continue to grant preferential tariffs to the countries of southeastern Europe for fast-growing exports, and will pay higher prices than those in effect in world markets for raw materials, it was written.

It will further industrialize, modernize its agriculture and develop its mineral wealth, he said, and will continue to increase effectiveness in its economic cooperation, including long-term trade treaties.

The Frankfurter Zeitung reported Anglo-American trade

Minuteman Brigadier-General Hugh M. Dyer, C.B., C.I.D. five times mentioned in

After the war, he returned to his home in England and became a successful agriculturalist. He was born in County Dublin, Ireland, and was educated at the Royal Agricultural College, New Cross, London, and came to Canada in 1881, settling in the district six miles north of Brandon. When the Great War broke out, he went overseas as second in command of the 5th Battalion with the rank of major. He was twice wounded in 1917 and was made brigadier-general of the 7th Infantry Battalion. Near the close of the war he commanded Canadian troops in the Rhine area of England.

MORE ITALIAN

MORE ITALIAN TROOPS USED IN FRANCO OFFENSIVE

London - The Associated Press reported persons close to the government had indicated that when Premier Chamberlain goes to Rome Jan. 11 he will ask Premier Mussolini to withdraw additional Italian troops from Spain and inform him that he cannot count on British neutrality in case of serious trouble with France in Africa.

The amiable and effective response of Italian Fascists to the warning of insurgent General Franco's Catholic offensive, and glorification

Therefore informed quarters were quoted as saying the prime minister will tell El Barazi that those even though they have a recent agitation in the Mediterranean, are contrary to the letter and spirit of both European agreement for non-intervention in Spain and the Anglo-Italian accord on Mediterranean Spanish questions which came into force Nov. 16.

Lager Farm Issues

Project of Expanding Its Business

Ontario, production on farms in western Canada, linked with projects for expansion in business both at home and abroad, have led the farm management department of the University of Saskatchewan to form what the total farm income during 1930 would be higher than in 1929.

Publishing an address to delegates attending the annual convention of the Saskatchewan Agricultural Society association at the university, Professor R. C. Hays, visited the farm management department's "Farm Outlook for Saskatchewan for the year 1930," to the public. The forecast, based on many economic factors affecting primary production, was compiled by Professor Hays and by H. W. Van Wier, also of the farm management staff.

In discussion of the outlook, Professor Hays drew attention to an important trend from the standpoint of consumption of agricultural products. "If history repeats itself, we are likely to experience an increase in business and production in Canada and the United States.

"The peak of the cycle of building and reconstruction has been reached in the mid-1920s and the building and reconstruction of the United States is likely to be completed by 1930. It is reasonable to assume the consumption of agricultural products will be increased.

"With prospects for the future so bright, the general trend of business expansion is not the cause of alarm. Mr. Hays described the outlook based in years past by his department as one of "prosperity and confidence." Since 1928, however, there has been a great deal of change in the outlook. It is a source of supply for the entire continent.

One of the greatest benefits which have been derived on both sides of the international boundary as a result of Jack Miner's work and his efforts in the development of the value and importance of wild life as an asset to Canada and the United States and of its importance as a medium to trade.

The efforts of this 22-year-old man, who has been in the service of the government here, since he commenced his work, served as an inspiration to individual citizens, agricultural organizations and the government itself. He has been in the service of the government on both sides of the line to go and to deliver. As a result in recent years a chain of bird refuges and sanctuaries patterned after the famous Jack Miner bird refuge has been established in the United States and in Canada thousands of acres have been set aside and preserved for a similar purpose.

Were it not for the individual public demand, largely aroused by Jack Miner's constant devotion of a life-time to a conservation purpose, the laws which have been passed on the status of birds and the agreement between the two countries which has afforded additional protection to migratory birds had been implemented, or if it had been, it would not have been effective.

A Worthy Objective

There are few Canadians who have not heard something of the work and achievements of Jack Miner, Canada's pioneer game conservationist, and thousands of Americans as well as Canadians have this greater natural love in thanks for the opportunity which he has given to the world in hunting such noble birds as the Canada goose and other species of wild fowl which might today be extinct had it not been for the path blazed by Jack Miner over a quarter of a century ago.

What Jack Miner has become almost an international figure on the result during that period of the time of his home and laboratory on Kingston, Ontario, have spread far and wide, it is not as well known that further assistance than he is now getting is necessary if the institution which he has founded and which he has so carefully maintained and preserved to posterity and future generations are to be conserved as properly of visiting one of the world's great bird sanctuaries.

The sanctuary which he established as the back in 1904 has served as a breeding ground for wild fowl in increasing numbers ever since and has been provided with breeding grounds for the species of birds which he has introduced to the United States. In other words this haven has been for years and still is a source of supply of breeding stock, the wonder from which today's numbers have been increased to enjoy a sport which would almost have been extinct years ago.

In the month of Jack Miner's return of tagging the birds which have been generally accepted his importance over since 1904, he has a great deal of data available to support his contention that his refuge has been and still is a source of supply for the entire continent.

A Point of View

One of the greatest benefits which have been derived on both sides of the international boundary as a result of Jack Miner's work and his efforts in the development of the value and importance of wild life as an asset to Canada and the United States and of its importance as a medium to trade.

The efforts of this 22-year-old man, who has been in the service of the government here, since he commenced his work, served as an inspiration to individual citizens, agricultural organizations and the government itself.

He has been in the service of the government on both sides of the line to go and to deliver. As a result in recent years a chain of bird refuges and sanctuaries patterned after the famous Jack Miner bird refuge has been established in the United States and in Canada thousands of acres have been set aside and preserved for a similar purpose.

Were it not for the individual public demand, largely aroused by Jack Miner's constant devotion of a life-time to a conservation purpose, the laws which have been passed on the status of birds and the agreement between the two countries which has afforded additional protection to migratory birds had been implemented, or if it had been, it would not have been effective.

Rebelling Recipes

Jack Miner, though still wild and active, has already passed the allotted span of mankind, but to what extent the work he has done will be continued and the memorial which he has erected to his life will be perpetuated, it is not at all certain, unless those who are interested in preserving such a valuable asset and have the means, rally to the cause in a tangible fashion. The Jack Miner bird refuge, which has been in the service of the government in Michigan as well as in Ontario by a special act of Parliament, with the hope of raising a trust fund to endow and perpetuate Jack Miner's home and his sanctuary so that the valuable enterprise will be able to carry on after Mr. Miner has passed on.

One can only hope that many wealthy Americans who, as sportsmen and as lovers, have derived so much benefit from Jack Miner's achievements and who are interested in establishing natural parks for humanity will give some consideration to this important project. Measures for the display of dead specimens have been reduced by wealthy men and undoubtedly their place in the scheme of things, but how much more important and of how much greater value it would be to perpetuate as a memorial the Jack Miner which has as its worthy objective the preservation and propagation of living wild life, a source of joy to sportsmen not only to those who are living today but for countless generations in the future.

BRIEFLY TOLD

Miss A. Cranston left Winnipeg for Kingston, Jamaica, to take charge of the first school for the deaf in that country.

These medical health officers, Mrs. Dr. A. J. Douglas, head of the Winnipeg health department, will return on Friday April 1, if we are to believe the news.

Hein's column in *Trinidad* square was touched with criticism as a well known respondent to questions regarding the aid for Jewish child refugees from Germany.

A proclamation was published in the Chinese Gazette, dated May 15, the date on which the birthday of King George is to be officially celebrated in the Dominion this year.

Young Quebec newsmen will be reporting on the anniversary of their spare time. A home for newsmen was opened under direction of the Vancouver branch.

Richard Tuck is working on television for police purposes. Recent television with long-range cameras will enable police officers to monitor traffic and to watch the movements of suspects.

Seventy representatives of the international railroad labor organization in Canada met to discuss the future of the railway in Canada.

Blindness of Alberta into the northwest territories with provision of new highways into the north country were discussed at Ottawa by Mrs. W. A. Palfrey, Alberta public works minister, and Mrs. T. A. Palfrey, minister of education.

The Dominion Press skips the double page entirely. It develops into a crystalline eye and emerges as a full-fledged frog.

In some parts of Great Britain, "Queen's Month" ordinarily sets the tone and rhythm with its general law of love.

You're as old as you look and as young as you feel, but some are deceived by their looks and feelings.

FIGHT COLDS
AT THEIR SOURCE

At the first sign of a cold, treat it in a simple, direct, and sure way. Buy a bottle of **Scratching** and use it. The medicine is so simple that even a child can use it. It is a sure cure for colds, coughs, and all other respiratory ailments.

The optimum has his place. He makes the greatest sense in a few words. He is a man of few words.

Included will send high commissions to Australia, Canada, and South Africa.

SUNDAY SCHOOL LESSON

JANUARY 22

PETER DENIES HIS LORD

Galilee 1:17. Let him that thinketh he knoweth himself, deny himself, and follow me.

Lesson: Luke 22:31-34, 54-67

Devotional reading: Psalm 138

Explanation: And Communion

Peter's Fall. Peter, Simon, son of John, was called by Jesus to be his apostle. He was the first to confess Jesus as the Christ.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

And they were all with him, and he said unto them, I will send you forth into the world to preach the Gospel.

REFUSES TO STAND IN SPANISH WAR

Senator Chamberlain of Great Britain has announced in the House of Commons that he will not supply direct aid to France in the request made by the commander of the government for munitions for Spain and that he will not take any part in the government's aid to the Spanish Republic. Chamberlain's belief in the policy of non-intervention should be a strong argument on supply in the Spanish campaign, "would be a strong argument of the kind which has been the prime motive for accurately and judiciously world."

Chamberlain was elected to the House of Commons in the 1929 election. He is a member of the Conservative Party and has been a member of the House of Commons since 1929. He is a member of the House of Commons since 1929.

Expect Record Crowd To Attend Carnival

Friday will be another big day in Fort Saskatchewan, when the sixth annual Carnival opens its doors.

The Government is being prepared to adopt methods which will result in large foreign markets.

It is quite apparent, therefore, that the competition is not Canadian wheat alone, but also the wheat of the United States.

There is a better method known to the world than to rely on a few bushels of the best seed obtainable, of a few acres of non-morfolined land.

Revised and certified seed is the only way to get the very best seed available.

If any farmer wants to do this, he must first get the very best seed available.

From the results that are being obtained from all feedings and growing, it is evident that the average quality of Canadian wheat is being improved.

Ships and thistles are being better secured, our surplus wheat is being sold at a better price.

Get behind the glass with us, and then all farmers and all the rest of us would substantially benefit.

The Hospital had returned home Saturday, minus any survivors, but reports having had an enjoyable week of sailing.

Mark interest is being shown in the situation and very few substitutes have been necessary.

A. L. Heston, chief of Vaguettes, was the Veterans' Event of the Western Division this week.

"A. L. Heston, chief of Vaguettes, was the Veterans' Event of the Western Division this week."

"A. L. Heston, chief of Vaguettes, was the Veterans' Event of the Western Division this week."

"A. L. Heston, chief of Vaguettes, was the Veterans' Event of the Western Division this week."

Wid. "I'm not a wandering," added his wife. "I'm whether to give you credit for a lovely disposition or mere lack of courage."

"B. Twm." said the bridegroom to his mate. "Let's toss up to see if we go to the football match or work to-day. We'll toss up this hair, and if it drops up we'll work. If it comes down we'll go to the match."

The R.C.A.F. carried out air photography work for the Dominion Government in the Yukon Territory, made by government surveyors from the photographs. The flying officer said. In some cases it was necessary to cross two years' distance, and to carry supplies of gasoline and oil, and to stop in advance to buy paint.

Stage shows of China will begin in Japan next April.

Mass Bombing Raids For Quick Victory Planned For Start Of Any Future War

By the urging of United States President, the apparent conviction of these general staffs that no winning plan for quick victory will characterize the start of any future war.

Germany is concentrating the preponderance on two types of planes—medium bombers and fast fighters. The former are meant for heavy bombing, the latter for quick raids on vital centers in an enemy's rear.

The fast fighters are meant to strike the enemy's rear, to destroy the communications and to help protect the bombers and their own army.

A third type of warfare which will be the most serious, however, is the use of the atomic bomb.

General Staffs in Germany, Italy, Japan, the United States, and the Soviet Union are all working on plans for the use of the atomic bomb.

General Staffs in Germany, Italy, Japan, the United States, and the Soviet Union are all working on plans for the use of the atomic bomb.

WHEAT POLICY
We feel that Premier Brown is to be highly commended by the farmers of Western Canada in having formed and headed the "Western Committee on Markets and Agricultural Re-adjustment," who are endeavoring to secure:

- The continuation of a Wheat Board for 1939-40.
- The making of a guaranteed price for wheat of at least 60 cents for late Northern, late Fort William.
- The granting of subsidies necessary to ensure grain farmers and to ensure who may be affected by drought or other causes of crop failure.

We will continue to give the utmost assistance to the Committee in support of these demands.

Commenting on the announcement of the 40-cent wheat price, E. J. Garland, editor of the Fort Record, said a large statement in the Canadian Press that the wheat price will have disastrous effects on western farmers.

Garland in the three previous articles last year, were only able to get by on an 80-cent wheat price. The farmer is being sold a false bill of goods when he is told that the only way to get out of the present situation is to have a crop of 100 bushels per acre.

The farmer is being sold a false bill of goods when he is told that the only way to get out of the present situation is to have a crop of 100 bushels per acre. Plant Breeders and Chemists Assuming Important Role In Life Of The Farmer

Every year new strains appear in the field for the chemist and the breeder. In Canada, the plant breeder and the chemist are assuming an increasingly important role in the life of the farmer. The plant breeder is the one who selects the best strains of wheat, corn, and other crops. The chemist is the one who develops the best fertilizers and pesticides. Both are essential to the success of the farmer.

One of the most important roles of the plant breeder is to select the best strains of wheat. This is done by growing different strains in the field and selecting the best one. The chemist's role is to develop fertilizers and pesticides that will help the crops grow better. Both roles are essential to the success of the farmer.

The plant breeder and the chemist are working together to improve the life of the farmer. The plant breeder selects the best strains of crops, and the chemist develops the best fertilizers and pesticides. Both are essential to the success of the farmer.

The member title of "the car thief" attached to carbon monoxide is fully justified, according to the Industrial Accident Prevention Association, because it gives no warning of its existence.

Frequent press reports of deaths throughout Canada draw attention to the fact that the home, particularly common in garages of the recent instances reported the case of three men who ran their car into a garage during a

The danger of carbon monoxide was studied to see if it could be detected by the nose.

Automobile engines in any room either in the home or industry where coal, gas, oil or wood is the fuel, there is a danger from carbon monoxide fumes resulting from incomplete combustion. Manufacturing processes present a hazard of carbon monoxide poisoning. Special accident prevention was developed wherever needed by Industrial Accident Prevention

accident prevention warnings

Accident Prevention Assn.

The chief and most common symptom from "the creeping killer" is a desire to sleep in a garage, according to survey just completed. Because of the general public as well as industry exposure to the risk, a special bulletin has just been issued with clear and concise instructions on recognizing the effects of the gas and methods of applying resuscitation. Symptoms of carbon monoxide poisoning include a ringing in the ears, upset stomach, a severe

of applying resuscitation.

include a ringing in the
stomach, a sense of

Phosphating the danger of carbon monoxide, the safety bulletin points out that life is in danger if the one-fifth of one per cent. in the air (garage) should be checked from the standpoint of reasonable ventilation. If it is necessary to run an engine in a garage, see that doors and windows are open.

A check is recommended of the "bore and motor," for leaks

Keep closed cars reasonably airtight and avoid the growing tendency to keep all car windows closed in disagreeable weather. At the sign of a headache or drowsiness stop the car and get out until fresh air clears up the trouble.

The bulletin warns against giving a patient any headache powder or tablets for relief of a headache, and cautions against carbon monoxide inhalation of carbon monoxide.

times it is said such drugs only serve to deaden the war nature and may only result in longer and more serious exposure to this poisonous gas. There have been many serious attacks of trouble following the administration of such drugs in gas poisoning cases.

WEDNESDAY, APR. 12, 1939

Letter to The Editor

Dear Editor,
Please allow me to express my appreciation to the Mayor and Council, through the columns of your paper, for enabling such a team as the Physical Training to be inaugurated here to other citizens of the Town as well as its students, to come to help in doing, I may thank you.

Each P.T. night was looked forward to with great pleasure, as the beautiful side of the question was band with the fun and general company made a combination that was never enjoyed by all of us.
With the thought that here to one person who is looking forward to such moments, I heartily repeat the three cheers given for the leaders last Friday night and remain, Yours sincerely,
A "T.T." Member

"Believe us that land reapers are again enjoying this splendid sport. The north about of the land reaper is in excellent condition, considering the time of year.
Then, there others who believe the low break-up will be earlier than the previous year.
We may mean about land reapers, we may not about lack of business, but when we check up we will find that adversity has brought and the result is constructive and our co-workers have been treated by jumping them, the time of year, the low break-up is holding, the heavy snow does the great action.
Getting a new idea should be the motto on a job. It should mean to try up to do something."

"I've protected myself, my family and my home"

"I used to worry about what I would do when I got too old for work, and about what would happen to my family if I should die."

"All of these worries have disappeared — thanks to my Life Insurance. Now I know that I will have a comfortable retirement when I am 60 or 65, and that my wife and I can take things easy. And that if I die too old, my Life Insurance will provide my wife with money to pay the bills and help give my children an education."

Like this typical farmer, many of thousands of other Canadians are today enjoying new peace of mind and new security through their regular savings in Life Insurance.

Town Owned Garden Lots

Yearly Rental of \$2.50

Due to the exceptionally large amount of business to be done with the Council of the Town of Fort Saskatchewan held in the Secretary's Office on Monday, April 9, 1939, at 8 p.m.

Present: Mayor Graham, Councilors: Galt, Mow, and Balmann. Absent: Galt, Mow, and Balmann.

It was agreed that every effort should be made to fill all orders for the Town of Fort Saskatchewan. The Secretary advised that the Town of Fort Saskatchewan had received a large number of orders for the Town of Fort Saskatchewan.

Considerable time was taken up in discussing the advisability of organizing the sale of vacant lands for the Town of Fort Saskatchewan. In view of the fact that it was not compulsory for the Town of Fort Saskatchewan to sell its land, it was decided to sell the land for the Town of Fort Saskatchewan.

A letter from the Secretary-Treasurer of the Fort Saskatchewan Branch of the United Farmers of Canada was read. The letter stated that the Branch of the United Farmers of Canada was interested in the sale of the land for the Town of Fort Saskatchewan.

The United Church W.A. will meet
at the home of Mrs. G. Fry on
Wednesday May 24, at 2 p.m. Cler-
will have the church not later than
2:45 p.m. Ladies phone note dated
May 24, instead of usual 1st
Wednesday in June.

Service and Holy Communion will
be held at the Josephine Reformed
Church this Sunday. In service,
thor.

The boys of the home town's cele-
brations will attract many former
Post residents, as was noted by the
number of attendees Wednesday.
Mr. and Mrs. T. Lane and family of
watermark, returned up Wednesday
to witness the sports and re-view of
Edmonton.

Mr. and Mrs. P. Smith, St. Paul, Al-
berta, was seen re-viewing old
acquaintances on the main street.
Mr. H. Shadsworth and family of
Viking, were sports day visitors, also
took in the sports where they attended
the new lot.

Mr. H. Shadsworth, Edmonton, one of
our "belle girls" on the local board
for the 1938-39 season, was seen enjoy-
ing the dance. Miss Trotter, after a tour
of the new hall was impressed with
the fine building.

Mr. and Mrs. Pleasant View, of
Pleasantville, were down for the day,
under the direction of Miss
McGowan and A. R. King were
given during the afternoon and had
adjoining some of the children.

During the dance, the Pleasant
View football group, however, was
made by Miss Gilda Brown, who
drew a ticket held by Robin Watson.
The school group of the members of the
Service Association, dance committee,
and friends who, through their con-
tributions, made the fine donation
possible.

CARD OF THANKS

Mr. and Mrs. Stanley Dennis wish
to thank the members of the Civil
Service Association, dance committee,
and friends who, through their con-
tributions, made the fine donation
possible.

THE LAMONT MILLING COMPANY LIMITED

Mr. Steve Shunewich

well known and popular manager and miller of the
Mundare Flour Mill for the past three years, and pre-
viously connected with the former Eskel Flour Mill of
Mundare for seven years, is the new manager and miller
of The Lamont Milling Company Limited.

Says Steve: "I invite all farmers, including my
old customers and friends, to have their wheat
ground at Lamont Mill. We have established the
old popular system of grinding—
EVERY FARMER GRINDS HIS OWN WHEAT.
Or, if preferred, he may exchange his wheat
for flour milled from our own high grade
wheat."

Give us a trial. Have your wheat ground in a High Class
mill, using the latest up-to-date methods.

THE LAMONT MILLING COMPANY LIMITED.
Lamont, Alberta Steve Shunewich, Manager.

ACCOMMODATION IN EDMONTON

Reservations for rooms in Edmon-
ton, June 2nd, should be made early
if displacement is to be avoided.
Write now to the Royal York Hotel,
Edmonton, Alberta, stating the number
of people for whom you want rooms.
This Committee has rooms listed in
hundreds of private homes—be-
cause already booked ahead—but you
will avoid a lot of trouble by reser-
ving your room ahead of time.

The proclamation which has been
made from April 1st to May 1st, in-
clusive, combined with that which
was made last autumn during the
months of August, September and
October, and weighed for wheat
across, shows the satisfactory con-
dition of the new Prairie Province
as a whole to be 70% of normal, as
compared with 81 per cent last year.

The weather condition in Alberta
on May 14th was 70 per cent of nor-
mal as compared with 80 per cent last
year.

FOR DISTRICT CITIZENS TO SEE

Their Majesties Friday

Vol. 1 No. 2

Fort Saskatchewan and District

Fort Saskatchewan and District
will be well represented Friday, when
Edmonton honors the visit of Their
Majesties the King and Queen
throughout the entire town from
noon to noon, thousands upon thou-
sands have shown their devotion to
the King and Queen. Local resi-
dents, in most cases, view for the
first time a reigning King and Queen
of the British Empire.

As it has been suggested before
that the King and Queen have
themselves to a great deal of trouble
and come thousands of miles to estab-
lish a more intimate contact with the
loyal people of their Kingdom of
Canada, and the least we can do in
return, those who can afford the time
and money is to travel a few miles
to meet them.

If we who have participated in
their visit will be located in two sections
of the brochure on Portage Ave.
Which in future will be known as
"King's Ave." in memory of the visit.
Arrangements for this visit, there
are bound to be some of the nature
of the visit, especially when it comes to
children. So it will be largely up to
the individual to see that, as far as
he is concerned everything is all over
long ago.

Two officials have made arrange-
ments to supply transportation to
those who are unable to provide their
own. Trucks will leave the Commu-
nity Hall at 12 noon Friday.

In the city, hundreds of workers
are busy decorating the streets and
public buildings with flags, bunting,
etc. Those from Edmonton will be a
colorful sight.

After viewing the splendid robes
of "William" representing the legat-
ion buildings, it is a pity that these
wrens' made a permanent fixture.
It may seem that Alberta would
be making this costly day, but to be
remembered, especially by the close
down.

GOOD HOPE NEWS

Mr. and Mrs. Geo. York of Lon-
don, Ontario, are visiting with
relatives and friends in Good Hope.
Mrs. York is a sister of Dr. J. C.
Crispin.

Mrs. Harry Ashton was a visitor
in Edmonton for a few days last
week.

Miss E. Kibberville and people
have completed plans to visit Their
Majesties King George VI and Queen
Elizabeth on Friday, June 2nd.

Softball and baseball enthusiasts
are busy getting the ball ground
into shape for come.

Mrs. Cecil Stinson left on Satur-
day for a visit to relatives in Buf-
falo and New York city.

The Josephine Ladies' Aid will
meet at the home of Mrs. F. Ham-
on Thursday, June 1st.

Her many friends are pleased to
note that Mrs. J. Hamon was able to
attend church last Sunday.

Baseball practices are held at the
recreation grounds every Tuesday
evening.

Legion Dance Friday, June 9

At the last meeting of the Fort
Saskatchewan Branch of the Canadian
Legion the following officers were
elected:

- A. H. J. Wootton, President.
- J. G. Wright, 1st Vice.
- J. G. Dawson, 2nd Vice.
- D. Roberts, Treasurer.
- A. C. Ashton, Secretary.
- A. Black, T. A. Wall, Jack Anderson,
P. N. Peters, T. Charlton, Rev.
T. Munro, Chaplain.

Arrangements were also made to
hold the children's annual picnic at
Eds. Island on the 26th June. It was
also decided to hold the annual dance
at Fairbridge Hill on the 26th June.

FORT RECORD

FORT SASKATCHEWAN, ALBERTA, WEDNESDAY, MAY 24, 1939

1130 PER YEAR IN ADVANCE

Visiting Edmonton Friday

Last photographs of Their Majesties the King and Queen, taken shortly before they sailed for Canada. Thousands are gathering everywhere along The Royal Progress through the West and on Friday, June 2nd, Edmonton will be hosts to Their Majesties.

YVRES VALLEY NEWS

Congratulations to the Drunkville
"Furrows" who won their honor at
Part May 24th Sports. The girls
were their own victors and Jack
Lynn said was the reason they won.

We received Margaret Kitch's re-
sponse from the mumps, and Mrs.
John Walker in bed with a "brilliant
toe."

Mrs. Walter's saddle horse "Golden
rod" is being used in parade to welcome
our King and Queen, in Edmonton
on June 2nd by the Alberta Dragoons.
"Golden" is 21 years old and we under-
stand Jack Colburn's saddle horse
will also be used that day.

Mrs. Cecil Stinson left on Satur-
day for a visit to relatives in Buf-
falo and New York city.

The Josephine recreation group
is the place where the surrounding
schools will have their track meet on
Friday, June 9th.

The school softball team haven't
lost a game since they started in the
school league. Keep it up and bring
home the cup Josephine.

The Josephine Ladies' Aid will
meet at the home of Mrs. F. Ham-
on Thursday, June 1st.

Her many friends are pleased to
note that Mrs. J. Hamon was able to
attend church last Sunday.

Baseball practices are held at the
recreation grounds every Tuesday
evening.

Legion Dance Friday, June 9

At the last meeting of the Fort
Saskatchewan Branch of the Canadian
Legion the following officers were
elected:

- A. H. J. Wootton, President.
- J. G. Wright, 1st Vice.
- J. G. Dawson, 2nd Vice.
- D. Roberts, Treasurer.
- A. C. Ashton, Secretary.
- A. Black, T. A. Wall, Jack Anderson,
P. N. Peters, T. Charlton, Rev.
T. Munro, Chaplain.

Arrangements were also made to
hold the children's annual picnic at
Eds. Island on the 26th June. It was
also decided to hold the annual dance
at Fairbridge Hill on the 26th June.

U.F.W.A. Conference Here

Wednesday, June 7th.

Conference program of the U.F.W.A. is usually very extensive. It is
held in the Fort Community Hall on
Wednesday, June 7th, commencing at
10:30 o'clock in the morning and
continuing throughout the day.

Program—June 7th.

- 1. Invocation—"O Canada".

How Know Every Detail

Which Depends On Personal Sympathy.
On Their Majesties

Not the most important question, who accompany the King and Queen, as their travels are a few more women of whom even Britain has never heard. Yet they possibly come into closer contact with the public. Family than any in the Empire. They are the personal servants of Their Majesties.

That they have never been heard of is merely a sign that in their pri-

advice. "They're not potatoes and don't die."

The potato has the age of glories and fame. And he has a long standing in all his most dedicated venders. He has been a certain certificate of come back into the Vancouver Province.

As usual.

cause a slight lifting of eyebrows, as if to say: "A wrong decoration. How could that have happened?"

It was, incidentally, a change for the King to be attended by a royal barber. He usually shaves himself, although Jeroni, at times, does the task for him.

Then comes James McDermid, assistant valet and brusher, who keeps the royal wardrobe in order, attends to models and so forth.

Before both of them comes Frederick Smith, the King's own Windsor

Pennscoops For Poultry

Camps Are Built On Flat Roads In
Towns For Safety

In Lima, Peru, and vicinity, poultrymen build their houses on the flat roofs of their long, low houses, and in these roof-top chicken "pennscoops" safe from marauding animals and poultry thieves chickens are hatched eggs are laid, and chickens grow fat for market. Each evening, the Peruvian poultryman goes up to his beam-top to collect his crop.

Continued on page 10

In an editorial the *Specialist* quoted the opinion of *Lieut. Andrew D. Harrison*, of the *Royal Canadian Naval Volunteer Reserve* and formerly a "*Leutenant N.V.R. HMS Cleopatra*," to the effect that the *Union Jack* is "*strictly the King's colors* and should not be displayed by

These words were taken verbatim from his book "British Flags on Land and Sea." The quotation goes on to say that the Union Jack "should be flown over all government buildings, army headquarters and on provincial and federal prop-

erty. It only shows again by direct representatives of the King or by some other British Navy or by an individual of the British Navy, but, thanks to the increasing popularity of the Red Ensign with a Dominion or colonial device in the flag, its use except by authorized authorities, is gradually dying out.

In contradiction to this we reproduce the following extract from the *Times*, almost 50 years ago, in accordance with generally prevailing opinion: "The Union Jack is the official flag to be flown on land in Canada. It is the flag to be flown by British subjects on land in all the

Red Design, with the Arms of the

Dependent of Canada in the U.K. should be used only on Canadian registered merchant vessels. (Authorized by Admiralty warrant of 2nd February, 1962, and Order-in-Council P.C. 843 of 20th April, 1962, for Canadian registered vessels.) The Canadian Flag

tion of Canada in the fly, is used on

Whatever may be the strict orthodoxy of the matter, it is certain that the good old Union Jack has been much in evidence throughout Canada during the royal tour, not only on private buildings, but in the hands of loyal citizens. The Union Jack is unique and irreplaceable in the affections of the British public throughout the Empire, whatever may be said or done about a distinctive "national flag."

After the Rain, What?

(Lathbridge Herald)

There's joy in Southern Saskatchewan. In North and South Dakota, in Montana and in Alberta—all over the hard spring wheat belt country, in a word it has rained. There has been plenty of rain in practically all that great area. The grain is green, the soil is moist, and the farmers are all green with the first of April, more than that country has seen for a dozen years. Everywhere the grain and the grass are green and the soil is moist in places. And so we also have joy for the farmers who have persevered and have had it proven to them that their country is something other than just a large dust bowl.

So Who Pays?

During the course of Mr. F. M. Baker's talk on Alberta Industries and their products last Friday night, he intimated that people could get two pounds of a local manufacture of soap for the same price they were paying for one-and-a-half pounds of imported soap. The speaker was pointing out the fact for this being, that the local product was put in a printed paper bag, and the firm does very little advertising, while the national advertised product was in a neat, light-colored package, and the firms did considerable advertising.

MUST FIGHT TO BOLD GAINS

For a generation or more, the
business community in agricul-
tural Alberta, has been a part
of the fabric of provincial life. Its
economic history suggests that its
growth should be continuous. It is
the measure of a measure of health
and security and human progress
that the business community in
agricultural Alberta, is a proper
"way of living."

The business community must
be on the alert. The business com-
munity in agricultural Alberta, is
not only a part of the fabric of
provincial life, but it is also a
part of the fabric of the business
community in agricultural Alberta.
It is a part of the fabric of the
business community in agricul-
tural Alberta, and it is a part
of the fabric of the business com-
munity in agricultural Alberta.

Laboring hard to get ahead in
the business community in agricul-
tural Alberta, is a part of the
fabric of the business community
in agricultural Alberta. It is a
part of the fabric of the business
community in agricultural Alberta,
and it is a part of the fabric of
the business community in agricul-
tural Alberta.

Mr. James Richardson and family,
grade 1 and 2 teacher at the Fort
Public school, will take up residence
in the business community.

Mr. and Mrs. W. A. Scott were
visitors last Sunday, prior to
taking up residence in the business
community.

Mr. A. B. Brown, hardware,
and former local proprietor here, has
moved to the business community,
and will take up residence in the
business community.

Three interesting visitors to the
Fort last week were Mr. and Mrs.
W. A. Graham, Mr. and Mrs. W. A.
Graham, and Mr. and Mrs. W. A.
Graham, who were in the business
community.

Mr. L. D. Moore is visiting Mrs.
Moore's mother, Mrs. W. H. White,
prior to taking up residence in the
business community.

Mr. and Mrs. W. A. Graham are
visitors to the business community,
and will take up residence in the
business community.

Mr. and Mrs. W. A. Graham are
visitors to the business community,
and will take up residence in the
business community.

Mr. and Mrs. W. A. Graham are
visitors to the business community,
and will take up residence in the
business community.

Mr. and Mrs. W. A. Graham are

Seeds Flour Upward

Price of flour is reported to have
jumped 10 cents per hundred in the
last week, but the Government
differs in delivery due to when
helped by the growers.

At its last meeting the wheat
and flour millers' association
discussed the situation and
decided to keep the price of flour
at \$1.00 per bushel.

It is thought by many, that
the price of flour is \$1.00 per
bushel, but the Government
differs in delivery due to when
helped by the growers.

"LORD JIM"
Jim Lord had not his companion at one of the passing times in the hall when he was called to the door. The two men, he became of what comradely, some of the great friends and it was long before Jim told Steve of his difficulties.

Jim was the old story had returned to study shaving and shaving. Steve, a head leader for trouble making, was not behind the younger man to follow his leader's way in the living—robbed the hapless victims of their rest, taking money from their pockets.

One night, after leaving quite at the passing house, Jim and Steve walked down the hall, and as they walked, Jim told Steve of his difficulties. Jim was the old story had returned to study shaving and shaving. Steve, a head leader for trouble making, was not behind the younger man to follow his leader's way in the living—robbed the hapless victims of their rest, taking money from their pockets.

Sunday School Institute

Books Session Adjourns

The annual Sunday School Institute of the United Churches of Fort Saskatchewan, Fort Saskatchewan, held its books session adjourned last night.

The annual Sunday School Institute of the United Churches of Fort Saskatchewan, Fort Saskatchewan, held its books session adjourned last night.

During the session the following were elected to the various jobs for the coming year. President, W. Allen; Vice-president, Rev. B. B. Hansen; Secretary, Mr. F. Anderson; Treasurer, Mr. F. Anderson; and the representatives of each Sunday

school, and Mrs. E. A. Wilmshurst, Mrs. C. H. Plummer, Mrs. R. G. Goss, Mr. R. E. Kelly, Mr. W. H. Hurd, Mr. W. C. Ross, Mrs. Parker and Mr. W. H. O'Connell. It was agreed to meet at the Institute there next year.

Guide News

On Tuesday, October 18, instead of having a regular meeting, we had a "Mellow" party. Everyone had costumes on, some of which were very good. Prizes for the best costume were given to Glad Chandler and Susan Jones.

Consolidation theory paid its second visit to tell about the Red Cross, and what we were expected to do to help.

The party started with an apple contest which was won by Susan Jones. After a number of other games, we had lunch.

Each Guide had a very enjoyable evening, and we brought it to a close with "Tops".

Our Dining Room will stand your inspection.

Partridge 1910 NEWS

The W. A. foot speed and better October 27th was a successful affair when the ladies again provided themselves with the "Partridge 1910".

Mrs. E. M. Worthington was business to the W. A. at a "silver tea" Friday, November 1st. Owing to road conditions, attendance was not so large as usual.

Mr. and Mrs. Archie Good and son, Billie, were guests of Mrs. A. F. Wilmshurst week. On their return home they were accompanied by Miss Doris Wilmshurst, who will be their guest for a few weeks.

Mr. and Mrs. Gordon Leman and children of Maplethorpe, Alberta, were also visitors at the Wilmshurst home last week.

Miss Madeleine Thompson, from Cranbrook, was a much-and-dainty with friends here.

Mr. Wilmshurst Allen, Mrs. C. H. Plummer and Mrs. Mrs. W. A. O'Connell attended the Sunday school Institute at Edmonton, Saturday afternoon.

The U.F.A. and U.F.W.A. will hold their first joint meeting of the winter in the Community Hall, Nov. 14th. Ladies will serve supper at 6:30 with the men supplying the entertainment in the evening.

All members and prospect members cordially welcome.

A Red Cross dinner under the auspices of the local committee will be held in the Community Hall, Nov. 17. Come out and help along the cause.

Mr. and Mrs. Herb Wilmshurst returned newlyweds, were home by the representative of Yorkville, Alberta, Tyson Valley and Partridge Hill at a "silver tea" in the Community Hall Tuesday evening.

They were the recipients of many good wishes and lovely gifts for their new home. Tyson Valley courtesy provided music for the dinner.

George Oshobadson and Gerriet Hansen returned home Thursday after a trip to points on the Pacific coast.

Wilmshurst Gordon moved to Lamenton and has taken up residence on the former Palfrey farm.

Arnold Wilmshurst last week for Rocky Rapids, Alberta, to be away for two months completing home-remodeling.

Under the supervision of Frank Kelsch and Raymond Wells the work of getting the rink in shape is well under way.

We are also sorry to report Mrs. Wilmshurst Allen confined to her bed.

CHILDREN OF DISTRICT TO BE GUESTS OF FORT MERCHANTS AT FREE PICTURE SHOW

Children up to 14 years old will be the guests of the Fort Merchants at a Free Moving picture show on Saturday afternoon, November 18th, starting at 1:30 and will be a continuous show throughout the afternoon.

To grand pictures leads this double feature program, over two hours of high class entertainment.

Persons over the above mentioned age can see the show by paying 25c, and 5c tax.

Children of the Town, and the Districts of Lamenton, Coronado, Good Hope, Brimmer, Anderson, Josephine, Curlew and all children of the District are asked to get their free show tickets from any merchant advertising in this week's Record.

Nothing to buy, the tickets are free for the seeing.

ANY DAY A FISH DAY

The Medical Side of Evacuation

The story of Britain's efficient evacuation of its children has attracted the interest of all Canadians and the fact that it was executed without material loss or serious inconvenience has gratified the health conditions of the evacuees will be of further interest. Especially since authoritative information is now available as to the medical side of evacuation.

The British press has been giving much attention to the claim that British children who had been evacuated to Canada had been "evacuated" to the evacuation of the children of the United States for medical reasons in connection with military service.

At the departure center every evacuee was medically examined by teams of nurses and no delay caused by the evacuees.

Various health and bodily defects of the children were noted. So was the fact that there were 21 cases of diphtheria, 4 cases of measles and 8 cases of scarlet fever. According to the medical officer of health, severely more than 1,000 cases of the disease, "scarlet fever," were reported in all parts of the country, but these were kept under "close" supervision, the local children remaining free from the disease.

In answering a correspondent from Litchfield who questioned the authorities for the state of health of the children, "The Medical Officer" says the fact that Litchfield's standard is obviously high is the best defense of the school medical officer. It points out that in most of the smaller towns into which the children of valuable citizens have been sent, public health practice had reached a higher level, than in the great cities. Child culture in the crowded slums of vast cities is made, in a very different problem from what it is, or was, in the small towns of Litchfield.

But it agrees that its correspondent's anger is justifiable "in finding his district fooded from the numbers to which he has been led to expect enlightenment. He is not alone. Most evacuees who are dirty in person, or in habits, or in their districts, have been determined to prevent deterioration of their districts, have adopted vigorous methods of cleaning and care regardless of the expense, or of the consequences, with the surprising results that their measures are welcomed and not resented."

Tender Hands

Both Current, Request for largest child administrative division was embodied in a resolution passed by teachers of this hospital at a recent meeting. Increased government grants were also requested.

LOCAL NEWS

Mr. and Mrs. L. D. Jones spent the holiday week-end in Edmonton.

Mr. and Mrs. Ruan Hainley, Edmonton, were the guests of Mr. and Mrs. J. D. Jones over the holiday week-end.

Miss Margaret Lathorne, Edmonton, was a week-end visitor at her home here.

Mr. Jack Winterer leaves Thursday for the Alberta, where he will attend the wedding of his daughter, Miss Olive Green.

Mr. and Mrs. Winterer were some time with Mrs. Winterer several years ago.

Miss Barbara Ashton is improving slowly and is expected home within the next week or so.

The members meeting of the United Church W.M.E. will be held at the home of Mrs. A. Williams on Tuesday, November 14th, at 8 o'clock.

Mrs. E. A. Williams will be in charge of the devotion, and Mrs. R. Simons will give a talk on "The Unsubduable Faith."

Over 200 people attended the Tuesday night for the United Church night under the auspices of the local branch of the Canadian Legion.

Frank Smith's relatives were at their last, and lunch was served at midnight.

The Canadian Legion's usual Sunday and get-together is being arranged for Friday night in the Community Hall.

Entertainers from the city are expected down to assist the Legionaries who have formed to this occasion.

Frank Smith's relatives were at their last, and lunch was served at midnight.

The Young People's Union of the United Church met at the regular gathering on Tuesday evening.

A very fine program was started at 8 o'clock and the evening was most enjoyable.

It was decided that the Union should be represented at a Public Reception to be held in Edmonton November 15th.

The representative will be chosen from the members of the Union.

Mr. and Mrs. J. P. Sweeney, who will be the guests of the Union on Tuesday night at 8 o'clock.

The Union Ladies and Young People met the week-end at their home.

Redemption may be effected by payment of all arrears of taxes and costs, at any time prior to the sale.

1939, at Fort Saskatchewan, Alberta, this 16th day of November, 1939.

F. W. BLACK,

Secretary-Treasurer.

Greetings

To our cream shippers and all our store patrons we thank you and wish you A Happy New Year.

J. T. LALONDE

Municipal District Officials

Extend New Year's

Greetings

In the new glimmering light of 1940, it is the fervent hope of the Council and Board of the Municipal District of Clover Bar, that the glow of the new light of 1940 will bring with it business, prosperity and cheer all—Peace to all Men-kind.

World of Wheat

The victory over the German pocket battleship, the "Admiral Graf Spee", by three light British cruisers will have a far-reaching effect upon the situation of the war and also upon the export of wheat overseas.

The three German pocket battleships, the "Admiral Graf Spee", the "Deutschland", and the "Admiral Scheer", were built specifically to destroy convoys of ships carrying foodstuffs and other materials.

Not only have these three pocket battleships built a number of convoys, but what has been of greater concern they have prevented many Allied convoys of ships carrying wheat and other products from leaving port. It has now been found, however—something hardly anyone suspected—that three small British cruisers can effectively deal with a pocket battleship.

The success, therefore, of the surviving "Deutschland" and "Admiral Scheer" is almost certain, the safety of convoys consequently is much better assured, hence wheat exports—secured by small cruisers—will sell, and as more wheat will leave Canada.

The fact that the success of the pocket battleships is now open which Germany so depended—has now become greatly lessened, will no doubt tend to hasten the close of war, and as will tend to bring ultimate peace a little nearer.

"The West Advertiser" in this paper is black and white, but read all over."

Budgeting for Advertising? Here it is profitable an undoubtedly a goodwill builder for the merchant to be held on the idea of working out a sound advertising budget plan for future use. The amount to be spent can be determined by the object to be accomplished, money available, means changes to be advertised, size and frequency of ads, and what competitors are doing.

The preferred way to add the budget to the plan is to make a "budget" to the effect of "I intend to spend the budget I am at cost. The time required for making is usually about 30 seconds or until the advertiser follows the space.

Gannon's Greetings

To all our Friends and Patrons we wish you A Happy New Year.

idents of the town and District checked to hear of the sudden death of Mrs. Annie Amelia Montgumery, beloved wife of George W. Montgumery, of Fort Snelling on December 24th, aged 62.

Mr. Montgomery married in 1882, in Ontario, nearly 35 years and after five years residence in East, moved to Fort Saskatchewan with her husband, where they made their home ever since.

Mr. Montgomery celebrated his 60th birthday on his 60th anniversary in June 1937, when a number of friends, among whom were many old timers who came to the country with Mr. and Mrs. Montgomery in a Ferry Second colony.

Mrs. Montgomery was noted in parts for her keen interest in flowers, vegetables and flowers. Her ways at home and distant exhibitions were well known.

She is survived by her husband; daughters, Mrs. Walter Boyd, of Edmonton, and Mrs. A. S. O'Brien, Fort Saskatchewan; one son, Kingston Powell, of Edmonton; and a daughter, Mrs. Kennedy, of Fort. California.

Cargus-Allen's Hardware

In the new Shining Light of 1933, it is the fervent hope of the Council and Staff of the Municipal District of Clover Bar, that the glow of the new light of 1940 will bring with it happiness, prosperity and above all—Peace to all Mankind.

The victory over the German pocket battleship, the "Admiral Graf Spee," by three light British cruisers in the South Atlantic, has not only shortened the duration of the war, and also upon the aspect of west coast commerce, but has also demonstrated the ships, the "Admiral Graf Spee," the "Deutschland," the "Graf Zeyher," and the "Seydlitz," are well equipped to destroy convoys of ships carrying supplies to the Allies.

Not only have these three pocket battleships such a number of vessels, but they are also equipped with torpedoes, which they have proved to be very effective. Allied convoys of ships carrying wheat and other supplies to the Allies, which have now been found, however, something hardly anyone suspected that they were so vulnerable to the attack of a small, but very deadly deal with a pocket battleship. The names, therefore, of the survivors, the "Havelland," the "Havelland," and the "Seydlitz," are almost ended; the safety of convoys consequently is much lessened, and the British fleet is now escorted by small cruisers—will sail, and as soon as they will have been found, they will be destroyed.

These three pocket battleships are now upon British territory as dependent—has been found, and they will doubt not hasten the climax of war, and as will tend to bring about the end of the war.

"The West Ad. department in this paper is black and white, but read all over."

Budgeting for Advertising? Sure. It is profitable and undoubtedly a goodwill builder for the merchant to be sold on the idea of working out a sound advertising budget plan for future use. The amount to be spent can be determined by the object to be accomplished, money available, merchandise to be advertised, class and frequency of ads, and what competitors are doing.

The preferred way to add the liquid to biscuits is to make a "well" in the sifted dry ingredients and pour the liquid in all at once. The time required for mixing is usually about 30 seconds or until the mixture follows the spoon.

Optimistic reports regarding the relief situation were published recently by the Canadian Relief Council. According to the body this winter will find "between 100,000 and 150,000 less persons dependent upon public aid than last winter." The Council believes that the decrease is "almost entirely due to continued recovery in the west, with some other desirable reductions in agricultural areas due to war activities."

Pictures sent released by the Inter-

THE POST RECORD

short, chairman of this board of relief. This represents a reduction of \$1,814,000 since 1914 when the act went into force. Total of \$4,650,000 have been remitted in the six year period. It was a considerable handling in an average reduction of \$810,000 per farmer.

Productive Capacity

London—In a paper and summary, Hon. W. D. Fisher, Federal Minister of Trade and Commerce, says Canada equipped "the strike a heavy blow in the defense of freedom and for the preservation of western civilization." On the other hand, the Minister stated that "productivity among the people close to be considered as the termination of the war must be the re-establishment of world trade."

playment Service of Canada show \$2,000,000 increase in relief to September, 1918 as compared with \$6,612,187 for the same month of 1916. This is an improvement of 12.83 per cent.

Parasitic Birds

Edmonton—Data of Alberta Game officials estimated to \$1,100,000 have been reduced to \$1,100,000, 87 per cent under the Parasitic Birds Act, according to an announcement by Chief Justice Mc-

lean has been announced by the Prime Minister's Office. Mr. Garland, who makes his home in Calgary, was an independent Member of Parliament from 1912 to 1918. Since that time he has served as National Organizer for the C.G.P. party.

At the same time appointment of two Canadian high commissioners were announced. These are Hon. John W. Kelly, Member of the Quebec Legislative Council, who is now high commissioner to Eire; and Dr. W. A. Riddell, of the Canadian Legislature at Washington, who has been named for a similar post to New Zealand. The first time Canada has been represented in these two countries.

Alberta Grows

Edmonton—Steady growth in industrial development has taken place in Alberta during 1918. It was stated in a survey issued recently by Hon. R. C. Manning, Minister of Trade and Industry. More wooden mills at Banff, more saw mill refiners in operation and another mill nearing completion in Calgary, also the new plant of the Medicine Hat Petroleum were cited by Mr. Manning.

New Prospecting

Winnipeg—When it comes to the mining industry in the West, the province to the Allied cause, according to the survey, is the most active of the Winnipeg grain country. "It is fortunate," he said, "that in 1918 most of Canada's grain was sold to the United States. Mr. Nathan and it would appear that the west will be called upon to export more wheat than for some years past."

converted them in addition to 20 producing oil wells, Alberta has 49 in the process of drilling.

Outlook Bright

Montreal—Canada's great task for 1919 is the war, stated Mr. Edgar Martin, chairman and president of the C.P.A., in New Year message. He thought "the outlook on the whole is encouraging, if not inspiring" and added that because of the situation "the war will be a success, we shall come to the end of the year greater and a better people."

Referring to Canada's improved position compared with the last year, he believed indeed the people have a stronger consciousness of their privileges and of their responsibilities.

World of Wheat

H. G. L. Strang

Dr. L. H. Newman, the Dominion Controller, recently stated that 2,800 farmers in Manitoba and Saskatchewan have now reported to the Dominion Experimental Farm on their practical experience with the new rust-resistant wheat variety, "Bequest" (which is a product of the Dominion Research Laboratory) grown in 1918 and in comparison with other varieties now alongside.

The farmers' observations in brief are as follows:

Yield—Report gave an excellent amount of seed.

Growth—Report and that the seedlings had grown from greenhouses than Bequest, Howard and Bequest.

Bequest—It is a vigorous sturdy and a good fighter against weeds.

Stems—Thoroughly strong at the base of the plant, but not quite as flexible as Thatcher towards the top, should be a good combine variety.

Appearance of Normal—Color and glaucous were better than Thatcher but not quite equal to Bequest, but this was considered a bad season for Bequest.

Yield—Report showed quite steady.

Bequest—It is a vigorous sturdy and a good fighter against weeds.

Stems—Thoroughly strong at the base of the plant, but not quite as flexible as Thatcher towards the top, should be a good combine variety.

Appearance of Normal—Color and glaucous were better than Thatcher but not quite equal to Bequest, but this was considered a bad season for Bequest.

Yield—Report showed quite steady.

A Personality Wins

There need be no effort to detract from the victory of Rev. W. G. Brown in yesterday's federal election in Saskatoon constituency. It was the triumph of a personality. It might be said that the absence of a Conservative candidate helped in the loss of this seat to the Liberal column and the election of that man, who was the "valued reformer" of the Conservative party. It may be that many Conservative voters under ordinary circumstances went to Mr. Brown in preference to the Liberal candidate, the Hon. J. H. Brown, a Presbyterian clergyman and former moderator of the Presbyterian Church in Canada, has secured an impressive victory. Saskatoon's M.P.-elect is a well liked, engaging figure. He is recognized as a social crusader. His sympathies are with life's "under-dogs." His plight of recent years has rung with many a denunciation of injustices in the social and economic life as the occupant of that plight has seen the situation, while in radio broadcasts carried far and wide throughout the northern part of this province, this man's dynamic figure has shined as vigorously for social and economic change.

The election of Mr. Brown may be a reminder that even in the midst of a war, with even the fate of this country at stake, there must still be a place for consideration of problems in the domestic sphere. It may be called a "left-wing" vote, this victory of the United Reform man at Saskatoon, but the thought suggests itself that, while the war against the external enemy of the hour Nation, will continue, there may also be a place for war against things here in Canada that require correction.

Garland Goes To Dublin

(The Western Farm Leader)

E. J. Garland, whose appointment to the important position of Secretary of the Canadian High Commissioners' Office which is to be opened in Eire was announced a few days ago, will carry with him in his great war the warmest good wishes of the farm people of Alberta, whose cause he has served first in their primary organization and subsequently in public life with great ability and distinction, and with self-sacrificing devotion.

Soon after his arrival in Canada in 1910, after completing his education at the University of Dublin, Mr. Garland homesteaded near Rummey with his brother W. J. Garland and shortly afterwards he became an active member of the organization of the United Farmers of Alberta, doing much to build up the farm movement in his own district, and taking part in Province-wide activities in support of Co-operative marketing. From the date of his election to the House of Commons as a U.F.A. representative in 1912, until the election of 1918, he took part with others in the group of farmer members, in a determined and often successful struggle for positive recognition of the needs of agriculture, in association with the small labor group, these members shattering the dominance of Canada's economic life by powerful vested interests. Brilliant in debate, Mr. Garland was recognized as one of the outstanding members of the House.

Mr. Garland took an active part in the formation of the Co-operative Commonwealth Federation, of which he has been National Organizer for some years.

Those who are privileged to know him well, value him as does the writer, not only on account of his sense of public duty and his wide knowledge of economic and international questions, but also as a staunch and loyal friend.

In Dublin, Mr. Garland will have an opportunity to continue his service to Canada, and his experience and the information he possesses of Western Canadian life in particular, will undoubtedly prove of great value in bringing to the Irish people with whom he will be in contact through the High Commissioners' office and through personal contacts, a sympathetic understanding of Canada and her people.

Is It Worth While?

(Joachim Miller in The Budget)

Is it worth while that we justify a brother, bearing his head on the rough road of life? Is it worth while that we jeer at each other, in blackness of heart—that we war to the knife? God pity us all as we justify each other, as God pardon us all for the triumphs we feel. When a fellow goes down; poor heartbroken brother, flung to the heart. Words are kinder than steel. And mightier far for war or for woe.

Look at the roses saluting each other; Look at the birds all at once on the plain; Man and man only makes war on his brother, And does in his heart on his perils and pain. Shamed by the brother that goes down on the plain. Is it worth while that we battle to humble? Shall we go down as the lowly and dumb? Shall we go down as the lowly and dumb? All men together, the leaves in a gust; All of us humbled down into the dust.

JOSEPH HUB NEWS
On Thursday, Jan. 4, Joseph Hub News, Ltd. held its first meeting as agent for the U.F.A. Central Co-op Society. Education Branch, and Mr. J. M. Bready, U.F.A. Director for Edmonton and Joseph Hub News, Ltd. held the of the splendid program made by the Co-operative handling of Maple Leaf Oil products. It was stated that the Co-op was in a state of progress in the province in the volume of distribution. Mr. Bready stated the need and for the farmers having been in a strong organization on so as to be able to stand their rights in primary products. He explained some of the features of the Government Bureau Board, but requested very much the fact that the agricultural farmers had no representation on this important board. After the address, the meeting turned into an discussion group with every one taking part. Many matters were thrashed out and we believe all went home quite satisfied. Had not the wonderful turnout could we possibly have had a larger turnout. The meeting was a success. Better luck next meeting.

Director for Edmonton and Joseph Hub News, Ltd. held the of the splendid program made by the Co-operative handling of Maple Leaf Oil products. It was stated that the Co-op was in a state of progress in the province in the volume of distribution. Mr. Bready stated the need and for the farmers having been in a strong organization on so as to be able to stand their rights in primary products. He explained some of the features of the Government Bureau Board, but requested very much the fact that the agricultural farmers had no representation on this important board. After the address, the meeting turned into an discussion group with every one taking part. Many matters were thrashed out and we believe all went home quite satisfied. Had not the wonderful turnout could we possibly have had a larger turnout. The meeting was a success. Better luck next meeting.

on Thursday, Jan. 4, Joseph Hub News, Ltd. held its first meeting as agent for the U.F.A. Central Co-op Society. Education Branch, and Mr. J. M. Bready, U.F.A. 450 B.C. IN ANCIENT EGYPT

The art of brewing was known and practiced for many hundred years before the Christian era. In 450 B.C. we are told that the Egyptians brewed without yeast, a man or woman brewed a beer. They were informed that the Egyptians are thought to have brewed their beer for "Egyptians" (meaning a barley drink) because it was necessary for human health.

United Church Journal

Meeting Well Attended

The annual meeting of the United Church was held last week. Reports from all the organizations showed that a total of about \$2000.00 had been raised during the year for all purposes.

BREMNER NEWS

Old timers of the West will be interested to know that Harold, only son of General Sir John Macleod, died of influenza in Western Canada. His family is in England, doing his bit for the Empire. His elder sister, who lives with Lady Stables in Montreal, writes that Harold went over to England, and took a No. 1, three days later, and died of influenza. His family is in England, doing his bit for the Empire.

Clover Bar News

Mrs. Love has returned from the hospital, where she was taking treatment for a bad cold. She is well and is able to resume her usual work.

The World Over

By R. B. S.

Somebody has said that gasoline will be the cause of the world's trouble. It is going to play a great part in the present conflict. Somebody has said that gasoline will be the cause of the world's trouble. It is going to play a great part in the present conflict.

Walter Gordon Ross, 35, Passes Away

Walter Gordon Ross, 35, died of influenza. He was a member of the United Church and was a very popular man. He was a member of the United Church and was a very popular man.

CANADIAN RED CROSS CORNER

The annual meeting of the Canadian Red Cross was held last week. Reports from all the organizations showed that a total of about \$2000.00 had been raised during the year for all purposes.

Miss Frances King Dies Suddenly

After a lengthy illness of more than a year, Miss Frances King, daughter of Mr. A. B. King, local manager of the Royal Bank, died suddenly. She was a very popular woman and was a member of the United Church.

One of the Tattered Remnants

One of the tattered remnants of the war is now being sold. It is a very old and worn item, but it is still of value. It is a very old and worn item, but it is still of value.

COMING EVENTS

Port Saskatchewan P.T. Club
will hold a
DANCE
Port Community Hall
FRIDAY, FEBRUARY 1st
Ladies' Luncheon
Everybody welcome—Come and have
a good time.

One could not say the first Com-
munion Antioch took last Friday at-
tention was a huge success, but it
certainly has provided. Several well
known clergymen visited, and com-
munion was held in the school hall.
The first service was held in the
school hall, and it was a very suc-
cessful one. The service was held in
the school hall, and it was a very
successful one.

Since the first snow report on their
farm-bank last Wednesday morning,
Mrs. and Mr. Arthur B. Smith, of
Antioch, have made a success of the
town and district. Clothing, food and
money were generously donated to
the many friends and neighbors who
came to the school hall. The service
was held in the school hall, and it
was a very successful one.

In a dog-fight Sunday, Jack Peters
came off second best, when a dog
owned by W. A. Scott bit his hand.
It seems that Jack's dog and Walter's
dog were fighting, but Walter's dog
attacked to separate them, when
Walter's dog turned on Jack.

Mrs. Johnston Carleton left her
home on an extended tour of the
west. She will visit friends in Seattle
and is expected home in early spring.

Five boys in a bush-burn on
Wm. Patterson's farm last Saturday
night. Several neighbors went to help
but nothing could be done except to
prevent the flames from spreading to
other buildings. A herd of
man's clothes and personal belongings
were destroyed in the conflagration.

Guest Editorial

It is high time that we the Farmers of Canada and particularly the West took very seriously the fact of their position in relation to the war and the economic condition of our country. Loyalty is the loyalty of the farming population or it's loyalty is no loyalty at all.

Loyalty is true loyalty only when it is intelligent. True loyalty to the interests of our Country not only shows a readiness to make personal sacrifices, but demands that no one shall be permitted to escape making sacrifices, or, some others will be required to sacrifice life itself.

Since there can be no such thing as a sacrifice in war, the man laying down his life and that of the man giving blood and money are equally patriotic and should be made to equislate as nearly as possible the contributions to the common good of the country.

Certainly no defence can be made of requiring certain classes of our population to make relatively much larger sacrifices than others.

THE FORT RECORD

inevitably decrease any reserve they still may have after a decade of ruinous prices. Of course, if only one class in the Dominion were asked to do the same, the farmers would, no doubt, be quite willing to do their part, as they now are to carry their fair share of the burden.

There is no other tobacco JUST LIKE
OLD CHUM

Explanation Column

On the opposite page and continuing on this page will be the additional statement for the year 1928 to trust that you will give the proper interpretation. I desire that the municipal government should be able to take any other form of domestic government and it is the duty of the people to see that the privilege is maintained by taking an

action which would not be too bad, but in addition to this commit a levy of \$2 million to make to cover the Provisional Service Tax, which is the same as the \$2,000,000. This levy is paid over to the city council to collect and disbursed by it for further use and

purpose. Taking these two items together, it means that \$1,000,000 has been added to the city's resources in 1937 and not lost. We expect to see that we can use in immediate relief of this situation.

The Council of the Municipal District of Denver, Bldg. 17, held a regular meeting on the 20th January, with all members in attendance.

After the adoption of the minutes of the previous meeting a motion

Ottawa—Canada's total receipts and credits for the fiscal year ending March 31, 1960 were \$662,171,300 according to the public accounts issued recently. Total expenditure was \$668,042,000 for the same period. The net result of the year's financial

Winning—The world needs "a spiritual and moral reorientation in the spirit of the Gospels," said Federal Minister of Mines and Technical Surveys, A. C. C. Brown, addressing a recent meeting of the Canadian Club here. Mr. Brown thought we would all be well advised to ponder thoroughly the true nature of the present war. "If we are to win," he said, "it must be a defeat," he warned, "the effect on the world cannot be calculated."

BETTER SEED
In order to promote the use and distribution of better seed grain the Alberta Poultry is participating in the work of the Alberta

Crop Improvement Association.

Wednesday, February 14th, 1960

Last week it was indicated in this column that unless the farmers of Canada woke up they would be asked to carry not only their fair share of the burden imposed by the war (which none of them have any desire to shirk) but considerably more.

Attempts are even now being made by leading industrialists and their spokesmen to lead farmers to believe that if things are just left to nature, in other words, to the industrial leaders, everything will be r.ay. Mr. Ronald McEachern of the Financial Post in a radio address struck a very optimistic note, casually mentioning \$3.00 wheat, 60 cent butter and \$1.00 eggs. Of course, he hastened to add that prices would probably not go quite so high this time. The impression was left, however, that the farmers of Canada faced an era of unprecedented prosperity.

On no other marketing Board has any attempt or effort been made to appoint representatives of the organized live-stock producers as members. In no single instance unless it happened coincidentally in the last two weeks have the farm organizations been consulted in any way, or their advice sought by the Federal Government. The Provincial Government has been better served, in that they appointed representatives of the live-stock Board who are not only practical live-stock raisers but also an elected official of various live-stock organizations of the Province.

To do this effectively calls for united action by the farmers, not only of this Province, but of the whole Dominion. **FARMERS WAKE UP?**

400 B.C.

About the same time that the Greeks had adopted as a national beverage the brew called "Zythum" and "Zythos," the Armenians found it to their taste. It is mentioned in Armenian history, 400 B.C., by Xenophon in his account of the retreat of 10,000 Greeks, who states that the people of Armenia at that time and earlier had used a drink made from barley.

Wynard, from the latter and Tanner introduced bills for first reading. The naming of a special committee to appoint standing committees was completed, and Opposition Leaders Huggan and Gray found themselves aligned with Social Credit members. Wynard will take place. The best defence of the Government against rising prices for the home to buy, it would seem, is for him during these war years to buy as little, and to sell as much as possible.

N. B. James, of defunct Acadia, led off the Speech debate. He has a good chamber organ and he leaves the country with bits of dry humor which

for extra sittings of the assembly. Everybody seemed happy about the whole thing—which means, in all probability, that the war horses have smelled battle smoke; and that before even this short session is over they'll be pawing and champing and rearing in the stalls.

this week-end many of them went home to run the gauntlet of nominating conventions, and lay plans for the impending contest.

X X X

Speech from the Throne was broadcast from radio stations immediately after its delivery by the Lieutenant Governor.

Later in the evening Premier Aberhart went on the air as Minister of Education. He was accompanied by Dr. G. Fred McNally, Deputy Minister. Topic—Education. It was the end of the week.

resulted in greater vocational guidance, economy of operation in relation to efficiency of working, and in general praise from educational authorities everywhere.

The Voter's View

Business management has really only one concern in the coming election—to get elected that party which will most effectively conduct the country's war effort and at the same time look forward to post-war needs.

There is an identical concern. Even the workers today realize there is a direct relation between the security of their jobs and the conditions which government lays down for management. In fact, the employment of "what helps business, helps men" is now more than a mere slogan.

Consequently, what the political aspirants say on the hustings, over the radio and in the press this past two months will be appraised by a large section of voters from the common interest of employers and employees.

In looking backward, the present government on its record of war administration since last September. It will consider whether another government could have done a better job, could have marshalled better leaders and could have avoided any mistakes that have been made.

In looking ahead, the same electorate will mainly weigh the programs of each party and consider their potential ability and energy to carry them out. In doing so, however, they will have to determine their answers to certain questions.

Which party, for instance, will provide the War Cabinet with the best individual and collective administrative capacity? Which Cabinet will provide the most aggressive and able leadership, invite the most confidence from the most people?

Which party will fearlessly pursue war policies that will involve a minimum of political extravagance? Which will spare patronage to the bone and allow the least political preference in wartime activities?

Which party will be the more inclined to take business men into its confidence before rather than after giving it mandatory orders; which will avoid needless disturbances to business through existing experienced executives in its administration?

Which party will seek seriously to eliminate unnecessary public services and expenditures so as to release the maximum money and manpower for essential wartime activities?

Which will select men and women for wartime duties according to their qualifications, not their willingness to leap or their party affiliations?

Which party will best recognize its responsibilities involved in securing strict control over certain essential businesses which will apply the best safeguards against the permeation of "costly"?

Which party will pursue wartime taxing and spending policies which will mean less hardship in the post-war period; which will best remember that currency debasement is the debaser of property and democracy?

These are the real questions which thinking members of the business community, in fact the entire electorate, should seriously ask themselves before they go to the polls next month. Upon the answers which the party most attempt to supply to these questions, should depend our support at the polls.

To you, then, who want Canada to make her supreme war effort, VOTE! But vote only after considering well which party government will serve, in the light of these issues, the country's interests—what are your interests—best.

—Canadian Business.

Australian Wheat

Australia's wheat problem is causing a lot of concern both to the growers and to the governments of the states and of the Commonwealth. Some of the questions being asked by Australia are:

Should the primary producer of wheat (and other commodities of the soil) organize his production in entire disregard of the demand for wheat?

Should growers with a high top limit of cost of production be continued on maintenance by the community?

Should wheat production be continued in those areas where the returns are erratic from year to year, but over a substantial period of time are low and unpayable?

If an attempt is to be made to equalize the industry on a basis of greater security of remuneration for the competent farmer from year to year, are we going to make the basis of our calculations the money value of wheat or its purchasing power?

Is the primary producer going to continue tamely to "take the dust" from the spoon-fed manufacturer or make a fight against the increasingly handsome imposed on him through tariff benevolence bestowed on secondary industry by the government?

Do wheatgrowers really desire elaborate control of their industry imposed from without?

—The Budget.

The Friendly Philosopher

One day I went out where my boy, Johnnie, was plowing and I says, Johnnie, curves is all right in motion picture stars and baseball pitchers, but they ain't no good in plowing. It's a lot of trouble to make them curves straight, he says, and what's the use? Can't we raise just as good wheat on crooked plows?

I goes on, I says, but it don't look good. A good workman likes to do a job he's proud of, and even if it ain't any better, he's a better man for having done the job well. If you get into the habit of always doing your best, you'll enjoy your work better, and folks will have more respect for you, too.

World of Wheat

The late Lord Tweedmouth seemed to be in many ways an embodiment of "Plenty" (the "Plenty" King). Lord Tweedmouth was not a King, but he was the representative of a King. He did not rule, but he carried a strong influence for good upon those who did rule. He was a philosopher, a historian, a deep thinker and a learned man. His name was pronounced, his thoughts were noble, and his expression of these thoughts both in speech and in writing was lucid, clear, simple and concise. He demonstrated, simplified and brought to his own subject in a way that Canada has lost a great name, a name of international stature, and his home interest in the welfare of Western farmers, was rewarded when he suggested, as a result of his observation of life on the prairie, that landy farmers families could more books to read. Out of his long experience with literature and books Lord Tweedmouth made certain definite and most practical suggestions to various organizations, and these suggestions finally resulted in the formation of "The Lady Tweedmouth Library", and the "World Trade Library". These two organizations, working together, have made libraries of books available to farming families at hundreds of points over the Prairie.

Valentine Tea Enjoyed

By Bremner W.A.

Mrs. Mark Latham, and her sister, Miss Anne Ottewill, were hostesses at a Valentine tea on Wednesday afternoon, the affair being sponsored by Bremner W.A. After a short program of songs, contributed by Mrs. Wm. Schreiber and Mrs. D. D. Duncan, soloists, and Miss Elizabeth Hall, pianist, Miss M. Macdonald, lady presented at the Indian School, St. Albert, gave a talk on Indian school work, accompanied by lantern slides, which were entertained by Mr. Lobb, Engineer at the school. A variety of sewing and handicraft work completed by the children was presented after the lecture.

At the tea hour the hostesses were assisted by Mrs. Myron Latham, Mrs. Alvin Latham, and Mrs. Wm. Myers, daughter of Mrs. Latham, of Anderson, who attended the tea with her little daughter Thomas.

Mrs. Thomas Best of Bremner, will entertain at her home on Thursday afternoon, March 1st, the affair being at the Red Cross.

Mrs. Elliott Street is in hospital suffering from a bacterial fever, contained when he was assisting in pulling up the pump on Mr. F. B. McCall's farm, Bremner.

The C.G.I.T. girls held a Valentine party in the United Church Saturday, Feb. 17th. After a happy supper, the girls spent the evening skating. We were wondering where the boys were, got all the girls.

The C.G.I.T. are planning a skating party for Wednesday, Feb. 22nd. Everybody welcome. Hot dogs and coffee will be sold.

Anderson visited Argenta Sunday, Feb. 11, for a hockey game. The outcome of the game was indefinite due to the number of players participating in the game at the same time.

Mrs. F. M. Baker, M.E.A., will hold a skating in Anderson Sat., on Tuesday, Feb. 22nd, at 8 p.m., when he will give an address on the "Secret of the Government" and Illustrated Lantern Slides on Alberta Industries.

"Why is Sandy so down at the mouth?"

"He bought a more card at the football game this afternoon and neither side scored."

DR. A. E. ARCHER

TO THE ELECTORS OF THE VEGREVILLE FEDERAL CONSTITUENCY

My many friends in this Constituency have honored me by making me the Liberal Candidate in this Vegreville Constituency, for the election which will be held on **TUESDAY, MARCH 20.**

In making this public appeal to you for your support I shall state in broad terms, but clearly, my stand on matters in which you are concerned.

I believe that Canadian Unity is more important to Canada than any other issue before, and is in Constituency in Canada, it is more important than here.

Our war effort can only be most effective if it is backed by the enthusiastic loyalty, voluntary contribution of all sections of the country and all racial elements in Canada. The policy of the MacKenzie King Government, at the outbreak of war added new meaning to one idea of Democracy, and a new sense of nationhood and responsibility to Canada. I believe the nations war effort of Canada is necessary to the preservation of our freedom and the fulfillment of ideals.

I heartily endorse the Liberal policy that: The maintenance of our peace is voluntary.

There must be no conscription.

We must pay for the war as we go along as far as possible. We must raise money from all possible sources, keeping the burden as light as possible on the farmer and wage earner.

There must be no profiteering in our war supply program. There must continue to be full co-operation with the Imperial Government.

In order that the war effort may be maintained and to ensure justice to the Canadian people, I believe that the Government must be improved. The Government must have some money if it is to pay for the war. It must have the right to raise money. It must have the right to raise money. It must have the right to raise money.

Readers in the Municipal District of Clover Bar, are advised that a similar agreement between The Port Board and the Municipal District regarding the paper, is under consideration.

WALTER M. BAKER

To the Electors of the Clover Bar Constituency

Before You Mark Your Ballot

THINK THIS OVER

1. That socialization of industries as proposed by C.C.F. candidates means centralization of power... which leads directly and inevitably to Russian Dictatorship.
2. THAT M. J. Caldwell, testifying before the Banking and Commerce Committee on May 18, 1940, claimed the advantages of public ownership have been illustrated in Russia and Italy.
3. THAT the government of New Zealand has assumed control of its own currency... which is exactly what the Government of Canada is doing through its Income Tax Provision.
4. THAT Dr. H. M. J. Savage, Prime Minister of New Zealand declared: "We do not intend to take control of production, industry or media effort, but to ensure the best results of all individual and community effort."
5. "I am satisfied it is only when industry is not running smoothly that the government should be asked to step in and give control."
6. THAT the Government of Alberta admitted the resources of this province... and that when private enterprise has done all the work and has taken all the money, they pay a substantial percentage of their earnings to the Provincial Treasury, a percentage which can be raised when desirable.
7. THAT the Production Tax, now used as an attack against the United Credit government by the Liberal Party in April, 1948... and that the returned vote on page 101 of the report of the Legislature shows 15 Liberals, 10 Conservatives, 2 Labour and 1 Independent supported the new principle.
8. THAT the Social Credit government demanded the Production Tax when the vote of the people rejected it.

THESE ARE PROPOSITIONS FOR HARRIS OR IN ANY STAR FOR THOSE WHO WANT PROGRESS.

Your support to C.C.F. will definitely undermine the minds of our Boys and Girls, and religious freedom as now presented in Canada.

Your support to Independent will mean a Government by the Money Power—without responsibility to you and us.

Your support to the AMERICAN ADMINISTRATION means new Socialism, Religious, Democratic and Economic Freedom to all the Free Peoples of Christianity.

VOTE—THURSDAY, MARCH 13, 1948
Polls open 9 a.m. and close at 6 p.m.

W. BAKER Floyd M.

Who knows your problems, and will serve you best. Ask your neighbor about your Member BAKER.

Constitution Can be Changed if The People Want It

People Independent

During the past five years the people of Alberta seem to have lost their confidence in the government and suggested a new one be elected. It is the duty of the people to elect a new government. It is the duty of the people to elect a new government. It is the duty of the people to elect a new government.

Girl A.A.A. Club Enjoys Theatre Party

On Thursday, March 10th, the members of the Girl's A.A.A. went to the theatre for a party. They enjoyed the party very much and had a very good time.

Red Indian Service Station Installs Stroboscope Machine

The writer of this item has been given the opportunity to interview the owner of the Red Indian Service Station, who has installed a stroboscope machine in the garage. The writer has been informed that the stroboscope machine is a very valuable piece of equipment, and that it is used to test the engine of a car. The writer has been informed that the stroboscope machine is a very valuable piece of equipment, and that it is used to test the engine of a car.

One of the things which impressed the writer most was the speed at which the ignition system on the new car must operate, and the precise adjustment that must be made to obtain the maximum efficiency. For example, the ignition coils on a four-cylinder car, as the best as they can be, will only give out a spark of 10,000 volts, and this is not enough to ignite the mixture of gas and air in the cylinder. The writer has been informed that the stroboscope machine is a very valuable piece of equipment, and that it is used to test the engine of a car.

OLD CRUM

ARBORIAN NEWS

The Arborean District news item of one of its "Oldtimers" is the news of Mrs. Jane Wardlaw, who has been a great community worker. Mrs. Wardlaw was president of the W.R.C. for years and she was also president of the Red Cross Society. During the last few years she has been very active in the work of the Red Cross Society.

To Merely Say Thank You

would be a most inadequate expression of my gratitude to the Electors of Edmonton West for the magnificent vote of confidence given Tuesday, March 26th. I am particularly delighted that Alberta will once again be represented in the ranks of the Government by such a splendid man.

Such recognition will not only be a fine thing for the people of this Province, but we will be receiving a full share of the responsibilities which will have to be faced.

To my supporters generally, and particularly to those splendid friends throughout the whole of the constituency who worked so hard for my re-election, I wish to express my most heartfelt thanks. I will do my utmost to be worthy of the confidence you have reposed in me.

JAMES A. MACKINNON.

Electors of Clover Bar

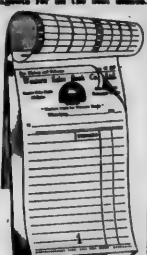

Permit me to express my keen appreciation for your support and efforts in my behalf during the recent election. The demonstration of your deep interest in the affairs and welfare of your community, which you displayed by having the rigors of a stormy day to travel long distances in order to vote, was an inspiration to me and proved beyond question that you have appreciated the efforts put forward by the Social Credit Government and myself in your behalf.

May I again assure you that, as long as you honor me with your confidence and trust as your representative, I will serve the best interests of the community fearlessly, without favor and to the utmost extent of my ability.

Floyd M. Baker,

Chairman,
Alberta Social Credit Board.

Agents for all the best makes.

THE FUTURE

Farmers everywhere on the North American continent are looking toward and seeking from their leaders some form of guidance as to a course of action for the future. In previous periods of distress, national, economic or political there has generally been plenty of advice available. The farmer has, during other times of current, advised to increase acreage, reduce acreage, raise more pigs, raise less pigs, etc. It would seem as if the average farmer was kept so busy changing his course, he was no where. Of course farmers like men and women of other occupations desire to smelt as far as possible in the nation's war effort, and are willing at the cost of personal sacrifice to help. This is all to the good, so long as they are reasonably well directed and their efforts work out to the benefit of all concerned.

However, the shifting changes of events in this war has in a large measure silenced the shores of advice usually heard in difficult times. The truth is that the future of western agriculture is so uncertain as to make advice futile. Responsible citizens looking to give advice and the run of the field politician is as much bewildered as anyone else. One could go on almost indefinitely quoting word and caseload, who are carryovers, who are conservative, the difficulty due to cost, distance and shipping shortage of transporting grain from British Columbia and Argentina; but in the end if one were to be asked the question "What Next?" the reply if it were truthful would have to be "I don't know."

Yet, it is natural for people to look outward and upward for some form of guidance. Few of us, it is almost safe to say none of us carry on our every personal activities without being influenced in some degree by what we read, hear over the radio, at public meetings and during general conversation with our neighbors. Consequently some form of guidance is absolutely necessary, the only alternative is plain mental drifting. And more drifting is more likely to lead to the rocks of despair than to the harbor of security. At the present time, economic experts, grain men and all those who have to do with treating grain and wheat, any form of prediction as to prices of farm products is merely guess work. The vast forces at work, in conflict with each other in the world today, render any general forecast a matter of opinion. The only advice that can be given, which is really, has been given, is that farmers "Carry On." Certainly this is good enough and fine advice.

We have felt for some little time that materialism has been stressed far too much during the past few decades. The measure of success has been how much an individual made and not how he did it. It mattered little whose effort went into the creation of wealth, whether it was the result of matter was legally possessed, it and it was to it that people rendered homage. Certainly during the past ten years there has been some improvement in this regard, but regarding this matter, but in the main this could only be classed as an eruption, it could hardly be classed as genuine improvement.

We felt that as far as the future is concerned and as regards this vision is very dim, the welfare of the farmer lies in his present proximity to the most important unit in the nation is the home unit and nowhere can the home unit be brought to a greater degree of excellence than on the farm. It is of course, however, pay attention to economics, the day is passed when money dropped from the skies, yet the ability to be contented with slow but steady progress is just as important as the ability to make rapid progress and lose contentment.

In reaching out for the shadow of material possessions, it is possible to lose the substance of happiness based on understanding. Today the world is confronted with two great schools of thought or methods of government. Britain stands as the champion of democracy, a political creed which in days gone by raised men from the slough of despair to the hills of hope. Dictatorship in any of its forms will, if allowed to flourish eventually lead men back to the tyranny of the dark ages. Farmers, their sons and daughters, and for that matter all thinking people, should understand this. And they should also understand that having democracy for democracy's sake is not enough either. The doctrine of democracy covers many fields, but the least of which is the willingness of many people to "let George do the thinking". It is not possible to have a "Virtue democracy and political complacency at the same time. Democracy imposes on the individual a responsibility from which farmers, their sons and daughters should also strive to properly evaluate public men and their policies. They should learn to recognize genuine public service when it is given and also to recognize that the desire to obtain office often leads men to curious beliefs. Economists will continue in the future to play a major part in the lives of Western Canadians, but the problem of government will become increasingly important as time goes on and for their own welfare Western Canadians should give it more than just selfish or passing attention.

were open for sale, with a number
of stalls for the sale of food.
There was also a raffle contest in
progress, barometer contest, tennis
and other sports. The grounds
were very clean and the
grounds for the little year to risk. An

[illegible]

A quiet but pretty wedding was consummated at the South Side home of Mr. and Mrs. Louis Herwig on Friday evening, July 1924, when their daughter Ruby Leora, became the bride of Mr. Victor Liskner, son of Dr. Philip Liskner of Edmonston. Rev. Dr. G. A. Macdonald performed the ceremony under an arbutus tree banked with pink and white surgenias and peonies.

The bride wore blue sate with white accessories and a orange and red and white carnations.

Miss Helen Koller of Camrose was bridesmaid and Mr. Floyd Harvill brother of the bride was best man.

Following the ceremony, a reception was held for relatives and intimate friends. The couple will take up residence in the city.

Wheat Outlook: More Hopeful Than Might Appear

At this time of doubt and difficulty, when there is apt to be a feeling of pessimism as to the future of Canadian wheat growing, it is well to look beyond the immediate situation and to recall those factors which have established Manitoba Northern the leading variety on international markets and which will once again, in a peaceful, agreeable-free world, restore to Canada a rightful share of world trade in wheat and flour.

There is not now, and never has been, too much wheat in the world. Some people, somewhere, could always have used more wheat. But the world has not always had the wheat it needed. The world has not always had the wheat it needed.

THE POST RECORD

1. The minimum requirements for

the U.S. diploma are: (a) 160 credits

including 20 for English 1, 2 and 3

and 10 for English 4, 5 and 6; and

(b) 10 credits for subjects of the

third year. (c) At least 30 credits

with the above 160 included for sub-

jects of the second and third years.

(d) At least 15 credits for General

Education of the first and second

years. (e) The General Education will

be provided for: Business (15), Creative

Writing (15), Vocational and Outdoor

Education (15).

2. It is to be noted that Vocational

and Outdoor is a first, second and

third year course. (f) "C" standing

will be required in the third

year. (g) The student has "B" in

the first year and does not offer the

third year. "C" standing will be

required in the first year provided the

student does not offer either the

second or third year. But it is to be

noted that for General Education and

"University" International a "B"

standing must be obtained in all

subjects.

3. The minimum requirements for

the U.S. diploma are: (a) 160 credits

including 20 for English 1, 2 and 3

and 10 for English 4, 5 and 6; and

(b) 10 credits for subjects of the

third year. (c) At least 30 credits

with the above 160 included for sub-

jects of the second and third years.

(d) At least 15 credits for General

Education of the first and second

years. (e) The General Education will

be provided for: Business (15), Creative

Writing (15), Vocational and Outdoor

Education (15).

2. It is to be noted that Vocational

and Outdoor is a first, second and

third year course. (f) "C" standing

will be required in the third

year. (g) The student has "B" in

the first year and does not offer the

third year. "C" standing will be

required in the first year provided the

student does not offer either the

second or third year. But it is to be

noted that for General Education and

"University" International a "B"

standing must be obtained in all

subjects.

3. The minimum requirements for

the U.S. diploma are: (a) 160 credits

including 20 for English 1, 2 and 3

and 10 for English 4, 5 and 6; and

(b) 10 credits for subjects of the

third year. (c) At least 30 credits

with the above 160 included for sub-

jects of the second and third years.

(d) At least 15 credits for General

Education of the first and second

years. (e) The General Education will

be provided for: Business (15), Creative

Writing (15), Vocational and Outdoor

Education (15).

2. It is to be noted that Vocational

and Outdoor is a first, second and

third year course. (f) "C" standing

will be required in the third

year. (g) The student has "B" in

the first year and does not offer the

third year. "C" standing will be

required in the first year provided the

student does not offer either the

second or third year. But it is to be

noted that for General Education and

"University" International a "B"

standing must be obtained in all

subjects.

3. The minimum requirements for

Chemistry 1, Biology 1 or History

2, Art 1, Music 1.

(b) 17 credits at least with "B"

standing in subjects of the General

Education group, with Gen. Education

1 and 2, and General Education

1 and 2 included.

2. For the present, Art 1, Music 1

and Biology 1 may be counted as

part of the 17 credits required for

General Education.

3. Credit in the Survey and Gen-

eral Education is not counted each year.

4. The minimum requirements for

the U.S. diploma are: (a) 160 credits

including 20 for English 1, 2 and 3

and 10 for English 4, 5 and 6; and

(b) 10 credits for subjects of the

third year. (c) At least 30 credits

with the above 160 included for sub-

jects of the second and third years.

(d) At least 15 credits for General

Education of the first and second

years. (e) The General Education will

be provided for: Business (15), Creative

Writing (15), Vocational and Outdoor

Education (15).

2. It is to be noted that Vocational

and Outdoor is a first, second and

third year course. (f) "C" standing

will be required in the third

year. (g) The student has "B" in

the first year and does not offer the

third year. "C" standing will be

required in the first year provided the

student does not offer either the

second or third year. But it is to be

noted that for General Education and

"University" International a "B"

standing must be obtained in all

subjects.

3. The minimum requirements for

the U.S. diploma are: (a) 160 credits

including 20 for English 1, 2 and 3

and 10 for English 4, 5 and 6; and

(b) 10 credits for subjects of the

third year. (c) At least 30 credits

with the above 160 included for sub-

jects of the second and third years.

Weekly Publishers Enjoy Convention at Lethbridge

The City of Lethbridge, Board of
Trade, Calgary Power Co., Paper
Manufacturers, and the Lethbridge
Herald, were hosts to the Alberta
Division of the Canadian Weekly
Newspapers Association, which
convened at the Lethbridge Hotel
last week.

Friday morning, the press and
their wives were guests at a banquet
sponsored by the Calgary Power Co.
at the Lethbridge Hotel.

Following the banquet, the
representatives of the various
papers met for a conference.
Mr. Walker is enjoying good

weather and said that he was on a
business trip, that would vary
much like it had something to do
with "books."

Mr. Alfred Pyle is the new in-
surance manager of the Port Harcourt
Hotel Telephone Company, a posi-
tion he left vacant on the death of
the late Charles Platt.

Jacobs' Welding & Machine Shop

A. Jacobs Port Saskatchewan

commenced. Friday evening, the
weekend paper dealers were held
at the address of C. M. Ross, Editor
of the Whitefish Pilot of Whitefish,
Minnesota, on "The Challenge of a
Changing World," was inspiring and
timely. In closing his message from
across the border, Mr. Ross said
that the world was full of possibilities
together as Canada and the United
States.

During Friday afternoon dis-
cussions were taken for a tour of
Europe. Mr. Ross, where they were
shown a few of the many details
concerned in this area of defense.

Early Saturday morning, as guests
of the Lethbridge Board of Trade,
the delegates returned to Lethbridge,
where an arrival banquet was given
at a light-entertaining lunch that took them

down beautiful Waterton Lake,
which is partly in Alberta and
Montana. A luncheon in the Rustic
Prince of Wales hotel, by the Leth-
bridge Herald, with similar
banquets as master of ceremonies,
was one of the highlights of the
entertainment part of the program.

After luncheon, the guests were
entertained by a pre-view by the
Blackfoot Indians. A full regalia,
even to the "war-wagon,"

of the 14th convention was only made
possible by the full-hearted co-operation
of the City of Lethbridge, Board of
Trade, Calgary Power Co., Paper
Manufacturers, Lethbridge Herald,
Senator Buchanan, Prince of Wales
Hotel management and the C.P.E.
system. To see and all we wanted
our sincere appreciation.

Reorganization of the Boy Scout
and Cub Troops in Port Saskatchewan
is a timely venture. Having
disbanded some three or four years
ago the troops will again get
underway next week. At a meeting
held Monday evening, some 30 boys
pledged their full co-operation to
the movement.

It is necessary also to have the
co-operation of the parents, so that
they will take an interest in what
their boys are trying to accomplish.
Just seeing that the boys get off to
a good start is not enough.
Parents must become interested in
the writings of the troops, and
must instill in the minds of the
boys that they can only get out
of a tight spot, but have faith that
they are prepared to put it to.

BALL UNIFORMS
A couple of seasons ago, local
merchants dug down into their
jars for the old five-spot or so
to help purchase uniforms for the
local ball club. One or two of these
donors demanded that their uniforms
be returned to them in the fall,
while the others were contented to
leave the care of uniforms to
club officials.

Lately our attention has been
drawn to the fact that on several
occasions boys were wearing pairs
of uniforms about the streets. This
practice should be looked into by
Club officials, and all suits should
be accounted for every fall.

The wearing of ball uniforms
by players while not playing, will
jeopardize to some extent the
collection of money for any
future equipment. And it is only
proper that good care be given to
articles that belong to others.

**FORMER RECTOR LEAVES
FOR MARITIMES**

Rev. L. D. Reischler, former
rector of St. George's Anglican
Church, and late of All Saints
Orthodox, Edmonton, has received a
call to St. Paul's Anglican Church
in the Diocese of Fredericton. He
will have leave of absence from the
Edmonton diocese to take the post
which has been left open because
of the death of St. Paul's in the
military service.

On his way to Fredericton, Reischler
has served in Calgary, Winnipeg,
Port Saskatchewan and Edmonton.
His many friends in Port Saka-
schewan with Rev. and Mrs. Reischler
and family on a enjoyable trip to the
Maritimes by motor, and a long and
pleasant stay there.

The first of several rounds of the
Covetite type being made at a Lake
Superior port for the Canadian navy
has been launched.

BUY 2nd WAR LOAN BONDS ... to Beat Barbarism

BONDS FOR BOBBS and other military weapons

Again comes the call! Vital dollars are needed to
prosecute the war and to assure victory.
Bonds may be bought without charge at any branch
of this bank. Necessary application forms and full
information will be gladly supplied. Should you
find it inconvenient to pay for your bonds in cash,
temporary accommodation may be arranged. Con-
sult your local branch manager.

These bonds are available in denominations as low
as \$100.

World of Wheat

Analysis of thousands of farmers' fields of wheat, just completed by the "Crop Testing Plan," reveal that many farmers are losing grain and yield and so losing money, because their grain has become mixed.

In northern areas some farmers are still growing mixtures of low-yielding and low-quality varieties, such as Provost, Stanley and Heron, which rank lower than No. 3 Northern.

Thousands of farmers are losing money by growing these mixtures. But Spring wheat, coming a better yielding in grade.

In southern Alberta millions of bushels of the earlier variety Red Bobs have been sold. Such sales, of course, cannot be harvested to the best advantage, and so the grain usually contains surplus surplus.

Thousands of farmers are losing money by growing these mixtures. But Spring wheat, coming a better yielding in grade.

Thousands of farmers are losing money by growing these mixtures. But Spring wheat, coming a better yielding in grade.

Thousands of farmers are losing money by growing these mixtures. But Spring wheat, coming a better yielding in grade.

IN MEMORIAM

First United Church
FORT SASKATCHEWAN

In loving memory of mother, Mrs.
L. Kaid, of Fort Saskatchewan who
passed into rest October 10th, 1940.

Five years have passed and gone,
Since we've loved and we've
We take from our home on earth
With Jesus Christ to dwell.

Flowers we placed upon his grave
May whisper and convey,
But the love of her who sleeps
Remains.

Should never fade away.
—Ever remembered by her sons and
daughters.

COMING EVENTS

Coming Events will be shared
at the rate of the 10c line, first
meeting, minimum 10c; second
meeting, 10c per line, minimum 10c.

The annual Thanksgiving Supper
of the United Church W.M.S. will
be held in the church on Sunday,
Oct. 14th, 1st Oct. 11th on every
table under 12 yrs. 10c to 8 p.m.
Adults; children, 15c; young men
and women, 25c; 10c to 8 p.m.

Local School Teachers will attend
the annual conference, 10c to 8 p.m.
The Fort Saskatchewan Rural Club, this
Sunday, October 14th.

P.V. Classes will convene at
Partidge Hill on Oct. 14th, at 8 p.m.
at the Fort Saskatchewan Rural Club,
at 8 p.m. All interested are invited
to attend these classes.

In a report received today, Earl
Herman, R.C.A.F., spent Sunday
afternoon with Mrs. H. Herman, former
teacher, who joined the school
in 1938. He is now in the service in
Toronto. Earl was to leave Sunday
for somewhere in New Brunswick.

Mr. D. Roberts was a Calgary
visitor the first part of the week on
business.

Mr. Ray Borg spent on his
apartment in an Edmonton hospital
over the week-end.

Monday, October 10th, is the
anniversary date of the opening of Fort
Saskatchewan's new hall.

Mr. Clyde Jones, former Editor of
the Nation News, was visitor at the
Record office Tuesday afternoon. He
came in to look over the press
recently purchased from The News
which your local paper is being run
off recently.

Personal Greeting Cards for \$1 at
The Record Office. Order now.

General Douglas MacArthur, former
United States army chief of
staff, has had his latest statement
issued from Manila to the
Commission to Defend America by siding
the allies, New York.

"You have asked my military
opinion as to whether the time has
come for America to give continued
and further aid to England in the
fight for civilization. The history of
failure in war can almost be summed
up in two words, one late. You late
is comprehending the deadly purpose
of a potential enemy. You late
is realizing the mortal danger. You late
is preparing. You late is meeting
all possible forces for resistance. You
late is standing with one's friends.
"Victory is war results from no
stocks of merchandise you have just put in
for Spring, Summer, Fall or Winter trade. People
are always interested in knowing where they
can obtain the newest and best.
It can tell you that slow-moving stock on your
shelves. It can help you dispose of your left-overs
or reasonable goods—some of which will soon be
out of season.
It can increase your turnover, reduce stocks on
hand and add to your profits and bank account.

It can tell people what you have to offer, attract
customers and increase your sales and profits.
Garages, Implement Agencies, Beauty Shops,
Grocery Stores, Drug Stores, Meat Markets and
the like, which are wise enough to advertise
always get the cream in their lines.

And A Big Advertisement
Will Work Even Harder Than This

An advertisement in THE FORT RECORD will be read
by practically everyone in the Fort Saskatchewan trading
area. Such an advertisement costs but little, but it
brings big results. Try one next week.

Local News

Mr. Geo. Meak of Edmonton,
the guest of Mr. Geo. Meak of this
week. Mr. Meak will leave in a few
days to take up residence in
Medicine Hat.

Miss Helen Adams is attending
Vernon Agricultural school, and
will be away until next holiday.

Mr. Ben Thomas returned to Ed-
monton after the week-end.

Church services and Sunday school
will be held as usual this Sunday
Oct. 23rd, at Joseph's Reformed
Church.

Members of the Women's Institute
are busy this afternoon (Wednesday)
in the Union Hall preparing to
be out to the boys overseas for
Christmas. Each parcel is made up
of 1 pair of home made socks, 1 Xmas
card, chocolate bar, instant oatmeal
and coffee, and each parcel is so
packed that it will be sure to
reach the boys in time.

Business packages will be made up
today.

Graves relating to deaths towards
the Christmas Day sponsored by the
W.I. can be seen by sending in their
contributions to Mrs. Henry
Cameron.

The Rev. Thomas Meak has been
called to travel. It was a decided
sorrow to hear the news, and many
are still thinking of the service he
gave at the church. Mr. and Mrs. Meak
and their family will come to see
them in the fall.

Children's support are being held
in the Community Hall last
Saturday night was a successful
affair.

Rev. E. H. Bickell is undergoing
polio with Rev. Andrew S. Wood
of Wainwright this Sunday.

Redemptive and present players
celebrated the return of the fall
winter sport Sunday afternoon, when
the Club held its official opening.
Many of the players were off with
renewed energy and vigor.

The annual school supper under
the auspices of the United Church
of Port Kaituma was held on Monday,
October 22nd, 1946. Supper from 8 to
9 p.m. Adults \$1.00; children 50c.

Miss Harriet Bickell and Miss
Helen Mackay were visitors at
the Rev. Meak's over the
Thanksgiving holiday.

A farewell visit was held at the
home of Mrs. C. W. Parker in honor
of Mr. Ben Thomas, who has
been called to travel.

Mr. and Mrs. Thomas returned to Ed-
monton after the week-end.

up prices?

(In that sultry summer day there were children in Lancashire whose wages were an unattainable luxury.)

M: Lord—is this Christianity? Is this what we are fighting to preserve?

here and now.

Tell the people that, when you are fighting for Christianity, you are not thinking so much of the making of prayers and the smothering of crowds, but of the making of a New Britain.

Do you remember, my Lord, Sir John Orr's report just before the war on "Food, Health and Income"? That report proved by irrefutable figures that millions of British children were seriously underfed.

My Lord—is this Christianity? Is this what we are fighting to preserve?

If we are fighting for Christianity, let us tell the people exactly what we are fighting for. Christianity stands for freedom—freedom not only from foreign tyrants but from anxiety, worry and poverty and unemployment. Tell them that Christianity stands

for true human brotherhood in the
 8y, in group, in action, and finally
 among the whole body of nations.
 Those are the demands which are
 implied in Christianity, and the
 have not been conspicuous in the

He once went to dinner with some people, My Lord, of your class. He could not endure it when he saw them scrambling for the best seats, and gnawing the hungry crowds. He turned on them with flaming

There will be no winning of this war, say Lord, unless the people who are fighting this war know exactly what they are fighting for.

His concern was with humanity soldiers. Cromwell proclaimed the

The Red Cross is

ent need of funds

Here are a few tasks the Canadian Red Cross must tackle at once:

1 At the request of the British Red Cross, it has undertaken to provide 10,000 parcels of food each week from Canada for British prisoners of war in Germany.

2 The Canadian Red Cross will provide, equip and co-operate with the Department of National Defence in maintaining a number of convalescent hospitals in various parts of Canada for use by Canadian soldiers, here and from overseas, who are sick or wounded.

3 The Canadian Red Cross will help to supply clothing and other necessities to the more than 100,000 evacuee children in Britain, and the 100,000 refugees from invaded countries who have sought shelter under the Union Jack. Many articles of relief clothing have been supplied, but another half million articles will be needed from Canadian Red Cross workers.

- 4 The Canadian Red Cross is sending an increasing flow of supplies for the alleviation of civilian suffering caused by enemy bombing of Britain.
- 5 As Canada's own armed forces grow, on land, on sea and in the air, the need for Red Cross services increases.
- 6 The Red Cross must be ready and fully equipped to meet

These are tasks you must not leave undone.
Support the Red Cross with all your heart.

Everybody Welcome

Mr. C. L. Albright of Vancouver,
B.C., and former business man in
Fort Saskatchewan is a visitor in
town this week. Mr. Albright has
the most city very much. He is a
business man, and he looks to be in
the "pink" of condition.

O. Betelge, O. Evans of The Fort
Hotel, and Earl Burns left Wednes-
day on a motor bus in the Rocky
Mountains district. The party expects
to be gone four or five days.

Will Trade or Sell

1910 Chevrolet Light Delivery

Truck, pump, glass, ideal for most
former. Would consider part paid
and stock. Apply Philip Gordon, Fort
Saskatchewan.

IN MEMORIAM

In Loving Memory of Stanley Dennis who went home Christmas Eve, December 26th, 1939.

Those whom we love go out of sight,
But never out of mind;
Of them they cherish in the hearts,
Of them they leave behind.

Loving and kind in all his ways,
Upright and just to the end of his days,
Steady and true in heart and mind,
Beautiful memories he left behind.

God is Love.
— Lovingly remembered by his wife, Katherine.

Local News

Glyn Roberts was operated on early Thursday morning for appendicitis in the Royal Alex Hospital. He is reported to be coming along well, and may be home Christmas eve.

Loss Posen, former Royal Bank Teller here, says of Edmonton received word recently that he leaves January 26th, for Toronto, in the Supply Department of the R.C.A.F. While here, Loss passed the necessary qualifications for the R.C.A.F. and was trying to get on the Aeronautics Department. However, he seems to go and will no doubt be counting the days.

Miss Helen Mayer and Milton Meyer of Good Hope, are expected to spend New Year's at the home of Mr. and Mrs. Herb Holt of Lethbridge.

Mr. E. Roberts, Petty Officer in the Canadian Navy, was a visitor in town for a couple of days last week and told many of his old friends and school chums, prior to leaving on the 26th for Halifax. Ed. expects to be assigned to a ship immediately, holding the rank as a ship engineer.

Mrs. Stanley Dennis will spend the festive season in Edmonton, the guest of Mr. and Mrs. William Campbell. It is reported that their son, Tommy, will will know to a number of residents here, having spent several vacations in our midst experts to leave on the 26th, as a member of the Canadian Navy.

Miss Marjorie Lecher will spend Christmas with her sister and her then-in-law and family, Mr. and Mrs. Leslie Price of Calgary.

Mr. C. Patterson, assistant principal of the Fort school, will spend Christmas holidays at his home in Calgary.

Mr. Johnnie Miller, Edmonton, was a week-end visitor in the Fort.

Edmonton King of the University of Alberta is home for the Christmas holidays.

Hugh Watt, R.C.A.F., located at Toronto, is home on Christmas leave, prior to being sent to convert to in Egypt. Hugh looks fine and is beginning to like his job better as time goes on.

We are sorry to hear that Mr. A. H. Rogers, Edmonton, is still unable to leave the hospital, where he has been confined for the past three months.

Mr. N. Buchanan, Edmonton, and former resident and proprietor of the local paper in 1901, was a Fort visitor Sunday.

Messrs. Harold Ray and Ed. Power, Edmonton, were Fort visitors Saturday afternoon.

The Week in Edmonton

Feeling and collecting Christmas "bells" or gifts between 10 and 12 was then a day devoted to home and church associations (coming of the popular post another British situation—brought revision of the old custom. But better days remain, and in future years as a day of rest in the New World.

Education conference on western farm problems will produce beneficial results, said Hon. D. B. MacMillan, minister of agriculture, when he returned to his office this week with other farming representatives. "In my opinion, the conference will have beneficial results through bringing before the federal minister the western point of view in regard to the wheat situation, grading of flour, poultry and other farm products," he said. The minister outlined a plan to build 1900 bushel capacity farm granaries at \$100 each, the cost of which would be aided by federal advances. Sessions were conducted in a spirit of harmony and understanding, said Mr. MacMillan.

Edmonton will train more Australian airmen as part of the city's contribution to the Commonwealth Training Scheme, it was disclosed here by Air Vice-Marshal R. J. Goble, head of the Australian air mission. Veterans pilot of the last war and holder of important R.A.F. posts in peace, Marshal Goble is Australia's chief representative in Canada. "All Australian airmen in Canada, including myself, have been everywhere in the Canadian hospitals. The kindness shown us is appreciated not only by ourselves but by our people at home who have told Australia all about it," he said. He lauded growth and organization of the training scheme.

World champion flower grower W. J. Bryant of Boise has presented the Edmonton Chamber of Commerce with a new plaque bearing the name of the chamber spelled out in sweet pea seed, variegated and embossed. The plaque is now on show in the chamber's office windows. Boyle has been twice world sweet flower champion, and a winner at other important grain shows.

Final payments in connection with cooperative wool shipments were distributed by the Alberta Sheep Producers' Association this week. As agents for the Canadian Co-operative Wool Growers' association, the Alberta body handled about \$25,000 worth of wool during the season. An amount of \$2,500 was advanced last June, and this week a further \$14,000 went out to growers.

LOCAL NEWS

Johnnie Miller, who was moved to his new home at 1001 Main Street, was a week-end visitor in the Port.

Twenty members of the Y.M.C.A. basketball team were present at the last night, where they paid a return visit to the local team. Plenty of basketball and delightful refreshments were served during the afternoon, proving a pleasant affair.

Old time friends of Mrs. Mary Westcott will be glad to hear that she is well and happy. She was in the hospital of March 10, aged 86. Her husband was the mother of Mr. A. H. Westcott, now of Port Huron, near Detroit.

Mrs. G. Heals and Keith left for the coast last Friday night, where it was hoped that the baby now known will have the desired effect on Keith who has been ill for some time.

The trial judge, James, came this day to "The Court House."

Miss Marjorie Rappell, former High School teacher here, now of Winnipeg, will be in the city on Friday evening, incidentally Miss Rappell took in the Colliers' dance.

Warren Knapley, B.A.Sc., of Edmonton, will be in the city one day in the army and a pleasant 6-mile walk to registration here.

Friends of Bud Williams will be pleased to know that he has been released from the military service of the electrical department of the Y. T. Iron Company, Edmonton.

Edward J. E. Jones of the Lament Company, of the Y. T. Iron Company, will be in the city on Friday evening, incidentally Miss Rappell took in the Colliers' dance.

Col. James, who is in the city on Friday evening, incidentally Miss Rappell took in the Colliers' dance.

Col. James, who is in the city on Friday evening, incidentally Miss Rappell took in the Colliers' dance.

LBS OF PORK,

The Week in Edmonton

Edmonton has seen Alberta more than 500,000 people in the past eight years, as was declared in the Legislature this week by Hon. Dr. W. W. Cross, Minister of Health and Public Welfare. Referring to critics in one of his rare speeches, the minister said that Health Medicine was wanted by the people of Alberta, and that it would be provided in progressive steps as the money became available. Earlier in the day he had announced opening of the Calgary cancer clinic. Second stage in the five-year plan for cancer control which the province is inaugurating. Diagnosis and treatment is free for curable cases.

Provincial lands made available to the federal authorities for airport sites to the new chain being constructed to the Yukon are leased free, it was stated this week. "The Dominion government will hold a license of occupation for the duration of the war. The policy is to land the federal government what ever it may need for war purposes from the charge," it was said.

The budget having been formally introduced, Legislators have settled down to the traditional debate, and by the time it is over, very many speeches will have been delivered. While, little continues to be introduced, and the expected amendments are expected Thursday last. It was introduced by Hon. Louis Maynard, Minister of Municipal Affairs, and will apply to about 1000 municipalities in 1936.

J. A. McNeil, secretary-manager of the Alberta Seniors Association, believes that the summer Alberta and Canada will witness a record-breaking influx of tourists during the present year. Highlights of a season-

ed campaign to combat venereal diseases in the trade in U.S. was the personal invitation to visit Canada extended by Prime Minister King. According to Mr. McNeil, U.S. publications are conducting a drive to stamp out false reports as to Canadian conditions, and already the Alberta tourist bureau is receiving a growing daily list of inquiry letters. W. F. W. Hancock, R.C.M.P. Chief Constable, stated provincial and local police forces, the Canadian Legion, Canadian Corps, Imperial Veterans, Royal Canadian Mounted Police, and U.S. F.O.B. shipping points, all have promises that will be carried out. When Prisoner Allen visited the soldiers' wing of the University Hospital, and if time permits, the children's section. The official party will be guests of the province at a luncheon in the Macdonald hotel at 12:30 noon, at which official addresses of welcome will be presented by Premier (Alberta) and Mayor. Fry at 2:30 p.m., the Governor-General will inspect naval and military forces in training at 3:30 p.m. will inspect the R.C.A.P. training camp, where he will have tea in the officers' mess. Meanwhile, Prisoner Allen will be busy receiving visitors of women's peace and solidarity. The new headquarters will have Old Guides at the Prince of Wales Armory. At the end of the day the Canadians will leave for Jasper, where they will remain a day before leaving for the west. Calgary will receive the distinguished visitors on April 24.

An amendment in the Throne Speech, a bill to provide that the Government Insurance Office write life insurance before the Legislature, Officers in the first business field having been met, the bill will be introduced. The bill will permit what is considered justifiable expansion.

Measuring a system for standardizing gasoline in Alberta, a new order-in-council permits that for the immediate saluting of gasoline for form fill. The new regulation will provide for premium gas—with an octane range of 75-77, and regular gas, with a range of 65-75. C. E. Madden, Dominion oil controller, in Canada for all provinces to select standard ratings, thus ensuring two-year-old lead imports for various purposes.

Letters to the W.I. From Local Boys

Manitou, B.C.
Dear Women's Institute,
Fort Saskatchewan, Alberta,
Dear Ladies:

Your very welcome passed around this morning and was a most pleasing surprise. The questions and answers went the rounds of the platform but although many serious questions were asked at the table, I managed to retain possession of them.

I liked your idea of wrapping the parcel in a sack for it can be used to keep shoes brushed and clean.

Thank you all sincerely,
Yours truly,
Pam, Ontario.

Woman's Institute,
Fort Saskatchewan, Alberta,
Dear Ladies:

I guess it is just about time that I was writing and thanking you for the lovely Christmas box sent me. It was just grand and I enjoyed everything very much. Santa was supposed to send this to him a lot more than what Santa Santa was supposed to give him (from being home) as Christmas.

I like the address very much, it is just grand and all the boys are well. I am in good station and they do a lot of flying here. I would like to see you more about what we do, but as

you have the address change it is better to write to you.

Yours truly,
Pam, Ontario.

Woman's Institute,
Fort Saskatchewan, Alberta,
Dear Ladies:

I guess it is just about time that I was writing and thanking you for the lovely Christmas box sent me. It was just grand and I enjoyed everything very much. Santa was supposed to send this to him a lot more than what Santa Santa was supposed to give him (from being home) as Christmas.

I like the address very much, it is just grand and all the boys are well. I am in good station and they do a lot of flying here. I would like to see you more about what we do, but as

you have the address change it is better to write to you.

Yours truly,
Pam, Ontario.

Woman's Institute,
Fort Saskatchewan, Alberta,
Dear Ladies:

I guess it is just about time that I was writing and thanking you for the lovely Christmas box sent me. It was just grand and I enjoyed everything very much. Santa was supposed to send this to him a lot more than what Santa Santa was supposed to give him (from being home) as Christmas.

I like the address very much, it is just grand and all the boys are well. I am in good station and they do a lot of flying here. I would like to see you more about what we do, but as

"Let her Cool" School Flashes

"If you do not succeed the first time, try again!"

This is exactly what Fort Currier did Monday night, when two students invaded the school and stole a pair of shoes. The school principal, Mr. Currier, was not pleased to see the cup in Fort Saskatchewan as it provides an opportunity to play for it on Fort.

Fort was both games by scores of 14-11 and 14-1.

Personal of risks were as follows: Bert Maxwell, skip, A. Simmons, H. Sharver, Fred Sherman, A. H. Currier, skip, C. Ashton, H. Daulton, "Buck" Buchanan.

There are still about four "dancers" left on the curling rink. Any one wishing a chance on a new pair of tools see the president.

President Currier's banquet will be held on Wednesday, April 2nd. (See page 12).

Correspondents Please Note

Correspondents are asked to take particular care that advertisements do not appear in their news budgets. A good rule to follow in when advertising is to place an advertisement in a newspaper which is not a competitor of the advertiser. When people ask you to insert an advertisement in a newspaper, tell them that you will be pleased to do so if they will accept responsibility of payment for the advertisement. When you are asked to insert an advertisement in a newspaper, tell them that you will be pleased to do so if they will accept responsibility of payment for the advertisement. When you are asked to insert an advertisement in a newspaper, tell them that you will be pleased to do so if they will accept responsibility of payment for the advertisement.

About Overseas

By F.A.C.

It would take time, but this, most things that are worth while to do. And the present moment is the very time to start it. Education is the best thing that a person can do for himself and for his country. It is the best thing that a person can do for himself and for his country. It is the best thing that a person can do for himself and for his country.

World's Wheat

By Harold L. Wey
Associate Editor of The Edmonton
Bulletin and author of the daily
column "From the West"

There is an historical disposition
both in Britain and in Canada, to
regard the German advance into
Russia as a serious danger for the
Allies—a disposition which is based
on neither in fact nor in common
sense.

It is true that
the German advance into
Russia is a serious danger for the
Allies—a disposition which is based
on neither in fact nor in common
sense.

It is equally simple to believe that
the British and their allies gained
nothing in the course of the struggle
in the first place, the German
have learned that they cannot take
their fighters as the British and the
British, even to the point of the
with superior equipment, with
out maintaining complete control
of the situation.

In the second place, the legend of
invincibility that surrounded the use
of lightning tanks has been shattered
beyond repair.

After the amazingly rapid invasion
of Holland in which German Panzer
columns rolled as far as two hundred
miles a day, all things turned out
in favor of what they believed were
unbeatable mechanical weapons, some-
thing like the terrible machines
seen in some Frenchman's magazine.
The German Panzer columns can
no longer be called invincible by
name they have been stopped.

The German Panzer tanks have
been stopped by the British and the
British, even to the point of the
with superior equipment, with
out maintaining complete control
of the situation.

Perhaps the story of the British
effort, however, lies in the fact that
the British have continued to be in
Africa and Asia, in which
he is bound to meet resistance from
the British, even to the point of the
with superior equipment, with
out maintaining complete control
of the situation.

military machine to lose, she must
not let her tanks fighting men into
the field.

These two countries have headed
off the German advance into Russia.
Ultimately, they will have to
get into the war.

The Nazis propaganda machine has
been very successful in the matter
of the British high command, par-
ticularly with regard to the employ-
ment of Australian troops, in an
unrepeated fight.

At a moment, there has been
general propaganda in Australia
concerning the British high com-
mand, particularly with regard to the
employment of Australian troops, in an
unrepeated fight.

Of course, the world is not
about to see that the British
have not been made. But every
country of the world is to be
satisfied with the British high com-
mand, particularly with regard to the
employment of Australian troops, in an
unrepeated fight.

It would rather destroy the
principle of our leaders and men
within the British high com-
mand, particularly with regard to the
employment of Australian troops, in an
unrepeated fight.

It is an extraordinary thing that
this kind of propaganda is being
permitted to be seen from
public platforms in a country where
the British high command is being
defeated in the most obvious way.

It is in the American national
press, Lindbergh is mentioned
with a view to making it clear
that the British high command is
being defeated in the most obvious way.

Voice broadcast by David L. Wey

LOOK WHAT FORD OFFERS

Bigness! Comfort! Economy!

Plus the
POWER AND SMOOTHNESS
of a V-8 Engine

Look at the value
that's packed into
the 1941 Ford! It's the lowest priced
car you can buy in Canada. It's the
largest inside. It has the greatest total
loading value. You get extra knee-room
and front head-room. Wider doors!
Larger windshield. Longer spring-beam
Ford riding comfort this year is a
revolution. On the new "low-motion
springs" with improved shock absorbers
and new ride stabilizer, you
slippery glide over the bumps. There's
a softness and smoothness new to cars
at this price.

Only Ford at the price offers you
the power and smoothness of a V-8
engine. Eight cylinders for smoothness!
Small cylinders for economy! Extremely
low gas and oil consumption as proved
in one official contest after another!
Long life and reliability.

For this year is built with greater
strength than ever. Frame is twice
as rigid. The whole car has a heavier,
"Big-car" feel. See a Ford dealer.

Save a month with reasonable down
payment like our Ford V-8

DARK GRIM DAY

The British Empire is now passing through dark grim
days, and some seem almost to despair about the future
But the history of the British Empire should encourage us. For
it seems that Great Britain has never in her entire history,
entered into a war so properly prepared. She has found her
self, when the zero hour struck, deficient in man-power,
arms and equipment, and so ever it falls to the lot of a pitifully
small force of our gallant and courageous soldiers to hold the line against great odds while these vital
deficiencies were being repaired. During most wars, history
records, our country passed through a period of dark days,
so dark that usually some began to feel defeat. Yet always
the endurance, the steadfastness and the devotion to duty of
our soldiers, the determination and the dogged persever-
ance of the British people supporting them, in the end van-
quished our opponents.

Peculiar to most of the wars which Britain has fought
and won, has been the simple fact that a change for the
better came, and the march to victory started, just when all
appeared to come to the last. Remember too it is how the
downfall of our opponents usually came about quickly after
the period of our own darkest days.

During the last war, after three and a half years of
desperate struggle, the time of extreme difficulty for British
arms came in March and April, 1918. Our opponents
made striking advances, and had reached a point where they
were confident of our quick defeat. Yet in less than four short
months, by early August, our enemies were in full retreat.
Our own clear march to victory had started, and had reached
its fulfillment by November. This peculiar pattern of near
defeat yet of ultimate victory has been characteristic of
nearly all our wars.

Even though, therefore, the present days may be dark,
and grim, we need have no fear, but instead we should
keep in mind the inspiring words of Thomas Fuller, who
wrote in 1660, "It is always darkest just before the day
dawneth."

WEED CONTROL

Weeds increase the cost of production, lower crop
yields, and reduce fertility of the soil. Attempts to clean up
weeds have sometimes leads to soil erosion, especially in
areas of the Province where a one crop system of farming
is practiced.

On farms raising live stock, the need for a diversifica-
tion of crops for feeding gives the farmer more opportunity
to clean up the land, but, on the other hand, the use of
several crops may be responsible for introducing other
weeds. Under a system of diversified crop production how-
ever, the increase of weeds, and the losses caused thereby,
will proceed more slowly than on a grain farm, but the
process is the same in each case. While some weeds have
value as feed, and in limited quantities do not seriously
impair the value of food for live stock, their neglect will
wreck prosperity on any farm regardless of the programme
followed.

Watch for weeds. No system of farming is a guaran-
tee against them. Weeds are in a real sense "thieves in the
night" stealing the farmer's income and prosperity.

BRAKES

No words are strong enough to stress
the importance of
SAFE BRAKES

If we weren't so used to the automobile, we would be
inclined to check the brakes every time we took the car
out. But today's automobile is so near to perfect that we
are almost inclined to sleep in the matter of

ACCIDENT PREVENTION!

A brake inspection once a year is little enough. Play safe
and have us

'Fets' Weber Honored
By Hanna Cuthbert

(Hanna Herald)
Militia men had (arrived) to one
of their premier officers when
they were a member of the
Militia. Major P. B. Weber, who left
Militia on active duty.

Major Weber, who was as-
signed to the Alberta Govern-
ment Telephone here for a number
of years, was a prominent member
of the militia, as well as being well
known among the sporting fraternity.
He was an ardent cricketer, and
last year was president of the Militia
Club, and made many friends
during his residence in Hanna.

"Fets," as he was more familiarly
known to many people, saw service
in the last war, having enlisted in a
young man had served for three
years. In this his second enlistment,
he carried the rank of Sergeant Major,
and held a light detachment at-
tached to No. 1 Armoured Division
at present stationed at Calgary.

Militia members and business men
able paid much tribute to Major
Weber at the funeral in Hanna
last Thursday. A most enjoy-
able social evening was had, at the
conclusion of which the honored
guests were presented with a fine
spread, together with host wishes
from all for a safe and speedy re-
turn.

"Fets" was formerly manager of
the Alberta Government Telephone
branch at Port Sackatchewan, and
will also be remembered as a val-
uable member of the militia. He
was a member of the militia, and
Mr. John Martin, of Red Deer.

Last week, in this column, I argued

HAVE

pledged ALL YOU CAN TO BUY
WAR SAVINGS
CERTIFICATES
regularly?

YOU KNOW that Canada's War Effort requires a steady flow
of money—week by week, month by month—based on the
savings of her people.

IF YOU HAVEN'T pledged yourself

—ACT NOW! Canada needs you. You can save and lend. There are three
ways to pledge your money.

1. Ask your employer to deduct a specified
sum from your salary or wages each
pay day.

2. Authorize your bank to deduct it
each month from your savings account.

3. Sign as "Honour Pledge" to buy
Stamps or Certificates for a specified
amount at regular intervals.

Published by the War Savings Commission in Ottawa.

IF YOU HAVE pledged yourself

—keep up your pledge. See your invest-
ment grow as the months go by.

INCREASE the amount you have pre-
sented to save and invest. And remember
that, in addition to your regular
pledged amount, you can at any time
buy as "Honour Pledge" to buy
your local Bank—Post Office—or you
can send your money direct to the
War Savings Commission in Ottawa.

W. Shaw has accepted a position
at H. Johnston's shop.

W. A. Graham is leaving the office
served for his home this week.

J. Lepage of Edmonton, was in the
city this week. Joe will be running
a motor boat from the station at
Cooking Lake in the hotel this
week.

Last Monday morning, while try-
ing to put a ball on the road-riding
machine at G. D. Goss's, John Schaefer
had his arm broken.

Mr. J. Goss and Mrs. T.
Halling, Edmonton, whose husbands
are engaged in construction work
of the new jail, have placed their
tomb in the barrens grounds, where they
will reside during the summer
months.

A quiet wedding took place Mon-
day forenoon in the Presbyterian
church when Mr. J. H. Stevens of
Chester, and Mary H. Smith of
Agriculture, were united in the bonds
of holy matrimony.

Port of View

By
E. G. L. Shogge

The country of Iraq, now so much to the public eye, has been known to since during the past 5000 years from great men.

This land was civilized the whole of the human world. It was the site of the Flood, of the Garden of Eden, of the ancient cities of Uruk, Babylon and Nineveh. It was the home of Abraham and of the great conqueror Nebuchadnezzar (whose career was not unlike Hitler's) and whose downfall was predicted accurately by the Biblical prophet Jeremiah, Ezekiel and Daniel.

For thousands of years this ancient country was the scene of invasions and battles by the Chaldeans, the

Sassanians, the Seleucians, the Persians, the Parthians and the Byzantines; these nations falling, building and being in turn after the other their historic strength of country between the Tigris and Euphrates Rivers, enriched with living men, as it still is today, the most fertile land in the world.

On this soil wheat is said to have been first grown, and it was mainly for wheat that the ancient wars and invasions were made, but today it is for the people of all that the struggle is being fought, and so it is today that the wheat of this land is being planted, and so it is today that the wheat of this land is being planted, and so it is today that the wheat of this land is being planted.

There is no one scene of agriculture in the world today that is made up of many nations.

GOOD HOPE NEWS

The Ypres Valley Y.W.A. held their first meeting on Thursday, May 14th, at the home of Miss Mrs. May. The meeting got underway with Mrs. L. Carl Dietrich in the chair. Mrs. Kenneth Burton and Mrs. Clara Gordon were given \$2.00 each, as a wedding present from the club. A couple of small bills were paid and the remainder of the funds were turned over to the Ypres Valley Y.W.A.

The housewife's problem of finding food, and so it is today that the wheat of this land is being planted, and so it is today that the wheat of this land is being planted, and so it is today that the wheat of this land is being planted.

There is no one scene of agriculture in the world today that is made up of many nations.

CHALMERS GRAIN CO. LIMITED
SHELDON

After the meeting adjourned, a proved, but is still under medical treatment.

Following a lengthy discussion the following motion was unanimously passed:

"We respectfully demand the Ypres Valley Y.W.A., this night of May 1941."

According to records, yesterday received 13 warships one night in 1793.

Send your news to The Record.

CANADA CALLS

Canada has reason to count her blessings in these days of trial.

Canada is three thousand miles away from the sound of guns which are devastating Europe.

The broad Atlantic Ocean rolls between us and the ruthless savagery of the German Armies.

The strongest fleets in the world—British, American and Canadian—patrol the sea between us and the enemy.

We have a great friendly nation, probably the richest and most powerful in the world, at our side.

CANADA CAN AFFORD HER SACRIFICES

This war is a mechanical war.

We have the nickel...copper...lead...zinc and other metals the war industries need. We have access to the iron. We can make the steel.

We have the organized industries to fabricate these metals and make the trucks, and tanks, and guns, and planes, and the ships.

We have skilled workers and the plants for mass production. Canada has the wheat and the food supplies.

Let us count our blessings, and tighten our belts.

Canada is rich—one of the richest countries per head of population in the world. Let us lend our strength to the utmost of our power. Our national future depends upon Victory.

We must win to live.

THERE WILL BE FURTHER CALLS

There have been many calls upon the people of this country for money since Canada entered the war at the side of Great Britain.

There will be further calls.

Let us face the future unafraid.

Canada can carry the load.

But every Canadian must shoulder his and her share.

This is the most critical hour in our history. Let the future historians say of Canada, as they will say of our Mother Country: "This was their finest hour."

Got under your load...and LIFT

Wednesday, May 13th, 1941

P. Harker, of Ardmore, was killed by a horse this week, and is seriously injured.

Mr. Dore has secured a fine stallion, a blue ribbon winner at the Edmonton show.

"The Converter" is now carrying the former "Recorder" building between the Kibb's store and the Mission House.

Seven couples of stock were shown at the stock yards last Friday.

Mr. Meert will give a magnificent "BIG COUNTRY" show.

BREMNER NEWS

Mr. Mort Reynolds entertained on Wednesday afternoon in aid of the Canadian Flower Fund at the Y.W.A. and United Church Y.W.A. Flowers were the theme of the affair, which took the form of an "Apple Blossom Tea".

Mr. Meert will give a magnificent "BIG COUNTRY" show.

Three fields of wheat are green, and farmers are getting on with the sowing of coarse grains. Harvest is needed.

It is not to be supposed, however, that Germany will relax her efforts to bring Turkey within the Axis fold.

It may be expected, therefore, that Mr. Meert will give a magnificent "BIG COUNTRY" show.

On May 14th, the local Red Cross will have a home on the Fair Grounds where light refreshments will be served.

The most effective way, of course, have nothing to do with Iraq. Urgent as the solution of that country may appear to Hitler, it is possible that he may set himself another task before tackling that particular problem.

Iraq may be the most important objective. It may not be the next objective, however, in the chronological order he has planned.

Stalin, apparently, is persuaded that the Ukraine may now emerge as Hitler's attention. That, at least, is the only interpretation that can be placed upon Stalin's sudden assumption of the primacy of Russia.

Stalin knows perfectly well that any invasion of Russia will result in a Russian counter-revolution. He made himself prime minister in order to maintain a legal control of the country even if the Communist Party should suffer a setback.

The disappearance or defeat of the Communist Party would have serious consequences for a man who derived his authority from no other source than the leadership of that party.

First Farmer—Potato bags are my whole crop in 14 days.

Second Farmer—They are mine in two days and then resented in the town to use if I'd plant some more.

Good Merchant—That's nothing; there's a couple over there now, looking through my books to see who has ordered seed for next spring.

World's Week

By Harold L. Wade

Assistant Editor of The Edmonton Bulletin and author of the daily column "Over the News"

"Action of the Iraq problem has probably become the major consideration for the moment, in Hitler's mind."

That the revolution against the British proved absolute and unswerving was not only a surprise, but a relief.

It is not hard to see the Iraq problem as a major consideration for the moment, in Hitler's mind.

It is not hard to see the Iraq problem as a major consideration for the moment, in Hitler's mind.

"LOVE THY NEIGHBOR"

VEN WEEK'S SHOW PRATICE

To radio fans, "Love Thy Neighbor" starring Jack Benny, Fred Astaire and Mary Martin, will probably be the last work of genius, some of the humor is as forced as the real program, but one last to expect that.

The real star of the show is "Radio City," who stands from time to time as the leader. However, it must be added that the movie came into being on the benefit of good men which and comradely to his children.

Harry Martin's singing adds much to the picture and there are two good tunes. In with all these things, the picture should take well with the regular picture.

Send your news into The Record.

The Week in Edmonton

Alberta's most important recent event is scheduled for Sept. 24, when the Jasper-Banff-Sunshine highway will be opened for traffic. Practically every visitor to the province wishes to travel this significant route. The Trans-Canada highway through the Big Bend is already open, as is the Banff-Winterbrook road.

Of far different purpose, but greater practical importance, is the projected Alaska road through Alberta which is receiving much support in the U.S. and Canadian prairie regions. Following announcement that the Highway Commission studying the route has no authority to consider the Alberta project, the U.S.A. is requesting the Dominion Government to order inclusion of this. "We have asked that the best route be chosen, so long as it serves the best interests for military defence," said C. H. Grant, E.C., of the Edmonton branch. It was suggested that the association will seek a provincial government grant for their work in tourist publicity.

Any production in Alberta, almost an increase during 1940, is reported by the Dominion Bureau of Statistics. In 1940 the total production amounted to \$61,117,000, compared with \$4,588,000 in 1939. Canada's total output also rose, the figure being \$25,105,000, compared with the previous \$21,977,000.

Talks with Finance Minister Beley are still proceeding with regard to the application by the province for a bank charter. Ministers Beley, E. Law and E. C. Manning, later joined by Hon. Louis Marshall, were spokesman for the province.

For the first time in many months, value of construction in the province decreased during the January-February period. The decrease amounted to 4 per cent compared with the previous period in 1940. Total value however, is set at \$2,060,300 by the department of Trade and Industry Statistics department. It is noticeable that building permits in the three major cities have increased 20 per cent in the period under review. Total value is \$20,138.

Alberta's best paying business, compared with the first two months of 1940, was fur production. Better prices and greater mark-ups jumped the total value 80 per cent, to \$1,171,171. This led off other commercial and industrial gains in Alberta. Wheat and cattle gains continue to show decrease, but better sheep, cattle, hogs, sheep and lambs, their killing, and miscellaneous milk all show gains. Horse sales were down 41 per cent, with \$20,540 realized on 1,110 head. This was 770 fewer head sold than in the 1940 period.

In other commercial and industrial fields, gains were recorded including packing plant sales, petroleum, and dairy products, wholesale trade, machine sales, motor vehicle sales. A decrease of 17,079 in the number of persons receiving unemployment relief gave 13,800 present recipients, a drop of 63 per cent.

The forthcoming Victory Loan to which subscriptions open on June 5, will be for \$200,000,000. This is the third and largest loan since the war broke out.

Results of this loan will be available in sums of \$20, \$50, \$100 and \$500. There may be bought outright or on any basis of payment, extending over six months.

The report from Alberta is between 10 and 20 million dollars. This is about 5.75% of the Dominion total.

The profits province are not asked for a large proportion because of the low prices of farm products. The three provinces will be asked for 8.5% per cent of the federal total. This is just about half of the proportion for which they were asked in 1939.

Industrial eastern Canada has learned since the war has been in little of their reflected in the west.

Assessment of Social Credit

Longer officials Thursday that a candidate would enter the East Edmonton by-election brought three parties into the field. Liberal and "people's movement" candidates were already nominated. Polling will take place June 5. C.C.F. will not enter.

More per cent of Edmonton's average families are underemployed. This is the conclusion reached by Dr. George Hunter, University of Alberta life-chemistry professor, after an intensive survey of families within the \$500-\$1,500 income range. Vitamin deficiencies were found in mothers, and adolescents, especially adolescent B and C in children under 15. Co-operation of many city families was obtained for the purpose of the survey.

More than 1,000 persons chose Sunday last as calling day on one of Alberta's oldest residents. They were preceded earlier by several thousand who paid due homage to the venerable. The residents was a dancer, either whole or part, that is coming to view gradually under the influence of rain and snow in the dry weather.

Conditioned street use, and will bring Alberta road reports with supply, bringing leads to better position for work-and trips to visit. One takes and picks them up on later visit. The car will park on each line.

Circulating libraries are an old story, but Edmonton is shortly to have a circulating library that does just that. It will be opened in a C.B.C. news broadcast from Winnipeg, Saturday morning is now carrying reports possible.

House and night-time handiwork of the British Navy to "King George V". Much of her armament is still saved, but it is known to include gun-towers more powerful than any ever carried before. This picture shows "look out" during a call to "action station".

World of Wheat

By
R. G. L. Rogers

For good the trade estimated daily by human beings must contain a minimum amount of a protein element, vitamin B-1.

Certain animal products, such as liver, heart, kidney, and particularly egg, are rich in this vitamin. It is found in the nucleus of some foods that people normally obtain this vitamin which their health requires.

The war, however, has greatly reduced the quantity of these most products available in European people, but it has been found that vitamin B-1 can be added artificially to flour and bread. This new by law must be done with all flour and bread consumed in greater quantities.

around at Great Britain.

A Canadian Vancouver newspaper under the supervision of Dr. L. B. Newton, Vancouver, Canada, has found a method of making a palatable white loaf, that contains quite a large amount of vitamin B-1, out of the new re-constituted wheat varieties, which apparently have a higher content of vitamin B-1 than ordinary wheats. Another method proposed is to use the whole wheat kernel after having removed nearly the outer skin or outer skin. It is claimed that this whole kernel makes a palatable loaf high in vitamin B-1.

One of these different methods and experiments it is hoped that time will soon become more nutritious and it is further hoped, will be consumed in greater quantities.

One of these different methods and experiments it is hoped that time will soon become more nutritious and it is further hoped, will be consumed in greater quantities.

"Before I'm Eighty"

By John Gallinger

I want to see the ever-increasing wisdom and good will among my kindred and grandchildren, and among the millions of my Canadian and American friends, of many races, national and tribal origin, right across the Gulf of Mexico to the Atlantic, and from the Atlantic to the Pacific.

I want to send the fruit-blessings of the tree, the shrub, the bush, and the vine, also of the clover, and the evidence of bounteous Nature, and of Nature's bounteous food.

I want to know that the world is growing better, on this day of growing better, that people are more amiable of others, especially of women and children; and to be

assured that I have done a fair share of promoting the happiness and welfare of others, and towards having the world better than I found it.

I want to hear the gospel, and the sacred songs, which are in a class by themselves. I want to hear of the advancement of the many tribes, and nations of the world, and colored people, along the lines of education, civilization, morality, and industry. I want to hear some more of the values of Christ say peace. But I know that it will take a long, hard fight to restore peace, and security.

This was written in response to a suggestion by the "Reader's Digest", being evidence of bounteous Nature, and of Nature's bounteous food.

I want to know that the world is growing better, on this day of growing better, that people are more amiable of others, especially of women and children; and to be

"The FIRESIDE PHILOSOPHER" BY ALFRED JONES

Would you have a friend? Be one. Be one of those who most produce.

He satisfaction the thing of work will mean.

Better to read nothing than to read much.

Don't speak well of others only to be well spoken of.

Life's greatest possession cannot be consumed to waste.

It is easier to forgive those who have gone than those whom we have.

"BLOOD...TOIL... TEARS and SWEAT"

This is a war for existence. It is war to the death. It is a way to win or to lose.

There can be no half-way—no compromise. It is a war to WIN.

Money is the fourth arm of the service.

Whatever you are called on to pay for or to lend, it is little compared to the lives that our sons offer.

There have been many and heavy calls upon Canada already.

There will be more.

Let us face the truth and the truth will make us free.

It is freedom we are fighting for, British freedom, the freedom of body and spirit that makes life worth living.

If we fail, we fall.

Be prepared for sacrifice.

Great Britain has set us an example on a scale of heroic magnificence history doesn't record.

Let us FIGHT!

Canada has the resources. Let us spare nothing. When our soldiers offer their lives, let us be willing to share our livelihood.

Frequently the Government of Canada will call for money.

The money is here.

We are spending billions. We are already heavily taxed. But most of those billions and those taxes are being spent in Canada. That money comes back to you. Keep it rolling. Keep putting it back into the war effort, so that it may be spent again and again and again until Right prevails and the world is free.

FIGHT...WORK...PAY

Canada must be Free

DEPARTMENT OF FINANCE, CANADA

DEPARTMENT OF NATIONAL DEFENCE
CANADA

This is Canada's call to YOU! Men are wanted to man the guns, tanks, armoured cars, trucks, industry, transport and supply, medical, ordnance and other branches of the service. The Army is prepared to teach many trades, and to train you to efficiently handle Canada's resources of men.

Go to your nearest District Recruiting Office. Find out about these units; how they work, what they do. See just where you'll fit in. See where your particular skill you possess can best be utilized. Then join up for ACTIVE SERVICE.

For the first time in many months, value of construction in the province decreased during the January-February period. The decrease amounted to 4 per cent compared with the previous period in 1940. Total value however, is set at \$2,060,300 by the department of Trade and Industry Statistics department. It is noticeable that building permits in the three major cities have increased 20 per cent in the period under review. Total value is \$20,138.

Alberta's best paying business, compared with the first two months of 1940, was fur production. Better prices and greater mark-ups jumped the total value 80 per cent, to \$1,171,171. This led off other commercial and industrial gains in Alberta. Wheat and cattle gains continue to show decrease, but better sheep, cattle, hogs, sheep and lambs, their killing, and miscellaneous milk all show gains. Horse sales were down 41 per cent, with \$20,540 realized on 1,110 head. This was 770 fewer head sold than in the 1940 period.

In other commercial and industrial fields, gains were recorded including packing plant sales, petroleum, and dairy products, wholesale trade, machine sales, motor vehicle sales. A decrease of 17,079 in the number of persons receiving unemployment relief gave 13,800 present recipients, a drop of 63 per cent.

The forthcoming Victory Loan to which subscriptions open on June 5, will be for \$200,000,000. This is the third and largest loan since the war broke out.

Results of this loan will be available in sums of \$20, \$50, \$100 and \$500. There may be bought outright or on any basis of payment, extending over six months.

The report from Alberta is between 10 and 20 million dollars. This is about 5.75% of the Dominion total.

The profits province are not asked for a large proportion because of the low prices of farm products. The three provinces will be asked for 8.5% per cent of the federal total. This is just about half of the proportion for which they were asked in 1939.

Industrial eastern Canada has learned since the war has been in little of their reflected in the west.

Assessment of Social Credit

The Canadian Active Army requires men for Infantry, Engineers, Signals, Armoured Cars, Trucks, Industry, Transport and Supply, Medical, Ordnance and other branches of the service. The Army is prepared to teach many trades, and to train you to efficiently handle Canada's resources of men.

Go to your nearest District Recruiting Office. Find out about these units; how they work, what they do. See just where you'll fit in. See where your particular skill you possess can best be utilized. Then join up for ACTIVE SERVICE.

World's Week

By Harold L. Wade
Associate Editor of The Edmonton Bulletin and author of the daily column "From the News"

The emotional scene of the past six days, of course, was the spectacular discovery of the H-bomb, that symbol of the H-bomb, slung to the ruins of a defunct civilization on a British moon.

The press of the world reported this miraculous appearance as a phenomenon not yet known to man, but that it would be the beginning of a new era of civilization on a new moon.

At first the situation was to kill the advent of the H-bomb.

But the advent of the H-bomb was to a great triumph for Britain, Madison, on the moon.

It is thought he would present some such a way, he thought, and that of the H-bomb, must be accordingly revised.

THE EIGHTH DECIMIAL

Census of Canada

June 2, 1941

THE Census is the stock-taking of the nation — of its men, women, and children; its agriculture, trade, and industry; its housing and general social condition. By it, all Governments, — Dominion, Provincial and Municipal — are enabled to work more effectively and economically by the instant of every resident of the Dominion.

NOTICE

DON'T FAIL TO READ THIS

Due to recent changes in the Regulations re Wheat Acreage Reduction Plan, many farmers who were not eligible under the old regulations to make applications for bonus may now be able to benefit under the new regulations. The changes very recently made provide that the wheat acreage of either the years 1939 or 1940, which ever is the greater, will with certain restrictions be accepted as the basis of wheat acreage reduction. Check your wheat acreage for these two years and if you find you have more wheat in 1941 than in any one of the two years mentioned you can and should make application.

Applications must be filed not later than the 31st May.

About Ourselves

By F.S.A.C.

The following editorial from "Christianity and Crisis", New York, is worth reading both for its own sake and for its indication of American opinion.

WHAT IS AT STAKE?

When the stakes are made that this is a war to preserve democracy it is always possible to find plausible arguments which most doubt upon the stake. President Roosevelt of Chicago, thinks that he has scored a victory when he shows how undemocratic America is and when he quotes Anthony Eden to the effect that England is not a democracy and never will be a democracy. We suggest that one way of expressing what is at stake in this war is to say that upon the outcome depends the existence of an "open society," as Mr. Burgess's phrase. This way of setting the matter underscores the verbal arguments about democracy. An open society is a society which permits and even encourages criticism of itself in the light of universal standards. Such a society has at hand the means of peaceful self-correction. Such a society keeps alive the concern for objective truth and does not merely devote itself to substituting the fiat of the state for objective truth. Such a society enables itself to keep their integrity as persons without concern for the state. Such a society permits criticism to originate for the purpose of improving the state and even its structure. Such a society encourages its citizens to be loyal to the state, but not to the state as it is, but to the state as it should be. Such a society provides a framework in which the state can be improved. Such a society provides a framework in which the state can be improved. Such a society provides a framework in which the state can be improved.

Rectal and Tea

Enjoyed at Adrossan Heads Recruiting Party To This District

A very successful tea and rectal was held on Saturday, May 11th, at Adrossan Head, under the auspices of the Red Cross Society and Mrs. Doreen. Those taking part in the program were: Marion Alexander, Margaret Bernfield, Ellen Jackson, Phyllis Dowling, Audrey Fleming, Lela Macintosh, Ruth Egan, Helen Macintosh, Betty Cherry, M. Cooper, Elaine Nelson and Gilbert Snyder.

The Red Cross quilt donated by Mrs. Stewart of Doreen was drawn. Lucky ticket holder was Mrs. Mary Macintosh. Second draw of a bed doll was won by Mrs. M. McLean of Edson. Proceeds from the quilt and bed doll amounted to \$42.00.

The regular meeting of the Red Cross Society was held at the home of Mrs. Fred Reynolds on Monday, May 12th, at 8 p.m. The business consisted of making arrangements for the picnic to be held on July 1st. At the close of the meeting the hostesses served a lovely lunch.

The next meeting will be held on June 18th, at Mrs. A. E. Williams.

C.G.I. girls and boys club spent last Saturday in Edmonton. About 45 children went swimming at the South Edmonton Pool, attended the circus at the Capital and visited the Airport during the day. Super trip and a very enjoyable time.

Every purchase of a Victory bond is a strong blow to Britain's side in the fight against Nazism.

Loan Support Asked by Government

Support of Alberta taxpayers is requested in a communication which has been forwarded to the first citizens of all Alberta towns as part of the Victory Loan drive. "We are approaching the drive for the Victory Loan in order that Canada may give an all-out support to the Empire in this gigantic struggle for democratic freedom," the Premier writes. "And for the defense of Canadian civilization against the pagan barbarism of the Axis powers."

"I have been asked by the chairman of the committee in charge to invite your solicitude officially by your encouragement and direction of the decoration of the homes, business places, and public buildings in your district with flags and bunting during the time of the drive, June 3 to June 10."

"We will give everyone a chance to share in the drive in a community way as well as to recognize the importance of buying Victory Loan Bonds."

"I need hardly urge you to lend support in any other way than by purchasing Victory Loan Bonds. I most heartily commend this request to your attention."

Buy Victory Bonds.

TOWN OF FORT SASKATCHEWAN Proclamation

Whereas the Minister of Finance of the Dominion of Canada has proclaimed that a "Victory Loan" of \$600,000,000 is needed to carry on Canada's War effort and that the co-operation of every citizen in this Dominion is needed;

May we suggest that all our citizens decorate their places of business and residences and that such decorations remain displayed until the successful conclusion of Canada's Victory Loan Drive.

Fort Saskatchewan Town Council.

Every Dollar Will Count — Buy Victory Bonds to Beat Hitler

The Week in Edmonton

No Livestock Exhibitions
There will be no livestock exhibition at the 1941 Edmonton Exhibition. This is because the Dominion has taken over the grounds for the use in the Empire Air Training Plan. The event will be held in the city and certain other exhibits will be carried on, however. It is expected that the grounds will be used as a training park.

Victory Trade Parade
Canada's Victory Trade show 1,500 persons from the city and surrounding areas to the Edmonton arena. The parade was held on the grounds of the arena and the parade was held on the grounds of the arena. The parade was held on the grounds of the arena.

Traveling Club Starts Year
Alberta's unique traveling club has started on its 1941 tour, and will visit a large number of rural points to administer medical aid to children. This club is now in the 17th year of existence. Headed by the committee of Dr. G. E. Martin, he is assisted by doctors, dentists, nurses and travel drivers. The club is now in the 17th year of existence.

Robert's Debt Adjustment Act
Alberta's Debt Adjustment Act will be the subject of argument in the Supreme Court of Canada June 24 and thereafter, when argument of the federal government is heard. The federal government's department reported, in the interests of speed, that hearing is made the federal court. The department of justice agreed. It has been announced that the province will take the case to the Privy Council if considered necessary.

"Smoke Ring" Case
After many months of legal maneuvering, arguments and related the Alberta "smoke ring" case is now proceeding through the sixth week of hearing in Edmonton. Thirty-five tobacco manufacturers, wholesalers and jobbers are charged with "smoke ring" practices. They contend, through James Forsyth, K.C., chief

defense counsel, that any action to end "smoking competition" is the province's duty for the purpose of eliminating "smoke ring" and "smoke ring" practices. J. C. McEwen, K.C., chief Crown counsel, has for two weeks examined R. J. Beveridge, Saskatchewan, secretary of the Western Canada Jobbers' Association. He started on the examination with documents marked as exhibits.

Travel Show
First of its kind in the history of the western industry here, a five-day tour of Alberta mountains and other resorts was carried out last week. Representatives of newspapers, travel bureaus, hotel men, chambers of commerce and others travelled by bus over the Jasper-Banff highway. It was the first of its kind in the history of the western industry here.

Small Investors Urged To Assist in Campaign

"An appeal particularly addressed to small investors!"
"It is the byzantine of the Victory loan drive beginning Monday."
Alberta's objective in the drive is \$12,500,000—\$75 per cent of the federal objective, \$16,666,666.
The share Alberta and her fellow provinces are being called upon to raise has been halved since 1932, when Canada lost raised \$600,000 in a Victory loan. Depressed home prices are responsible for the cut.
In 1912 Alberta's quota was 2.5 per cent of the federal objective. But then the price of wheat was approximately \$2 per bushel.
The province's present quota is being called to raise \$75 per cent of the federal quota, although at the present time of Canada's \$12,500,000 mark, Alberta is in Saskatchewan, Alberta and Manitoba.
If more than \$600,000,000 is pledged, the government will accept a loan. There is no limit on the loan.

World's Week

By Harold L. Weir
Associate editor of The Edmonton Bulletin and author of the daily column "From the News"

President Roosevelt's proclamation of an unlimited state of national emergency in the United States is still, of course, the big and important news.
It will continue to be important news until every detail of his plan unfolds.
So far, he has laid down a plan for the United States to be a part of the British Empire for the protection of British shipping on the seas. He has spoken, even with some bitterness, of the subversive elements in industry and on the public platform that are interfering with the American program of national security.
He has defined the possible completion of Hitler and other points by the Axis as a battle against the United States.
Above all, he has announced a policy which will permit him to sue.

Harold L. Weir
Associate editor of The Edmonton Bulletin and author of the daily column "From the News"

It is a splendid thing to know that the United States has virtually defined her position as a state of war. It will be a splendid thing when the United States definitely directs that war effort against the common foe.
Mr. Roosevelt's proclamation is vital not so much for what it does as for the magnificent things it will mean.

It is interesting to see the reaction of some of the nations to this announcement.
Germany was thoroughly angry but sought desperately to conceal its feelings. It promptly announced that it would not be a part of the French ship lying in harbor.
A French tanker caught traveling in the Atlantic was sunk by a British submarine.

It is interesting to see the reaction of some of the nations to this announcement.

World of Wheat

By
E. G. L. Simpson

With all the extra uncertainties being done this year farmers have a golden opportunity of killing great quantities of weeds.

Wild oats are one of the worst robbers of the farmer's grain. The roots of the wild oat plant in average soil easily go as much as the wheat roots, and a wild oat plant uses as much previous moisture as does a wheat plant. These weeds rob the soil of previous moisture and the soil is then less fertile.

Increased need to better supplies and request of employers for higher wages are given as the reason why farmers have decided to do more with more and produce more wheat from the same land.

In most cases should not be ploughed during the summer-fall, but only surface cultivated, and only to a depth of three inches for the ploughing and then to the three or four inch stage; they are now then at their weakest. When cut at this stage with a disc or a subsoiler the plant will die. If it is smaller and the plant will often grow from the same root. The main idea is to reduce the weeds to the minimum.

Increased need to better supplies and request of employers for higher wages are given as the reason why farmers have decided to do more with more and produce more wheat from the same land.

University of Alberta
Foster's Day

The Department of Animal Husbandry, University of Alberta, is completing arrangements for the twelfth annual Foster's Day to be held this year on Saturday, June 10th. The program will start at 10 o'clock in the morning at the University Farm.

There is the story about two patients in a well-known institution for mental aberrations. One of them was hard at work on a step-ladder whitewashing the walls. The reporter and discussion on these different studies will provide an interesting program that should have a direct appeal to all those interested in the production of livestock under Alberta conditions.

Foster's Day has become a well established and popular event at the University of Alberta.

University of Alberta and is attended by hundreds of farmers and livestock breeders each year. All those who may be interested may be sure of a cordial welcome at the University on Saturday, June 10th.

The program will start at 10 o'clock in the morning at the University Farm.

FAIR WARNING

There is the story about two patients in a well-known institution for mental aberrations. One of them was hard at work on a step-ladder whitewashing the walls. The reporter and discussion on these different studies will provide an interesting program that should have a direct appeal to all those interested in the production of livestock under Alberta conditions.

Foster's Day has become a well established and popular event at the University of Alberta.

PUT TO WORK!

It is said that people who cannot often stay well. A father who suffered from an impairment in his speech ran to the hospital and studied "Foster's Day".

"For goodness sake, hurry up," said the hospital staff. "If you can't stay well, stay it."

The father had a very long speech and said: "I should go to the hospital and study 'Foster's Day'." His manager approached him and whispered in his ear: "Yes, yes, I got a good idea! Don't tell me this, tell him both."

At the end of the fifth round the heavyweight staggered in his corner in a dazed and listless condition. His manager approached him and whispered in his ear: "Yes, yes, I got a good idea! Don't tell me this, tell him both."

VICTORY BONDS—A GOOD INVESTMENT

By Floyd S. Chalmers,
Editor, The Financial Post

To the average Canadian the Victory Loan campaign has something of the appeal of a crusade. It is an opportunity for the ordinary man or woman, who can not offer his services in the fighting front, to forge a weapon to be used against Nazism. To the investing public the Victory Loan is much an individual or company can or should invest in these Dominion government securities in a decision that will be weighed and must be weighed on the scales both of emotion and of hard business facts.

Measured by all the tests of sound finance, Victory Loan bonds provide an investment of very great attraction. The security is that of a country whose present wealth is small compared to the resources it will develop as the years pass. The interest yield is reasonably fixed in relation to similar securities of other democratic countries. Where marketability must be a consideration, there need be no hesitation, since Dominion Government bonds can be turned into cash on a moment's notice.

Purchase of Victory Loan bonds is an expression of approval, not only of the aims and purposes of those who are directing this way of freedom, but of the non-inflationary war finance policy to which Canada is committed. In undertaking to raise between 75 and 80 cents out of every dollar of our national budget by taxation this year, we are doing something no great nation has ever previously attempted in the history of war finance. It is a prodigious feat of leading the burden on "posterity" (which always turns out to be an unhappy way of loading a double burden upon ourselves). But taxation on this scale strengthens rather than weakens the nation, because it builds up a higher barrier against the grave peril of inflation.

A successful Victory Loan campaign—successful because people have bought the loans out of their past or current savings—will place another layer of stones in the way of that barrier against inflation. When people save to buy bonds, when they deny themselves the privilege of free and easy spending in order that they may put aside some of their income for future days, they are contributing as effectively to the national policy of non-inflationary war finance as they are in their taxation.

That Canada's war effort has got on without this loan is said or not beyond dispute. But the success of the loan means a great deal in two ways. It has, obviously, a direct bearing upon our ability to put forth the fullest effort of which the country is capable. And it has an even more important bearing upon what the war is going to do to the accumulated wealth of the people of Canada. The alternative to a successful carrying out of present taxation and borrowing policies must be some form of inflationary finance, and this would do grave damage to the value of insurance policies, bank accounts, and every other kind of investment.

The loan is not at all beyond the capacity of Canadian people to put over with unflinching success. The national income of Canada—the current income that is available to spend or save—has increased by \$1,700,000,000 since before the war started. This new production, this new wealth, has given us the resources to pay the major share of our war cost, including the magnificent financial aid we are giving to Great Britain.

There is another point that is worthy of the attention of the man who is inclined to look over at Victory Loan bonds with realism and hard-headedness. It is that in our policy of war finance we are actually reducing our debt abroad. We are repatriating some of our own securities held in Britain; we have not yet borrowed a cent in the United States or any other outside country.

It is our own war effort that we are supporting and advancing in this loan, and it is our own financial resources that are going to make it a success.

Victory Loan bonds, measured by all sound investment tests, are worth buying to the limit of any investor's capacity.

It's Up To Us!

Invest
in
VICTORY LOAN
BONDS

"It is up to us to see that the wheels of our war industry are kept turning to maximum capacity, to accept the sacrifices and readjustments that are necessary to feed the war machine and to do so unflinchingly, to find the money to finance our effort and to give it with both hands, to stick our pretty differences and present a united home front to our enemies."—JAMES H. DUNCAN, President and General Manager.

Help Finish The Job

(MASSEY-HARRIS CO. LIMITED)

Out of the Past

From the Collector's Files
June 3rd, 1941

J. Kavan has the contract of the woodwork on the new Standard Bank building.

J. Haines, Sturgeonville arrived here on his return trip to his old home in England last Saturday.

Work is progressing on the new provincial jail building here. The iron-work arrived this morning.

The Standard Bank building is rapidly being built by Borden Bros., who expect to complete the building in a couple of months.

Refrigerating is completed in the new building. The farmers are now getting their harvesting machinery in readiness.

Messrs. P. Gordon, H. Atkinson, M. Simon and P. Wilson formed an association to launch for Friday's baseball game. Lambert vs. Vercelle.

The Contractor and those who have had to do with newspapers and magazines have issued a challenge to the hockey and baseball players to a game of baseball for tomorrow evening. Admission to grounds and grandstand free.

Mrs. John Paul was hostess of a birthday party last week for her little grandson, Johnny Warren, about a dozen little boys helped to celebrate the event.

Unemployment
Insurance

Unemployment Insurance becomes an activity in Canada from July first. For the Workers who are subject to periods of unemployment through no fault of their own it will mean the difference between being paid or not paid for the period of having provided for their own future through a plan of insurance savings.

The plan is one of co-operation between the employer, the employee, and the government. Each makes a contribution based on the weekly wages earned by the employee. To the amount contributed by the employer and the amount deducted from the employee's wages the government adds one-fifth of the total, and pays the cost of operation. These contributions are similar to insurance premiums, and accumulate against the day when the worker, either male or female, becomes unemployed. Then, in a very short time the worker begins to receive weekly cheques which will continue for a limited period of unemployment.

This, hereby, is the Unemployment Insurance Plan which becomes a law of Canada, just as it has been a law in Great Britain for more than thirty years. With the experience of the British Act and so the example of other countries to draw upon, the Unemployment Insurance Commission has created a plan which should operate with the least inconvenience to the employer and to the greatest possible benefit to the workers.

A simple and simple system of making contributions to the Fund through the Employer purchasing special stamps from the Post Office and affixing them each week to a

book designed for the purpose, is the record of each worker's contributions, as well as the employer's. In this way every worker can find out exactly at any time where he or she stands in respect to Unemployment Insurance.

There are some classes of workers who are eligible for Unemployment Insurance, and there are certain conditions which affect all workers. Both employers and employees should familiarize themselves with the laws of the state which will be made available to the workers in the form of a book.

A part of the plan is the issuing of Employment Offices throughout Canada where workers may seek jobs and employers can seek workers. These offices will be opened as rapidly as possible to facilitate the most effective utilization of Canada's labor force during the war and in preparation for the return of workers to peacetime employment after war work has ceased.

"Out-pa-one atom-atom!" bawled the drill sergeant to the awkward squad. "Out-pa-one, lift up your left leg and hold it straight in front of you!"

By mistake, one recruit held up his right leg, which brought it out side by side with his neighbor's left leg. "Aw right aw right, who's the wiser guy over there holding up both legs?" shouted the drill-sergeant, disgusted.

FOR EVERY CANADIAN who sells the sheep, for every soldier who flashes through the skies, and for every other man in the fighting forces, the prayers of the nation rise like a fountain, night and day.

In times of crisis our people stand steadfast. In daily devotions they renew the flame of faith and arm with unseen powers their warriors in the field.

Often times they discern the Unseen Hand. Witness the miracle of Dunkirk. Witness, too, in

the darkest hours the emergence of great inspiring figures to steady the ranks of Democracy and fire its courage and confidence.

Church bells are ringing throughout Canada calling men and women to worship and sacrifice in defence of our freedom, the sanctity of our homes and the future of our children.

Translate your faith into works by buying Victory Bonds.

Local News

In loving memory of our dear
Father, Mr. Louis Kohn, who passed
away, August 10th, 1941.
A year has passed since that sad
day.
The one we loved was called away
God, took him home.
It was his will
But in our hearts we turn him still.
—Ever remembered by all his
children.

Mr. Tom Haddell, R.A. of Hume,
was engaged as high school teacher
of a small school of the Hume
High School, Hume, B.C.,
last Wednesday evening. His
wife, Mrs. Haddell, was also
in the position last week, was able
to secure his release from the
Hume School Board.

At present the Port School staff is
complete and on the deadline for
teacher changes has passed, it is un-
likely that any further changes will
be necessary.

From the shops around town take a
hasty look from recent bill boards.

Mr. Marion Reed of Okotoks,
Alta., left for Hume, B.C.,
after visiting with Miss Josephine
Kohn.

Mr. Allen Larson, R.C.A.P., of
Dundas, Saskatchewan is home on
vacation.

Mr. J. W. Wilson, R.C.A.P., left
today (Wednesday) for Hume,
B.C., after spending two weeks
in the Hume area.

Mr. Brad Smith, Hume, B.C.,
on account of the R.C.A.P. and
will start instruction at Hume, B.C.

Miss Marion and Miss Taylor of
Hume, B.C., will leave for
home today (Wednesday) after spend-
ing a short holiday with Miss Taylor.

Mr. E. M. Bacon, Hume, B.C.,
entertained twenty-five guests at a
dinner in honor of his daughter Mrs. E.
Bacon, of Hume, B.C., on
Wednesday. The bride wore her

THE POST RECORD
Local News
 In memory of my husband Charles Hume Philpot, who died August 19th, 1940.
 The ever passing moments quickly fly as tho' they meant not the trifled cry.
 Or those who leave the distant love they leave home.
 And soon to bid the path of life alone.
 But this morning you are gone as tho' you were never here.
 And I am left to face the world as greater victor than I.
 It brings to suddenness release and cheer.
 For life refashioning stream flows on ahead.
 Just as I did our days of yesterday.
 And with the passing comes the dawn of hope.
 New life. New hope. New love. New love to know.
 Along the path where many feet will tread.
 For life refashioning stream flows on ahead.
 Then, something deep, while the human breast
 Awakes to find the Master's loving hand.
 For time is measured by God's mighty hand.
 And time is the great purpose that has planned.
 It is to meet remembrance by his will.
 The many friends of Mrs. C. H. Grant who is seriously ill, wish her a speedy recovery.
 Mr. and Mrs. Ed Thies and family returned home Monday after a family parents Mr. and Mrs. C. D. Jones, trip over the Jasper-Sault highway.

 J. E. SWENNEY, Deputy Minister and Superintendent School of Agriculture.

STRAIT IS THE GATE
 Rev. E. E. Boddie, M.A., B.D.
 A man may run away from the consequences of his deeds, away from his responsibilities, away from his conscience, away from his God, but he cannot escape his God. And when he turns to face himself and his God he will find that he must answer for past conduct.
 Jacob discovered that. Along with his mother he perpetrated a cunning plan to convert his step father and to undermine the position of his brother. This is a cowardly fashion (cowardly and craftiness often go together) he ran away to avoid just punishment at the hand of his brother. Then for fourteen years he labored in a battle of will with his step father and his brother. Finally, as Laban aged, Jacob gained the upper hand, and seems to have given the old man of most of the herds and flocks which were to have given him food, clothing and shelter in his declining years.
 In fleeing from Laban, Jacob found himself in a very difficult position. He was a fugitive, a man without a home, a man without a family, a man without a future. He was a man who had run away from his responsibilities, a man who had run away from his God, a man who had run away from his conscience. He was a man who had run away from his God, a man who had run away from his conscience, a man who had run away from his God, a man who had run away from his conscience.

Local News
 The house of Mr. and Mrs. Wesley Atwell was the scene of a happy event last Saturday afternoon, when their son, Harry Atwell, was married to Miss T. H. Atwell, daughter of Mr. and Mrs. T. H. Atwell, of the City of Regina, Saskatchewan. The ceremony was performed by Rev. E. E. Boddie, M.A., B.D., at the home of the bride. The wedding party consisted of the bride, the groom, the bridesmaids, the flower girls, the ring bearer, the best man, and the officiant. The reception was held at the home of the bride, where a large number of guests were present. The wedding was a most successful one, and all enjoyed it very much.

Mr. and Mrs. S. Hamby Duck Season Opens
 Feted by Congregation Monday, Sept. 15
 At First United Church on Monday evening the Congregation met to bid farewell to Mr. and Mrs. S. Hamby Duck, who are leaving for the Yukon. The ceremony was performed by Rev. E. E. Boddie, M.A., B.D., at the home of the bride. The wedding party consisted of the bride, the groom, the bridesmaids, the flower girls, the ring bearer, the best man, and the officiant. The wedding was a most successful one, and all enjoyed it very much.

Poliomyelitis Ban Continues
 Until September 15th.

Thousands 9 Out. Per Acre
Off Mailed-Out Field
 Increase in the number of Poliomyelitis (infantile paralysis) cases in the Province has extended the ban on public assembly of children 17 years and under, until Sept. 15th. Dr. H. E. Brown, chairman of the Provincial Board of Health, said that the ban was necessary to prevent the spread of the disease. The ban applies to all public assemblies of children 17 years and under, except for religious, educational, or medical purposes. The ban is in effect until September 15th.

The Week in Edmonton

Pale Case
Although the number of new pale cases is decreasing, provincial health authorities are strongly warning parents against permitting children to congregate in groups. "Keep them in their own backyards" is the advice offered, together with the suggestion to prevent over-crowding through intensive activities. With the troubling cases now materially decreasing, health officials are working on a stepped-up schedule of teaching in the hope of making a lot less between autumn and Christmas.

Women Abuse Alcohol
Two cases of 30 women students

will be open for registration within a few days at the "Voluntary School Education" for the purpose of training girls for special district work. The course will last ten weeks. At the district repair shops in Edmonton, there are about 150 women doing repair work on cars and trucks. It is reported to grow as activities increase. The course offered is designed to fill these demands.

Canoe Club
When this province is able to supply canoe services with free transportation and carry in addition to the existing club service, "Alberta will become one of the leading canoeing centres for the treatment of cancer." This was told to doctors in

Herald Schools Open

Alberta's Herald Schools opened Sept. 14th, for students 15 years old and over. Younger students have been asked to report September 22. Division to open the schools was made after the provincial board of health had set in the policy of the situation. It is expected that students registered in Edmonton will number 210 and in Calgary, 231, a total of 441 for the province. Because of military needs, the schools present will not be utilized and classes will be held in other buildings.

Shipping Statistics Information

For the information of the public, the Alberta Department of Health has issued a statement on shipping sickness, or mononucleosis, in terms and figures. A summary follows: There are two types, Eastern and Western. The Eastern type is caused by distinctly different virus than the Western. Clinically, the Eastern is much more severe. A wide range of ailments, including fevers, may result. Man can contract the disease from animals. Shipping history was transmitted it, as may have been contact.

Shipping sickness takes about two weeks to materialize after exposure. It appears sporadic, usually with fever of 100-104 F and severe headache, or generalized rash and pain, sometimes, sometimes with or without swollen lymphatic glands. Shipments seem to show three or four days. It is produced usually by the contact stage—irritation, sometimes, transverse, usually twinning, sometimes infection and correlation. Light berths the patient's cure. With the Western type, about 10 per cent. will recover after the acute stage; 30 per cent. will make full recovery over several years. Two to 15 per cent. of cases will prove fatal.

Alaska Highway
Belief that an Alaska highway running through Edmonton would connect more economically with vital U.S. markets, industrial points was expressed here during the week by Senator J. D. McLeod of Yukon. He said that the U.S. Congress, Alaska residents, however, reported to the U.S. route better. "Some connecting road is urgently required," he

added. He cited construction of the road and of new defense bases as the two most vital problems facing American authorities in the northern states.

L.O.P.F. Elects Officers

District Deputy Grand Master, Wm. Dawson and staff of Edmonton L.O.P.F. Lodge No. 25, officiated at the installation of officers of Port L.O.P.F. Lodge here Monday evening.

Ship Sinks on Coast, Thousands

A short open season on each ship-sinking pleasure has been announced by the Game Branch, Department of Lands and Mines. These planned kills are thriving well in certain sections of the province, and the season will be open on coasts in two sections—the deep south and in areas covered by Edmonton. Sportsmen are asked to co-operate with the branch and with the Alberta Fish and Game Association by conforming strictly to season and bag rules for these and other game birds, regulations which are obtainable from Game wardens and game guards.

Truck Drivers' Wages

Wages of truck drivers will be the subject of discussion to be held by inspectors and the Industrial Relations Board of the province in Calgary, Lethbridge, Medicine Hat and Edmonton this month. Under the chairmanship of Clayton Adams, the board has set pay scales of \$18,000 a year and last year's minimum \$10,000 a year. Back wages for workers. More than 7,000 investigations were carried out in the same period.

Canada at War

(This is the first of a series of five articles written by Bruce M. Paine, editor of The Evening Post, for member papers of the Canadian Newspaper Association, in connection with the front line of Canadian Canada military camps, including photos, R.C.A.F. schools and naval vessels, made by a group of prominent writers, fully and trade newspaper editors and publishers. The first article is general in nature, summarizing impressions of the trip and outlining the various highlights encountered on route. Subsequent articles will deal with the Army, the War Industries, the R.C.A.F. and the Navy.)

By R.M.P.

On the morning of August 28th a group of twenty fifty-five Canadian newspapermen assembled in Hamilton to commence a journey that is probably without precedent in Canadian journalism. On the night of August 28th, after a long day's travel, they arrived in Montreal to complete the last leg of a trip which had taken them to the Atlantic coast and given them a complete panorama of the great war effort which is rapidly taking form in Canada.

Sponsored by the Department of National Defence, the tour was initiated primarily to give the editors an insight into Canada's military and industrial activity and to provide them with an enlightening picture of what is actually taking place in the country, with the thought that they would then be able to discuss more intelligently in their columns the various phases of Canadian war enterprises.

That the editors gladly embraced this unique opportunity was evident from the first. They were granted, wherever they went, all the facilities and information which they needed. Mr. B. E. Baldwin declared that one chief mistake was in having filled the tour with letting the light flood into editorial minds that their readers, the Canadian public might know the true state of this country's war achievement.

fall of France in June, 1940, it is probably true that Canada had done all too little. That is no longer true today. The truth is that Canada is rapidly shaping a formidable war machine that will have a notable part in taking Hitler. In the short space of eight days, the Canadian editors were treated to a spectacle that not only literally opened their eyes but inspired pride and strengthened faith in the part that Canada is playing and will play as an ever-growing male in adding the Western Country.

Everything was thrown wide open to the visiting group of journalists and editors. Nothing was held back. We had with us Brigadier Kenneth Stuart, D. S. G., M.C., Vice-Chief of the General Staff, together with distinguished representatives of every branch of the service, including the Department of Munitions and Supply, as well as G. Herbert Lash, Director of Public Information and J. W. G. Clark, Director of Public Relations for Army and R.C.A.F. and members of their staffs. Their policy was that every bit of available information should be forthcoming. And it was. How did they place any restriction on the content of our articles aside from the well-known rules of censorship?

Not only did these men utilize every waking moment to answer the million questions levelled at them by their guests, but they made sure that every Camp Commandant, every factory head, every office revealed the whole story and held nothing back. At Ottawa the editors were entertained at a dinner at which Sir J. I. Robson, Hon. C. D. Howe and Hon. C. G. Power were the principal speakers. The general impression was that these men were sincerely trying to do a job. They were frank in admitting their mistakes and Mr. B. E. Baldwin declared that one chief mistake was in having filled the tour with letting the light flood into editorial minds that their readers, the Canadian public might know the true state of this country's war achievement.

That the editors gladly embraced this unique opportunity was evident from the first. They were granted, wherever they went, all the facilities and information which they needed. Mr. B. E. Baldwin declared that one chief mistake was in having filled the tour with letting the light flood into editorial minds that their readers, the Canadian public might know the true state of this country's war achievement.

Highlights of the Tour
It is an achievement, too, as they just an outline of a few unforgettable highlights. There was the awe-inspiring demonstration of trained and armored fighting vehicles and wheeled passenger or load-carrying vehicles at the General Motors proving ground near Calmar, featuring movement over the roughest ground which put the machines to the most

most test and which proved convincingly that Canadian industrial genius is prepared to meet the challenge of mechanized warfare. There was the interesting visit to the Hamilton Steel Car plant at Hamilton where several thousand men are turning out similar and anti-aircraft and, with the largest output of any similar factory in the British Empire. There was a Sunday morning preview of (Continued on next page)

Meeting Urges Town Council
To Get More Information
On Gas and Waterworks

Town affairs in general were fully discussed at the well-attended public meeting last Friday night, in the Community Hall about 75 men, women and children were present.

Called by the Town Council for the purpose of bringing before the ratepayers, the problems we must face, in order to improve the town and prevent, if possible, it becoming just another "black" town.

Mayor P. A. Hest, presided, and opened the meeting by stating that the loss of buildings and businesses in town were causing the Council more concern, especially when it came to financing from a decreasing revenue. While at the same time, expenses were considerably increasing, notwithstanding the fact that Town administration costs and public works were seriously curtailed.

Mayor Hest pointed out that the Council felt that modern facilities such as waterworks and gas works would be a great help in bringing about a more modern town, and would bring about a more modern town, and would bring about a more modern town.

Churchill Inspects American Pilot Bombers
Planning for a moment to light the British Prime Minister, Mr. Winston Churchill, inspected British and some of the many American bombers which are being flown across the Atlantic to Britain in ever-increasing numbers. He was accompanied by the United States Ambassador at St. John, Mr. Harry Hopkins.

Town affairs in general were fully discussed at the well-attended public meeting last Friday night, in the Community Hall about 75 men, women and children were present.

Called by the Town Council for the purpose of bringing before the ratepayers, the problems we must face, in order to improve the town and prevent, if possible, it becoming just another "black" town.

Mayor P. A. Hest, presided, and opened the meeting by stating that the loss of buildings and businesses in town were causing the Council more concern, especially when it came to financing from a decreasing revenue. While at the same time, expenses were considerably increasing, notwithstanding the fact that Town administration costs and public works were seriously curtailed.

Mayor Hest pointed out that the Council felt that modern facilities such as waterworks and gas works would be a great help in bringing about a more modern town, and would bring about a more modern town, and would bring about a more modern town.

Churchill Inspects American Pilot Bombers
Planning for a moment to light the British Prime Minister, Mr. Winston Churchill, inspected British and some of the many American bombers which are being flown across the Atlantic to Britain in ever-increasing numbers. He was accompanied by the United States Ambassador at St. John, Mr. Harry Hopkins.

Canada at War

Article Number Two
"THE ARMY"
By R.M.P.

The first of Eastern Canada arranged by the Department of Militia at Deltona for Canadian officers, while covering every branch of Canada's war enterprise, concentrated especially on the Army.

We visited the Basic Training Centre at Brantford, the Army Training Centre at Hamilton, the County Militia proving ground for army recruits near Ottawa, the great military communications and advanced training Centre at Camp Borden, Peterborough, and Deltona, and the Officers' Training Centre at Brantford.

We saw the new recruits with only a few days' training in army life behind them and the young soldiers who had been taught the art of a soldier's trade. We were impressed with

the fact that the classroom plays fully as important a part in this war as does the drill-field and the rifle-range, while the great army of instructors are performing a service vital to that of officers on the battlefield. Later we came to the most advanced training engaged in rifle drill, machine-gun tactics, motorized demonstrations and manoeuvres, going through their paces with admirable precision. We were given every opportunity to talk with officers and men. Almost without exception we found them keenly interested in their work and eager to get on with the job of mastering the complicated arms and machines placed at their disposal.

The Armoured Corps
At Camp Borden we witnessed an actual demonstration of the armoured corps of Canada's army when we watched a whole company swing into action with its motorcycles, reconnaissance cars, universal carriers and utility trucks. Their skill in carrying a position and their support of the infantry was a revelation. At the same camp we viewed an impressive platoon attack on an "enemy" position, with machine guns and rifles covering the advance with a hail of metal and with smoke bombs providing a screen for the attack. At Borden is located the 1st Canadian (Armoured) Division under Major-General E. W. Hanson, D.S.O., who inaugurated us on our tour of the camp. For training purposes a number of old United States tanks had been obtained and these were greatly in evidence during the afternoon. They have proved most useful in training personnel in driving and maintenance. With Canada's newly-acquired tank factories speeding up production, it will not be long before Canadian-made modern tanks will be available for this Division.

Camp Peterborough
Camp Peterborough was famous for the fact that it was the first of the last artillerymen and engineers

found in any army. It is fitting that soldiers should apply to the tanks in these days of mechanized warfare, for training of Canada's artillery and engineering corps. The officers were trained in an outstanding display of gun drill by the young artillerymen, both on the 16-pounder, which is the standard equipment. A firing demonstration by two batteries of howitzers and 15-pounders out on the range, indicated that the Canadian gunners have lost none of the skill and accuracy passed on by their forebears. The engineers gave an effective show in demolishing trees and a crossroad with high explosives, while a body-train company-drove a machine

Camp Deltona
An entire article could be devoted to the other great military camp at Deltona in New Scotia. A year ago a wilderness, today a veritable city with 30 miles of roads, 450 permanent and 28 temporary buildings, plus fire stations, bath, telephone office and all the other requirements of a great army. It is recorded that authority was granted to construct Camp Deltona on August 7th, 1940. The first battalion arrived in the latter part of October and by Christmas there were 12,000 men housed in the camp. The forest had been cleared, roads built, water and power systems installed, and buildings erected, an achievement that constitutes a miracle of engineering and stands as a tribute to the enterprise and efficiency of the Engineers and the men of the Canadian Army. The officers' party was at Deltona for only two or three hours, but it is time were treated to several demonstrations. We watched with amazement as Universal carriers crushed through the sticky mud of New Scotia forests with the aid of caterpillars by troops in actual combat on a training island that it was impossible to detect men in the open only fifty yards distant. We also witnessed arm gun, tank, motor, and artillery firing that again testified to the fighting spirit of the new army in the making.

The Training Plan
Major-General Kenneth Stuart, D.S.O., Brigadier-General H. G. Stewart, D.S.O., who recently flew back to his staff, after several weeks in the theatre and study with British and

Canadian military men, told the officers that the Army Training Plan was derived to dovetail with British requirements. Moreover Canadian troops had been equipped and trained in a manner with British practice. Canadian officers were constantly being brought back from Britain for instructional purposes and to keep up new formations. He commended the general scheme of re-education training in Canada which the military establishment considered was the training centre would provide the necessary training for a machine of nearly 80,000 men at any one time. This is apart altogether from the "formation" of units in existence for overseas service. The system would shortly about 10,000 recruits per month, if some 4,000 would be volunteers for active service and the remaining 4,000 would be sent under the N.E.M.A. plan of compulsory service for home defence. From the last mentioned centre were prepared the reinforcements for overseas, while others would go in their own units for further training. Brigadier Stuart expressed himself as well satisfied with the type of recruits being secured under the system and likewise with the fact that a large percentage of young men brought into the basic training centre under the N.E.M.A. were volunteering for active service anywhere.

Basic Training Centre
Canadian officers had a chance to see the plan in operation during the visit to Brantford Basic Training Centre they saw recruits in the preliminary stages of their training. The last recruit came in two months and received instruction in first aid, first aid, and first aid. There are 28 such centres across Canada. The Brantford Centre has the most complete facilities for its particular arm of service, as infantry, artillery, engineers, armoured corps, etc., where they are training intensively for two months in the use of their arms and weapons to their service. In the case of infantry, for instance, they will be under the supervision of Mr. S. H. Gamble, Supervisor of Infantry, and will be sent to the 1st Canadian Infantry Division.

baronet and revolver, protection against gas, driving of wheeled and tracked vehicles as well as in tactical exercises. They are 25 of those advanced training centres across Canada. The officers were taken to Camp Borden, Peterborough and Valmorin.

Study the Machine
Such is the gigantic training scheme for Canada's army that it is in full operation across the entire Dominion. We have described only what we found in Eastern Canada. Its counterpart will be found in the West as well. There is no palming the fact that the machine of modern war requires close application and concentrated study. The old days of constant squad and rifle drill and route marches are gone. During our whole tour we saw only one band. There is little time for music in this war. It is steady, steady, steady, day and night. Canadian army is being whipped into shape by long, hard hours of grinding on the part of instructors and pupils. Naturally it tends to become monotonous and grueling to invariable, but in the course of many talks with both officers and men, we heard few serious complaints other than the expression of a general desire to be on the way overseas. Much effort is now being made to get men out to sea in the summer months, to let them get some rest and to let them get some rest. It is the machine of modern war that is being built up in this Dominion. As Canada's army training plan evolves into high gear, we are looking forward confidently to possessing a powerful machine that will gloriously uphold the traditions of 1914-15.

Barrel Mechanical Courses
Farm boys between the ages of 19 and 30 years will be given an opportunity to learn the mechanics of the Dominion-Provincial Youth Training Plan, Schedule "B", to obtain practical training and instruction in mechanical engineering through a system of Barrel Mechanical Courses, which are offered under the direction of the Department of Agriculture during the coming winter. The courses will be conducted at various points throughout the Province and will be under the supervision of Mr. S. H. Gamble, Supervisor of Infantry, and will be sent to the 1st Canadian Infantry Division.

Prospective students who wish to attend one of these courses should write immediately to Mr. G. W. Gamble, Supervisor, Schedule "B", Dominion-Provincial Youth Training Plan, Parliament Buildings, Edmonton, for application forms.

man force and that the Germans had lost 11,000 tanks, 12,000 guns and 2,000 aircraft.

No exact figures are available in London but it has been estimated that several estimates are available to believe that the Russians have probably lost between 1,000,000 and 2,000,000 men and that the Germans have probably lost something more than 2,000,000 casualties.

The Germans have employed something like 2,000,000 men in the present campaign and the Russian army numbers 2,000,000 or 2,500,000 men. As far as the German Luftwaffe is concerned, it is pointed out that its losses in aircraft are probably more than the disruption which the present campaign has caused in German local paper for results.

BRITISH FLYING BOAT THAT SIGHTED AND RESCUED GERMAN BATTLESHIP "BISMARCK"
The American-built R.A.F. Catalina flying boat that first sighted the "Bismarck", was the 25,000 ton pride of Germany's Navy, is seen as it takes off for another Atlantic patrol.

"Road to Zanzibar" Free Show Presentation

"Road to Zanzibar" the free show presentation to the children of the surrounding districts on October 25, is a family comedy with music featuring Bing Crosby, Bob Hope, Dorothy Lamour, Una Merkel, and an all-star cast that is hard to please. Send in your name to The Record. The story tells of two crooks, regularly.

Bing Crosby and Bob Hope teaming with a cinematic art in Africa, are framed by two girls, Dorothy Lamour and Una Merkel, who take them into jungle on a fake mission. They are so far from home they have the truth, but by that time love has smoothed everything out.

The Week in Edmonton

New Democracy Members

Following attendance at a meeting of government members of the Legislature and New Democracy members of Parliament in Edmonton, John H. Blackmore, N.E., leader of the federal group, left for Carleton Place to go to Ottawa. Mr. Blackmore is one of the N.E.P.'s who will fly to the Mother Country to witness at first hand British people at war. They will be guests of the English Parliamentary association and will probably travel by bus to across the Atlantic.

National Road Commission

A national road commission for Canada was urged by Hon. W. A. Foster, minister of public works, when he addressed an opening session of the Canadian Road Builders Association at Winnipeg last week. The minister said construction highways were more necessary than ever in this time of war, and added that a Commission ought to survey roads and make recommendations, which would be useful on return through the Dominion in the various provinces.

Fifty Men Hired

Fifty men were needed in Edmonton this week to assemble machinery in mechanical work for industrial plants, according to Dr. G. Fred McElroy, deputy minister of education for the province. Training is conducted through 64-hour weeks for about 600 hours without change to the trainees for lessons, tools or equipment. They are expected to provide their own food and room in the city. Graduates will find employment in aircraft or machine plant construction in Canada, added Dr. McElroy.

New Credit Union Formed

Formation of a new credit union of the community type at St. Albert was announced this week by the minister of trade and industry. Organization and election of officers will be completed shortly.

It will be completed shortly, it was noted. Increasing interest in the community type of union is evidenced in many parts of the province. Altogether 11 new groups are in process of formation. There are 48 in active operation. These have a total of 4,300 members, and since inception of the movement in 1938 have totalled \$435,000 have been made for provision or merchandising purposes to members.

Members Elect New Leadership

Thirty six government members of the Legislature met in session during the week to discuss problems relative to subsidizing and increasing farm income. The session was held on October 27 to 29 in Winnipeg.

William Lewis, Passes

The Alberta who probably has been in closer contact with farm financial problems than any other, died this week in William Lewis, chairman of the Alberta Farm Adjustment Board since its original establishment. For some time he has been on leave of absence due to illness, and the work has been carried on by staff members.

Province Bore Two-Hundred

The province was a heavy loser of two-hundred runs at Edmonton Stock Show, held this week. In all, 42 of the animals were purchased and will be distributed to sheep raisers taking advantage of the purchase and sale exchange policy. Officials of the department of agriculture said forty owners have been retained to date.

An Incident Was Tried

An incident was tried in which the door of his house without reason when a passing policeman asked if he could handle the key for him. "Here," the driver said, "I can hold the key. You hold the house."

Free Sockers

Bring the Family to this annual Free treat.

14 years and under.

Saturday, October 25th, is to be Children's Day in Fort Saskatchewan. On this day, due to the full co-operation of local merchants whose advertisements appear in this issue and Sharp's Shows, the third annual free show will be given to all children in the community. Free tickets can be obtained from any Fort merchant. If you are unable to pick-up your tickets before Saturday, October 25th, you can come in to town, get a ticket and go over to the show.

Adults may attend the show by paying the low price of 50 cents. All Children 14 years and under are admitted free. During the show, Dad and Mother are invited to look over the many new Fall and Winter articles, priced specially for Show Day.

Parents, we invite you to bring the children in to the show and for you to visit the stores while the show is on. You will not be under any obligation to buy, but we would remind you to read closely the special offers in this and next week's issue of The Record.

Let's all be Recorders! Let's identify ourselves with this piece of community spirit and goodwill. The more we are together, the merrier we'll be.

Don't forget! Saturday, October 25th, Country Children at 2 p.m. and Town Children at 4 p.m. Oh! By the way! There will be candy sockers, too!

An Invitation From the Mayor of Fort Saskatchewan

It is with the greatest of pleasure, that I take this opportunity to extend to the residents of the districts of Lamourux, Josephsburg, Good Hope, Partridge Hill, Yreka Valley, Agricola, Bremmer, Ardmore, Clover Bar and Yorkville, a most cordial invitation to visit Fort Saskatchewan on Saturday, October 25th. On this date the Fort Saskatchewan merchants will be the hosts to the children of the above districts at the annual Free Show.

This annual event tends to promote the spirit of goodwill, and friendship, that is so important to the welfare of the Town and district. It is through this medium that the Merchants wish to convey their thanks and appreciation for your patronage during the year.

While the children are enjoying the FREE SHOW, the parents are invited to visit the stores and see the many fall and winter bargains, specially featured for this occasion, by Fort Saskatchewan Merchants.

P. A. MORET,
Mayor.

"No, No, Nanette" At Sharp's Shows

Anna Nangle, Richard Carlson, Victor Mature, Roland Young, Helen Broderick, Ralph Pitt and a host of supporting stars give loud theatre goes the Musical-comedy picture "No, No, Nanette" at Sharp's Shows Thursday and Saturday of this week.

Anna Nangle lives with her maid and aunt, Roland Young and Helen Broderick. Helen is naturally because of the family's loss in the crash of '29, so when Tamara's maid goes to a dinner, Young, leaving that his friends, Victor Mature, is trying out a maid in Boston, figure Mature can help him. He invites him to a birthday party for Helen, but Mature brings Tamara with him. When Young begs down, Anna takes a hand and persuades him to give Tamara a special. Another girl wanting to be an artist becomes a threat to Young, so Anna persuades Richard Carlson, an illustrator, to become his protégé. Inspired by Anna, Carlson paints a picture of her, but she sells it when her uncle goes in further trouble. Still, she makes Carlson, but Mature conceives a clever trick to re-unite the couple.

Sounds interesting and you will be passing on a good picture if you miss this week's presentation at Sharp's Shows.

He: "If I run away with your wife you get revenge?"
Him: "If you run away with my wife I'd have revenge."

The Week in Edmonton

Growth of the credit union and co-operative movement in the province continues on a steady scale, according to the Annual report of the co-operative activities branch, Department of Trade and Industry. Since the beginning of 1940, new co-operative societies have been established, and are working actively. 15 are ready to commence activities, and 11 are organizing. The total now in operation is 176.

In the credit union field, 48 unions of people having a common bond of interest have accumulated \$115,819.24 in 24 months of operation. Of this sum, \$115,884 was sent to loan at the end of August, \$11,584 was on hand, and \$4,997 was invested, largely in our stock. Total membership is given as 4,358. Throughout the country 38 unions are in process of formation, and it is believed that with proper organization, the number can be increased materially.

Rejoicing the total is right in the province, two new health units have recently been established under the direction of the Department of Health. They are at Hinton, comprising the Hinton School Division, and at Oliver. Technical staff of this latter unit will be located in the Capital Hill, Edmonton. Chief of the unit system is to bring medical services on a par with urban centers to the rural areas organized. A medical officer and nurses are full time staff members, concerned with all phases of public health. It is reported that Peace district is also considering adoption of the unit plan.

Questions of credit unions in the light of new legislation requiring registration in the province of origin and study by provincial officials alone. Ottawa mentioned the fact on this issue, especially in regard to loans granted to Finance purchases. Credit Union members were systematically in order to be able to borrow money for such purposes from their common fund.

Annual convention of the Canadian Good Roads association may be held in Alberta next year, if an invitation extended by Hon. W. A. Fallow at the recent Niagara Falls convention is acted upon by the committee. On the return to Edmonton, Mr. Fallow said the committee had accepted his suggestion that Ottawa be asked to establish a National Highway Commission to investigate and report on highway problems. During the forthcoming year, the minister will be an executive member of the association.

"One thing is certain. We have to get all the way out of Alberta," said G. R. Cottrell, Dominion oil controller, revealed that the greatest history is under way here. "A tremendous amount of work has been done in mapping out prospective fields and what remains to be done is to drill wells," added Mr. Cottrell. "It would give me a lot of pieces of mind and some pleasure if they would get busy and drill wells in the Vermilion and Badwater fields. These people who have been under some bad luck are to work on it."

Fort Merchants Hosts to District Children

LANOUREUX — GOOD HOPE — JOSEPHSBURG — PARTRIDGE HILL — AGRICOLA — BREMER — ARDROSSAN — CLOVER BAR

Presenting the Musical-Comedy Hit of the Season

"ROAD TO ZANZIBAR"

Starring Bing Crosby, Bob Hope, Dorothy Lamour, Una Merkel, etc.

Shows: Country Children at 2 p.m.; Town Children at 4 p.m.

Free Suckers

Bring the Family to this annual Free treat.

14 years and under.

Alberta's prime holiday attraction, the Jasper-Hot Springs Highway, is closed for the season. There has been a block of the highway at the summit. Reports indicate that the burning season is approaching a good number of the highway is closed to the south of the town, and that the local business is feeling the pinch in all parts of the province. Signs are good.

World of Wheat

R. G. Stump

As the analysis of the week of this last summer's "Crop Testing Plan" proceeds, most interesting information is being developed. It is found that over 600 farmers were growing a wheat variety that was certainly not the variety they thought they were producing, and which they intended to grow.

This situation often caused confusion of thought to the farmer, in some instances in the next year farmers thought they were growing non-existent varieties, and actually they were growing Marquis or Red Fife, which are susceptible to rust. In other instances farmers who wished to grow an early variety were actually found to be growing quite a late maturing variety which, in some districts, has been caught by the heavy autumn rains and still remains unharmed.

Some of these farmers had paid good money for the seed which they had received from the "Crop Testing Plan" analysis found was not of the variety it was represented to be. All this means that farmers should be very careful about the seed they buy. Registered and Certified seed is the seed that can always be depended upon, for it is inspected rigorously both in the field and in the seed by Canadian Seed Growers' Association and by the Dominion Government.

You will get more money for your seed than if you have it advertised in The Record.

Saturday, October 25th, is to be Children's Day in Fort Saskatchewan. On this day, due to the full co-operation of local merchants whose advertisements appear in this issue and Sharp's Show, the total annual free show will be given to all children in the community. Free tickets can be obtained from any Fort merchant. If you are unable to pick-up your tickets before Saturday, October 25th, you can come in to town, get a ticket and go over to the show.

Adults may attend the show by paying the low price of 20 cents. All children 14 years and under are admitted free. During the show, Dad and Mother are invited to look over the many new Fall and Winter articles, priced specially for Show Day.

Parents, we invite you to bring the children in to the show and for you to visit the stores while the show is on. You will not be under any obligation to buy, but we would remind you to read clearly the special offers in this and next week's issues of The Record.

Let's all be Showers—let's identify ourselves with this place of community spirit and goodwill. The more we are together, the merrier we'll be.

Don't forget! Saturday, October 25th, Country Children at 2 p.m. and Town Children at 4 p.m. (All By the way!) There will be candy suckers, too!

An Invitation From the Mayor of Fort Saskatchewan

It is with the greatest of pleasure, that I take this opportunity to extend to the residents of the districts of Lamoignon, Josephsburg, Good Hope, Partridge Hill, Yrre Valley, Agricola, Bremer, Ardrossan, Clover Bar and Yorkville, a most cordial invitation to visit Fort Saskatchewan on Saturday, October 25th. On this date the Fort Saskatchewan merchants will be the hosts to the children of the above districts at the annual Free Show.

This annual event tends to promote the spirit of goodwill, and friendship, that is so important to the welfare of the Town and district. It is through this medium that the Merchants wish to convey their thanks and appreciation for your patronage during the year.

While the children are enjoying the FREE SHOW, the parents are invited to visit the stores and see the many fall and winter bargains, complete featured for this occasion, by Fort Saskatchewan Merchants.

P. A. MORRY, Mayor.

Letters to the W.L.

Mr. Thomas,
Women's Institute,
Fort Saskatchewan, Alta.
Dear Mr. Thomas:
Owing to illness I was unable to write the Women's Institute and thank them for the lovely present which they sent me on my birthday. I was in the hospital for sometime and when I came out, Mr. von Hildebrand came down to see me, and moving around so much in the past three months, trying to get located that time just slipped by and I surprise them to receive a box with yours.

now seemed to have the opportunity.
I hope that you accept my appreciation and I really like seeing that I was not forgotten by some one as far away from home as I am. When that day is remembered to each kind of feeling, and one has been away from home, it is indeed a thrill.
Thank you all very much.
Sincerely,
Yours very truly,
D. L. von Hildebrand.
The Women's Institute,
Fort Saskatchewan, Alberta.
Dear Friends:
There can be no more pleasant by two months a day of the cheapest than time just slipped by and I surprise them to receive a box with yours.

STABILIZATION OF PRICES AND WAGES

Your Country asks your loyal support of this Wartime Measure

TWO NEW CONTROLS have now become essential in Canada's wartime drive for living. These are:

(1) Control of Prices

Commencing November 17, 1941, there may be no increase in the prices of goods and services generally unless absolutely necessary and authorized by the Wartime Prices and Trade Board.

(2) Control of Wages

No employer, with certain limited exceptions, may increase the basic wage rates paid to his employees unless authorized by a Board on which the Government, employers and employees are represented. But after February 15, 1942, every employer with the same exceptions, will be obliged to pay a cost of living bonus and to adjust this bonus every three months.

Action Necessary to Stop Inflation

This Government action has been taken to prevent the inflation we have in the last war, and its subsequent depression, unemployment and suffering.

Every business knows that prices are rising, and rising prices, once considered, will make it much more difficult to finance the war. Rising prices, unbacked, will spread confusion in industry and trade, will hinder production and proper distribution of supplies which make the cost of living rise more rapidly than wages and salaries, will lessen the value of savings which result in hardship for countless thousands, and will mean small incomes. And the result of uncontrolled inflation, after the war, will be prices paid, will mean depression and unemployment. Prices cannot be controlled without control of wages. Business profits are, and will continue to be, under strict control.

Coverage of Wages Stabilization Order

The Order is applicable to the following employees:

- 1—Every employee normally subject to the Industrial Disputes Investigation Act.
- 2—Every employee engaged in the production of munitions of war, or war supplies, or the construction of defence projects.

Widespread Support Required

Your Government knows that this policy, as it affects labour, industry, commerce, and agriculture, demands a degree of reaction to which Canadians are not accustomed. It is directly a wartime measure. It will demand self-discipline and self-control on the part of all. It will need the whole-hearted support of everyone who has the well-being of his fellow citizens at heart. But by loyal co-operation, Canadians can have such measure support the war, means of income by the collecting and producing which includes every industry, will render invaluable power in the winning of this war, one in the necessary and maintenance of Canada and the Canadian way of living after the war is over.

Issued under the authority of
H. M. A. McLEARY,
Minister of Labour

Bremner Meeting

Bar Health Plan

Three members of the Clover Bar School Division Health Unit addressed a large gathering of parents and teachers at Bremner Hall on Monday evening, Mr. P. J. McLeod of the School Board was chairman, and Mrs. Ray Schermer, manager of the Health Unit Board for this district, introduced the speakers. Dr. H. C. Adams, outlined in brief the origin and establishment of Health Units, Miss E. Irene Stewart, B.N., spoke on Child Welfare, and it's relation to the health plan.

A report read entitled the Bremner Health Unit report on Friday evening, Nov. 8, Mr. W. H. Marshall of Fort United Church was the principal speaker on the program. He followed the report. Several musical numbers were also enjoyed, and Dr. H. C. Adams, Mr. W. H. Marshall, and Miss Margaret Williamson gave a piano trio.

Larger Municipal Districts

Larger Municipal District units are the question of the day throughout the province, and editors of a wide variety of newspapers are very skeptical of the supposed saving as put forth by government officials in their headlines on the question. Then there is the disastrous way the Alberta government has of introducing any measure. With this in mind we give our readers an editorial appearing in the recent issue of The High River Times.

"Learning over the province, is a plan for enlarging municipal units by including several municipal districts and local improvement districts in one operating body. It is expected that a few test units will be established before the new year. There is said to be legislation giving the government authority to go ahead with this plan. An important reason given for instituting larger units are reduced administrative costs and equalization of tax burdens on the province."

From shoddy information available the formation of larger municipal units may follow the pattern of the large school units. Both schemes were drafted by the U.P.A. government, but met such a wave of opposition that no attempt was made to legislate them upon the taxpayers of Alberta. However, the large school units have now been established, and leveling down every possible victim in some respects, the result has been increased taxation, an increase which runs 50 per cent higher than the small district plan in many instances. The new plan now seems doubtful that it will be introduced under the new plan for larger municipal units.

In the U.P.A. scheme introduced in 1936, the proposed incorporation for the district included districts 186, 191, 192, 231, and 232 and the L.I.D. of the facilities extending almost to Banff. Generally speaking, the districts were made with more regard for industrial and business interests. But the greatest objection was the inclusion of ranch areas with the more thickly populated farm areas.

The requirements of ranching and farming areas are different, and to attempt a flat rate of taxation over farm and ranch lands, was regarded in 1936, and would be regarded in 1941 as most unfair.

Some local municipal districts are in a financial position for farm and ranch lands, more fortunately situated or better administered have maintained financial position, but the thin district unit which has been required of ranch, schools and such services that do not exist in the municipalities. Local improvement districts as a rule very conveniently holding their own roads and bridges as required, and reducing expenses to a minimum.

To tax rate on grazing land on the same basis as farm land or to add local improvement districts with a share of municipal obligations is certain to bring general and justifiable protest.

Municipal governments have been conscientious and efficient in keeping down taxation, and subsequent increases have been made by the taxpayer. They have not an example to provincial and federal governments. Wherever a unit of municipal districts in one unit would reduce taxation or improve service is open to question. But if the government is seriously intent on the plan, it is in this."

The New 1942 Ford

Beauty - Style - Roominess - Riding Ease

ROOMINESS... Riding ease... Quality of materials... Beauty of design and appointments... there's important news on all these counts for this year's new car buyer in this year's great new Ford Car.

But this year Canadian motorists will dig deeper into the facts about motor car performance. When thrust is vital to every individual, as well as to the nation and the Empire, motor car buyers have a right to demand proven facts and figures about operating costs. And that's what the 1942 Ford is in a class by itself. It offers the only V-type, 8-cylinder engine

in its whole price field. This rugged, reliable 90 horsepower engine with its established economy of gas and oil consumption, is outstanding for performance, stamina and thrust. It stands as the greatest engine ever put into a low-price car.

Yes, in the 1942 Ford car, beauty, roominess, riding ease, are happily combined with thrift, stamina, economical performance. We expect any day now the arrival of the New Ford. Take the wheel and take the road, and see if this year's great Ford isn't just the car for you.

"Let Her Curl"

Mrs. M. Graham left today for Montreal where she will attend the "Wings" assembly of her son, Ross, on Thursday.

A special meeting of the Council of the Methodist District of Chertsey, B.C., will be held this Saturday at 2:30 p.m. at the Chertsey Methodist Church. The subject of the meeting is "The Bride Came C.O.D.".

A number of men in the Active Service Forces will be Christmas Eve at the Chertsey Methodist Church. It is expected the men will be home about four days.

At a meeting held recently of the Fort Saskatchewan W.I. the following officers were elected: President, Mrs. F. Sherman, Vice-President, Mrs. P. R. Walton, Secretary, Mrs. F. R. Walton, Treasurer, Mrs. J. P. Popen, and Executive, Mrs. D. Baker.

Directors: Mrs. H. Lecker, Mrs. J. D. McLean and Mrs. H. Popen. A financial report on the treasury showed that \$205.74 had been collected, of which \$105.74 was donated from the church and the rest from the members.

This year Christmas's show will not be open Christmas Eve, shop only.

Fort Saskatchewan Alumni dance programs are now on sale by the members of the committee. This committee offers free students and former students an opportunity of meeting and dancing with a young man and woman at least once a year.

A MERRY CHRISTMAS

and

A HAPPY NEW YEAR

Bremer U.F.W.A.

Elect Officers

A joint meeting of the U.F.A. and U.F.W.A. was held at the home of Mr. and Mrs. C. H. Williamson on December 1st. Ten lady members were present. The U.F.W.A. meeting opened with the singing of O Canada. The roll call was answered with "helpful hints." Reports were given by the Secretary and Treasurer. Mrs. W. F. Williamson gave a report for the Flower Fund, which showed a credit of \$7.50, and had given 4 gifts of flowers and fruit to the sick and shut-in. It was decided to give the older members of the community a gift of chocolate at Christmas. The election of officers for the year was as follows: President, Mrs. F. B. McCalla; Vice, Mrs. C. H. Williamson; Secretary, Mrs. William Beale; Treasurer, Mrs. T. A. Marler; Flower Committee, Mrs. W. F. Williamson; Cabinet, Mrs. F. T. Jackson.

Members of the U.F.W.A. held a Quilting Bee on December 1st. The quilt was presented to Miss Ina Rae, who has been ill for some time.

What a big-hearted friend old Santa Claus is. He must have been a wonder.

STRAIT IS THE GATE

Rev. E. E. Birdall, M.A.B.D.

A GROUP of men and women had an experience that raised them from sluggish mediocrity to bounding joy. From sullen red-men to radiant singing. It was Jesus they had experienced. They knew that all the world must know about Him. They encountered two obstacles: their own limitations in talking and slowness of understanding in their listeners. In this because that have followed, they who have experienced Him have joined the procession of artists, singers, composers, writers, dramaticists, musicians, poets, translators, educators, and—what not? They have learned Everyman's language and interest and beauty and soul and art, in order to tell about Jesus in so many ways that Everyman cannot possibly miss experiencing Him.

Have you ever noticed the shiffling combination of acts in the stories about Jesus? Have you ever noticed how gloriously so many elements are blended? The shepherds and their flocks, the kille of Pilgrimage, the stars, the sun and the moon, the wise men and their gifts, even the power of Caesar Augustus divinely used to bring Joseph and Mary to David's town for Jesus' birth—they are all fused into one single pageant by which the Babe in the Manger is exalted. All of earth and heaven are made to sing His praise together. It is no wonder that as we read these chapters our minds are flooded and our voices captured by the Christmas music.

There is no curdly die that can drown out this music. Dictators may shriek and roar from every radio in the world, their scorpions and tanks may whistle and growl, their shells and bombs may whistle and thud, but where all that noise "men of good will" can still hear the eternal music; and when arrogant men, lustful for power, intoxicated by the noise of their own weapons, have been silenced, then once again will be heard the angel voices blended with those of men:

Jay to the world! the Lord is come.
Let earth receive her King;
Let every heart prepare Him room,
And heaven and nature sing.

Recipe for a Happy New Year

Take twelve fine, full-grown men, men that they are thoroughly free from all old memories of bitterness, rancor, hate and jealousy; cleanse them completely from every clinging spite; pick off all specks of pettiness and littleness; in short, men that these months are freed from all the past—have them as free and clean as when they first came from the great sureness of Time.

Cut these men into thirty or thirty-one equal parts. This batch will keep for just one year. Do not attempt to make up the whole batch at one time (so many persons get the entire lot in this way) but prepare one day at a time as follows: Take each day put twelve parts of faith, eleven of patience, ten of unguage nine of work (some people cut this ingredient out and so spoil the flavor of the rest) eight of hope, seven of fidelity, six of liberality, five of kindness, four of rest (harvest this lot is the leaving the oil out of the salad—don't do it), three of prayer, two of meditation, and one well selected resolution. If you have no conscientious scruples, put in about a teaspoonful of good spirits, a dash of fun, a pinch of folly, a sprinkling of play, and a heaping cupful of good humor.

Four into the whole lot of thirteen and mix with a man. Cook thoroughly in a fervent heat, garnish with a few smiles and a splash of joy; then serve with confidence, unselfishness, and cheerfulness, and a Happy New Year is a certainty.

Happy New Year

World of Wheat

By

H. G. L. Strang

This "World of Wheat" column is a message written by Mr. L. S. Searle, whose gift has been observations of agriculture and the life extended over 80 years.

"I have noted that often during different times of stress and suffering, some people have almost lost heart and have felt that the few things of life would be lost, and that the disturbed conditions would never end; but I have seen that the waves of bitter strife always did eventually pass away, and were succeeded in turn by periods of calm and peace, when once again man was able to devote his energies, his heart and mind, towards reaching for the better, finer and more precious things of life.

It requires, therefore, no prophetic gift to say that even this present bitter period of world strife that is accompanying us all today, too will pass. One day, therefore, unquestionably, our righteous cause will triumph over the forces of evil, and then more prosperous and happier times will come again; will come, too, I for one am bold enough to think, sooner perhaps than many now consider possible.

May this Christmaside will refresh themselves with the power of patiently enduring whatever may come until the supreme blessing of peace is with us again."

HOME-MADE CANDLE BOLDNESS

Christmas and New Year's always seem more festive with candles used somewhere about the house, particularly if there are get-togethers planned for that time. But candle holders need be no problem. Nothing is more ordered or effective than ruy red apples with just enough of the centers scooped out to hold candles. Use the apples whole, or cut in half, lay the cut side on a plate, surround in upper half where a hole has been made.

HEAVENLY: We say you must have you've bought your Christmas!

A

MERRY CHRISTMAS

TO EVERYONE!

Wheat Price Ceiling
Of \$1.25 per Bu.**

Equally with that sought for
Western Farmers

Uniform wheat prices sought for all Canada of \$1.25 per bushel have the Western Elevator Association urged in a brief submitted to Ottawa by the North-West Line Elevators Association. The Government is set at a price ceiling for Ontario wheat of \$1.25 per bushel. The Indian wheat of \$1.25 per bushel, while the Government to the Government to set a higher ceiling price.

In a submission to the Chairman of the Wartime Prices and Trade Board, the line elevators' Association

"On November 19th we communicated with your Board requesting the ceiling price for wheat. At that time we urged that attention be given wheat in view of the fact that wheat was selling at depressed prices in the home market chosen by the Government for cutting ceiling prices.

Subsequently the Canadian Wheat Board, acting as arbitrator on behalf of the Wartime Prices and Trade Board, heard evidence on the matter and set a price ceiling for Ontario wheat at \$1.25 per bushel, while the Indian wheat of \$1.25 per bushel, while the Government to the Government to set a higher ceiling price.

Braver Local U.F.W. & U.F.A. Elected Officers

The U.F.W.A. Local met at the home of C. H. McHugh, on the evening of January 10th, the U.F.A. meeting at the same time and place. Thirteen members were present, answering to the roll call with a "New Year's Resolution." Last year's Board of Directors was re-elected. Mrs. C. H. McHugh being elected to replace Mrs. Jones, whose husband made a report at a later meeting on the conduct of the year. Mrs. C. H. McHugh was elected delegate to the forthcoming convention in Edmonton on January 10th. Mrs. F. L. Lohm was chosen as an alternative. It was decided to try and send a hand-picked exhibit to the convention. Mrs. John McHugh thanked the members for the list of resolutions given her at Christmas. At this time the members joined with the U.F.A. local in doing resolutions for the coming year.

Mrs. William Schaefer and her daughter Helen, entertained at a social dinner on Saturday afternoon in honor of Mrs. Garret Barker, the former Mrs. John Barker, whose marriage took place in December. Little Miss Helen Schaefer, whose marriage took place in December, was the guest of honor. The dinner was given at the home of Mrs. W. P. Whitman, where the dinner and entertainment were given. The dinner was given at the home of Mrs. W. P. Whitman, where the dinner and entertainment were given.

"It would appear that price ceiling will be with us for some time to come and we think it probable, the best should be established between the price of Western wheat and Ontario wheat. We urge your Board, therefore, to take on order defining the price ceiling for wheat for all Canada at \$1.25 per bushel. The Indian wheat of \$1.25 per bushel, while the Government to the Government to set a higher ceiling price.

"The establishment and announcement of this ceiling would clarify the situation for wheat producers."

World of Wheat

By
H. G. L. Strang

An agricultural organization in Alberta, that has the support of the Dominion Government, is the Dominion Ministry of Agriculture, that the license for Golden Ball and Wheat wheat shall be sold. If this is done it means that no one would be permitted to advertise, or to offer for sale, or to sell, or to have in their possession for sale, for the purpose of advertising in Canada, any Ministry made by the Alberta authorities.

One ton of wheat power will produce approximately 1,000 bushels of flour. 2,000 bushels of flour will produce approximately 2,000 bushels of flour. 2,000 bushels of flour will produce approximately 2,000 bushels of flour.

WE'LL WIN this war

If you are tempted to feel griet that the authorities are clamping down with restrictions upon the material, just remember that in no country which is opposed to us in this war has the common sense of the people ever enjoyed the exhilarating experience of owning and driving a motor car. Yet their leaders have the audacity to cry out for their type of a new world order, as against ours.

LET'S GET TOGETHER AND WIN THIS WAR FIRST . . . FORD ENGINEERS PROMISE EVEN BETTER MOTORING WHEN THE DAYS OF PEACE COME AGAIN

We'll Go Over Your Tires and Fix Them Up to Give a Maximum of Additional Miles.

AUDITOR'S CERTIFICATE

We have audited the accounts of the Municipal District of Clover Bar, No. 517, for the year ending December 31, 1941, and have compared the said accounts with their relative vouchers and certify that in our opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Municipality according to the best of our information, the explanations given to us, and as shown by the records, subject to any qualifications mentioned in Auditor's Special Report attached.

Dated at Edmonton this 20th day of January 1942

Signed Kinnaird & Aylen C.A., Address 287 Taylor Building, Edmonton.

Annual Meeting of the Municipal District of Clover Bar will be held on Saturday, February, 21st, 1942, in the Community Hall, Fort Saskatchewan at 1 p.m.

what is a VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it.

A Victory Bond is an asset more readily converted into cash than any other security.

Printed by the Presses of the Dominion, Ottawa, Canada.

VICTORY BONDS

World of View

By
E. G. L. Stanger

Some people think that if our people were to be given "patriotic" or a price of \$1.00 a bond for their share in the coverage country point, which is equal to \$1.00 at Port William. The entire price, however, that the Government is being asked to pay is only 50 cents a bond.

Some of this 50 cents you could be used if the Government would charge control countries such as Italy, Portugal and Spain, a proper and reasonable price for the share they are contributing to us. There does not seem to be any reason why these material countries are not at war, and which therefore are comparatively well off, should be given what at a price that is less than the cost of production.

Y.

BE BOLD TO AFFIRM!

The Week in Edmonton

Grand Session of the Ninth Legislature was opened by the Lieutenant-Governor Thursday last in a ceremony of all sorts. We then explicitly marked the entrance of the Hon. Mr. in the Throne Speech, a highlight of measures to come, reference was made to impending legislative session of the year, and the Legislature will continue on a program, continuation of the national war program, largely into the Western's Commission. A. A. Johnston was the movement to push Alberta's boundaries northwest and a survey of natural resources are preliminary to a program of post-war reconstruction.

Of interest to electors throughout the province was the announcement prior to the opening by members J. H. MacDonald, E.C. and J. J. Bevin that they would sit in the House on Liberals, and were not to be considered members of the Independent Group. The two members pointed out that their relations with the Independents will continue on a friendly basis, and they will be free to oppose or support legislation according to their views.

Members are Hon. H. E. Tupper, minister of trade and commerce, Hon. E. C. Manning, minister of trade and industry, and Dr. Robert Hooven, acting president of the University of Alberta. The committee is still in the preliminary stage, and it may be delayed later. Research and survey work will be carried out, and the various data accumulated will be made available to the students.

Old Age Pension came in for discussion among government members at the current session, and it was stated by the Premier that the same favored increases in these and others' allowances permitted. Some weeks ago it was announced that the government is required to pay \$1.00 monthly to pensioners immediately federal legislation is revised to permit payment without loss to pensioners.

Who Is Calling?

I dreamt last night and now I can't forget the dream.
I was standing looking at Viny Ridge as I knew it twenty-four years ago. Only all the troops had gone behind was the steady entrance to the tunnel from which we emerged on April 9, 1917. Almost was the gentle slope of heavy hard earth, planted with tin cans, broken rifles, barbed wire stumps and pieces of shell craters and trench excavations. It seemed to be just about twilight. Not a thing stirred. The silence was complete.

Then I saw Jim. He was standing on top, off to the right a little, just about where he and I hit Hama's front line together, where he had dropped so quickly he didn't have the chance even to say "No long" to me.

He looked just as he did then. Twenty-two years old and handsome. Suddenly he raised his rifle high, and with that shining light of enthusiasm which he used to have in his eyes, he cried,

"Come on Canada!"

I awake with the feeling that he was not only looking at me but through me to a huge crowd of other Canadians. There are some dreams which cannot be accounted for. This wasn't one of those, however, because yesterday I had learned that the slogan for the second Victory Loan was to be, "Come on Canada!"

Today, while that vision of Jim stayed with me, this question popped up: Who really is calling to "Come on Canada?" In this present Victory Loan Campaign? And I think I have the answer to the dream about Jim. Who has a better right to ask Canadians today to pour all the money they can get their hands on into the job of wiping out the dangers than the glorious crowd of men, some 10,000 young Canadians who willingly gave up a future life of happiness in Canada and accepted a grave in France for the sake of other boys home?

15,000 bannons were purchased recently by the Department of Munitions and Supply for the Air Force. This is probably the largest single purchase of bannons ever made in Canada. It is said that they could be used for a great height.

The Purchase of Sugar is Now Regulated by Law

A prudent precaution, the quantity of sugar which may lawfully be consumed in any household is now restricted by law to an amount of three-quarters of one pound per person per week, and it is now unlawful to purchase more than two weeks' supply in any one time or to make any purchase if present supplies are sufficient for more than two weeks.

This step has been taken to conserve the satisfactory reserve stock of sugar in Canada and is an assurance to the consumer that there is no reason for heavy buying of sugar.

Ration coupons will not be used to enforce the sugar limitations in Canada. The supply of sugar in our country has been under control for more than two and a half years and the housekeeper has always been able to satisfy her needs; she will continue to be able to do so and the price ceiling law protects her against any increase in prices.

The maintenance of the new regulation governing the purchase of sugar rests on the success of all laws in a democratic country must rest, upon the loyal support of the people. Any consumption of sugar in excess of the quantity stipulated by this regulation is not only an offence against the law, but is also a betrayal of the war effort and consequently an offence against decency.

Reports received from retailers indicate that in some districts there has been misunderstanding of the requirements of the law. In some cases, people are under the impression that they should at once lay in a sufficient supply for two weeks; that of course is not necessary because a continued supply of sugar is assured. In other cases it has been assumed that a greatly restricted ration is to be made effective in the near future. This is incorrect because the Wartime Prices and Trade Board has already stated that the sugar supply situation is such that requirements of the consumer at the rate of three-quarters of a pound per person can readily be supplied.

As a means of protecting consumers from unknowingly breaking the law, it is suggested to retailers that, for the present, they limit sales to say one customer to an amount of not more than five pounds.

Summary of Sugar Rationing Regulations

- The ration is $\frac{3}{4}$ pounds per person per week, including adults, children and infants, members of the family, boarders, servants, and guests who remain for four days or more.
- Persons may purchase more sugar if they have two weeks' or more supply on hand.
- Persons in remote areas who are not able to buy their two weeks' supply at a time, but should consume their consumption at the ration rate, namely $\frac{3}{4}$ pounds per person per week.
- Lumber camps and other firms providing board for their employees must see that consumption is restricted to $\frac{3}{4}$ pounds per week per person, effective immediately.
- Economies on sugar in every way you can; some people can get along on less than the ration. Persons dining in hotels, restaurants, etc. are required to consume their sugar consumption.
- Additional supplies of sugar will be made available for home preserving and canning.
- The restriction applies only to cane and beet sugar of all kinds—granulated sugar, icing sugar, fruit sugar, brown sugar, raw sugar, etc.
- Industrial uses of sugar, hospitals and other institutions, hotels and restaurants, will be advised by the Public Administration how the sugar restrictions will affect them.
- Refusers are entitled to refuse sale or to limit sales to any person they have reason to believe is attempting to disregard this law.

Violators steps will be taken to punish infractions of the law. The penalties provided are imprisonment for as long as two years and a fine up to \$5,000.

THE FORT RECORD

19 No. 46

World's Week

By HAROLD L. WEIR

Assistant Editor and Daily Columnist of the Edmonton Bulletin

After last week's turbulent debate which at Westminster have settled back to normal with Prime Minister Churchill and members of parliament both equally satisfied that all had turned out for the best.

The House of Commons, part of the principal things that it had not been able to get before. The promise of Empire representation in the cabinet and the promise that a minister of production would be appointed, in return for their commission. The Prime Minister got what he wanted: A vote of confidence of 416 to 10.

Lord Beaverbrook has been named production minister and his "minor changes have been made."

It is agreed that Mr. Churchill's performance was marvellous. When it finally came time for him to deliver a fine speech of most to the House of Commons, he was a minister of production, the Prime Minister was able to persuade them that he had intended to do it all along—at least since long before the present debate was upon him.

Churchill's explanation of the broad, strategic situation of the government to send the Republic and Prince of Wales to Singapore was regarded as marvellous. At the same time, there is still great confidence about the future of the government, which was headed and he did not say by his margin of safety of the House of Commons.

Consequently, it is hoped that action will result from his promise that "while I take full responsibility for the broad, strategic situation of the government, it does not mean that somebody of efficiency or misbehavior of function at the particular moment and particular places, covering on the spot, will not be proved."

Admiral Phillips, he revealed, was told that he could not have fighter protection on his raiding expedition against Japanese troops. "Only after he had left the harbor," this raises the question of why he was not informed by the air force commander before.

120 Reasons Why You Should Buy the New Victory Bonds

Your Money Will Provide the Material to "Finish the Job"

THE JOB MUST BE DONE

—Let's do it!

As Winston Churchill said: "We can beat the life out of the savage Nazis".

We can't beat them unless we have more and better weapons.

And the only way to get more and better weapons is to raise the money to pay for them.

Other than by taxation, the only way to raise this money is for Canada to borrow it. The only way for Canada to borrow enough, is for EVERYBODY to lend.

So - lend your share and

Buy the new

VICTORY BONDS

O'Brien Watt Ltd.

Hitler is Calling
For a New Order—
so is Canada!

But Canada's is a different kind of order. It's an order for the new Victory Bonds.

Which would you prefer — to be ordered about by Hitler or do your own ordering?

Very well then — place your own order for the new Victory Bonds . . . and buy them to the very limit of your ability.

Buy A SHARE in VICTORY

Canadians need not be reminded of their duty in these dangerous days. But no Canadian should ever forget that it only by the enthusiastic and determined co-operation of every man and woman that this war can be won.

So—buy the new VICTORY BONDS to the very limit of your resources.

Letters to the Editor

Tuesday, March 21, 1945

Editor, The Mirror.

Fort Saskatchewan, Alberta.

Dear Sir:

Kindly allow me space for a few remarks about the report of the

Cross. It is curious and unfair to condemn the efforts of this organization

over a shamous case. Many a lad

has missed his mark but we are still

making them. We have that there is

a lot of waste in this world but less

criticism will be of little to prevent

it. The Red Cross always gets

some useful suggestions, as some

forward with them. Do not think that

being in the only work done by

the members of this society, far

from it. What would our hospitals

and the prisoners of war do if it

was not for the Red Cross? The Red

Cross did not crash through in the

thousands in Montreal and

Theresa for our men imprisoned in

Germany and elsewhere. The Red

Cross has saved and bled over mil-

lions of men and women. Canada

has been a great help to the world.

Many thousands have been

saved a million and a half dollars

to supply that food. His hundred thou-

sand men, thousands and millions

pay to do this work and put up an

average of thirty three pounds a

month.

We need more help in our Red

Cross to this town and it is

for the same of the younger people

to work up before it is too late.

Sincerely yours,

M. L. Lee, Editor.

Being one of the Officers Boarding

Officers in Fort Saskatchewan, the

Editor was asked to contact the

proper parties with a view of having

the Armoured Train which is pre-

sented leaving the railway stop for a

while in Fort Saskatchewan. The fol-

lowing reply to our letter has been

received.

Editorial Staff No. 15,

Prison of War, Alberta,

Alberta, Alberta.

Dear Sir:

We appreciate the efforts that you

and the people of the surrounding

district of Fort Saskatchewan have

so willingly given to the cause, but

owing to the fact that the train is

for the Armoured Train is equipped

in Ottawa, and it is not possible

to delay it to this schedule. We will

with the regular train schedule, it is

impossible to arrange a stop-over for

your train.

Thanking you again for your

interest in the matter.

Very truly yours,

Ag. G. W. Woodard.

Y.

You will get much more for

Ameside if you have it advertised

in The Fort Record.

World of Wheat

H. G. C. Stange

The new Dominion Government
approved Wheat 11 while flour and
bread will appear on the market on
April 15th.

The new flour, from which the
bread is made, is manufactured by a
special milling process worked out
by Dr. H. H. Hays, the Dominion
Agricultural Chemist, and his associates at the
Experimental Farm at Ottawa. By this
new process, a minimum of at
least 100 international units of Vi-
tamin B1 is contained in the flour
as compared with about 100 units
only in present average white flour.
These additional units of Vitamin B1
however are extracted from the
wheat germ itself and are not added
artificially.

The human body it seems requires
definite minimum amounts of Vi-
tamin B1 each day to ensure good
health and abundant energy. The use
of the new flour and bread, therefore,
should tend to improve the health of
men, women and children alike in
Canada which it helps to protect dis-
ease from many diseases.

The new flour and bread is not only
approved by the Dominion Govern-
ment, but is strongly recommended
for use by all medical men. The bread
is not white in color but it has a
rich, creamy, appealing appearance.
Flour, wheat, therefore, and in
fact all human beings, I suggest,
would do well to give the Canada
Approved Wheat 11 bread and flour
a thorough trial.

Buy your own in the future.

Mon of 30, 40, 50
per. VIL. YOGG, Chas. H.

Experimental Farm tests showed that it only cost 35 to
55 cents per bush, from the time of sowing until sold.

KILOCYCLING

By Al MacKenzie

Continuing Squares on CBC

The who, what, where and
why of world affairs—and the shal-
low part that Canadians are playing
in these—continue to come in bi-
weekly broadcasts through the CBC's
outstanding Circle of World speaker
series. Sundays at 7:00 p.m., from
EUGA.

Presentations of prominent such as
Australia's Premier, C. J. Madden, U.S.
Representative Lloyd Blevins, and
other correspondents. Quotations
are very interesting to the
listener.

The very nature of these news dis-
patches is the nature of the broadcast-
ing, for informative entertainment,
and CBC's such Sunday evening at 7:00.

"The Star" Will Broadcast

From now and for some months
the CBC's news comment on the current
events of the world's news Sunday
evening at 7:00 p.m. will be
"The Star" will broadcast.

Elephant Brand
Mineral Stock Food
Experimental Farm tests showed that it only cost 35 to
55 cents per bush, from the time of sowing until sold.
Land buy values are high in the price for
Elephant Brand Mineral Stock Food.
A fair trial will convince you that it pays to feed
Elephant Brand Animal Mineral Food.

Elephant Brand Fertilizer
Elephant Brand high analysis (highly concentrated)
fertilizers are especially manufactured for the prairie
provinces—there is no cheaper way to buy plant food.
Farmers who have used fertilizer over a period of years,
believe that the most important advantage of all is that
fertilizer, along with proper cultural practices, holds up
the land, and gradually brings back the old power to pro-
duce while the other advantage pay for the fertilizer
and give a fair profit.

THE FERTILIZED FIELD—has the advantage of
increased yields—Earlier Cutting—Wet Control and a
noticeable decrease in Root-Rot Breeding Diseases.

Line Elevators

Appointment

Vice-President

Announcement of the appointment
of Carl Lamont as vice-president of
the North-West Line Elevators As-
sociation was made today by W. W.
Trotter, president, following a meeting
of the Board of Directors of the Asso-
ciation. Mr. Lamont, a former presi-
dent of the association, was elected to
the position of vice-president. Mr. Trotter,
E.C., who held the post of
general secretary for the Line Elevators
Association, stated that the association
has been successful in its efforts to
secure the appointment of the vice-
president. The association is composed
of the owners and operators of 1000 grain
elevators and grain yards located
throughout Western Canada and
terminal elevators at the head of the
Great Lakes and on the Pacific coast,
with a total storage capacity of
100,000,000 bushels of grain.

The North-West Line Elevators
Association is composed of the owners
and operators of 1000 grain elevators
and grain yards located throughout
Western Canada and terminal elevators
at the head of the Great Lakes and on
the Pacific coast, with a total storage
capacity of 100,000,000 bushels of grain.

Good Days - Types Valley District News

The Happy Days continued the roll with "My Favorite Radio Program" at their recent meeting. The 15th Happy Days was devoted to a report of the district, and gave a brief report of the district, and gave a brief report of the district, and gave a brief report of the district.

The next meeting will be arranged by Group 1, and the roll will be taken by the name of "My Favorite Radio Program". The roll will be taken by the name of "My Favorite Radio Program".

There is a Mr. and Mrs. Gordon Peltz (Good Days) on Tuesday, April 18th, 1940, at the Royal Hotel, hotel, a m.

Letters to the W.I. From the "Boys"

Dear Boy,

Mr. E. E. Thomas, President, Women's Institute, Fort Saskatchewan, Alberta, Dear Mrs. Thomas:

Once again I'm writing to let you know I appreciate what you are doing and hope that through you that the rest of the community will also know.

This is not meant to be a letter to you. The third person I'm writing to is the W.I. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

If I were here, I would be with you. I'm not a "Thank you" letter, but I'm not a "Thank you" letter, but I'm not a "Thank you" letter.

Elephant Brand Mineral Stock Food

Recommended from tests showed that it only cost \$1 to \$1.50 per ton, from the time of sowing until seed.

Land hog values are high in this section for Elephant Brand Mineral Stock Food.

A fair trial will convince you that it pays to feed Elephant Brand Animal Mineral Builder.

Elephant Brand Fertilizer

Elephant Brand high analysis (highly concentrated) fertilizers are especially manufactured for the prairie provinces—there is no cheaper way to buy plant food.

Farmers who have used fertilizer over a period of years, believe that the most important advantage of all is that fertilizer, along with proper cultural practice, builds up the land, and gradually brings back its old power to produce with the other advantages pay for the fertilizer and give a full profit.

THE FERTILIZED FIELD—has the advantage of increased yields—Earlier Cutting—Weed Control and a noticeable decrease in Root-Kill Browning Disease.

World of Wheat

By E. C. Duggan

Many farmers are making inquiries about this. Here are some suggestions:

(1) Clean the flax and thoroughly from from seed. Use what a 400 or a 400 per cent seed.

(2) Use the seed with material that is not over 100 days old.

(3) Have a preliminary test made (4) See only one class of seed (5) See only one class of seed (6) See only one class of seed (7) See only one class of seed (8) See only one class of seed (9) See only GEORGIA DRY
Here is one of CBC's most charming young girls. Georgia Dry, Georgia Dry, named frequently on CBC networks, and was one of the highlights of the recently completed Georgia Dry series.

KILOCYCLING

By Al MacKenzie

For the benefit of Kilocyclers, here is a list of the names of the Kilocyclers who are participating in the Kilocycling competition.

Already this pleasant half-hour of friendly philosophy and wit-knowledge has been followed on Saturday afternoon. Written, produced and recorded right here in the CBC studio, it is to be made available to the public in a 15-minute episode.

Believe me, the Kilocyclers are a group of people who are very much interested in the Kilocycling competition.

Charming, Canada's new girl, Georgia Dry, is the star of the Kilocycling competition.

Charming, Canada's new girl, Georgia Dry, is the star of the Kilocycling competition.

Will you have a Harvesting Problem?

Combustion Engine No. 7 Operating in the Fort Saskatchewan District Last Year. A FEW GOOD COMBINE POINTS ABOUT THE FORT COCKSHUTT COMBINE: Left-hand cut and pick-up. Saving the cost of a sower, because any old binder will do the sowing. The modified tractor can handle this machine as well as an auxiliary COCKSHUTT COMBINE No. 7, come in two sizes—5'7" and 6'1". Kindly let us have your order at an early date, as there are only a limited number of these machines available this year.

Massy-Harris Now Go War Fueling for Duration

Plans Work as Capacity Production Armaments and Farm Equipment

Remarkable evidence of the extent to which a large Canadian manufacturer can swing into line and be an important factor in producing munitions for the war effort may be gathered from an illustrated booklet put out by the Massy-Harris Company, entitled "Implements and Machines for War Needs."

Shells of three different calibers, whips and spurs for tractors, light and heavy haulers for transport vehicles, special mechanical equipment for various branches of the services, metal fittings for aircraft, links for tank tracks, are some of the implements of war which the company is producing in quantity. To meet the needs of the fighting forces for more shells, more planes, and more equipment, the wheels of Massy-Harris war industries are kept turning to maximum capacity.

The company has extensive plans for making shell production, which require three separate departments, one for 16-pounders, one for 4.2-pounders, and one for anti-aircraft shells. Here are being equipped and put into production. Modern automatic machines turn out shells five times faster than in the last war, and thousands upon thousands of shells come from the plants every week.

Application of the latest manufacturing methods has enabled Massy-Harris to produce quickly and efficiently for munitions units. It makes these units more reliable in several ways: more powerful, truer units for special service, many of which have automatic service in the Liberty engine equipment. One of the company's shells is now produced in 16 seconds and is turning out two-and-a-half times as many wags per week as were made for in the original contract.

Farming for Total War

THE NATIONAL GRAIN TRADING COMPANY is now ready to handle all business in connection with the sale of grain. The company is now ready to handle all business in connection with the sale of grain.

Good Days - Yrns Valley District News

Miss Alice Dalen of Grande Prairie, Alberta, spent last week visiting with Miss Marjorie Crockett, previous to her departure for the United States.

Mr. Dumas Crockett, who arrived from Fort St. John, B.C., last Wednesday, is spending a holiday at his home in Grande Prairie.

The regular meeting of the A.P.U. was held in the Good Hope school on Friday evening, July 21st. The President, Mr. Carl Bennett was in the chair.

Before working in the garden, get your hands and feet clean. This is a good rule to follow.

The Listening Post

BY CHARLES CLAY

Next Time I Think Agents

The Nazis may think they have done a neat trick by their landed articles in the United States, but they have made a mistake. The British are not so easily fooled.

One is a whole agent who is sought before they come into the underground organization. They are mostly agents who are sought before they come into the underground organization.

A housing question is what will take the place of provincial money. The money is what will take the place of provincial money.

REMARKS FROM THE activities of the agents landed in Belgium are, of course, secret. They may or may not be undertaking operations for the "Red" forces.

FRANCIS JAMES Francis James, author of New Brunswick, resident of Toronto, and, for the past two years, familiar to C.B. listeners, is pictured above. He is currently heard over Station C.B. Windsor (440 KHz.), with other leading Toronto guests.

Yrns Valley school children played a very good game of ball at Anderson's school on July 21st, when they took on their school and won by a score of 10-1.

Before working in the garden, get your hands and feet clean. This is a good rule to follow.

World of Wheat
R. G. L. Brough
A PATRISTIC PRIMER REPORT
The farmers of the North American Continent have, in an amazing fashion, increased the production of their food needed by the Allied Nations for their war effort. The United States Secretary of Agriculture reports that wheat production in the U.S.A. has increased 50 per cent in one year; that ten million more bushels were harvested this year than ever before, and that there will be plentiful supplies of wheat for the war effort.

A special feature of wheat production in the U.S.A. is the fact that 80 per cent of the wheat is produced in the Prairie Provinces 97 per cent of the wheat is produced in the Prairie Provinces 97 per cent of the wheat is produced in the Prairie Provinces.

But many thousands in the new prairie areas are not unimpaired. The wheat is produced in the Prairie Provinces 97 per cent of the wheat is produced in the Prairie Provinces.

One is a whole agent who is sought before they come into the underground organization. They are mostly agents who are sought before they come into the underground organization.

A housing question is what will take the place of provincial money. The money is what will take the place of provincial money.

YOUR SCRAP METAL URGENTLY NEEDED!

This New Method makes Scrap Metal Collection easy for you.

Men everywhere and time is rapidly passing for more ships, tanks, planes, guns and munitions. More scrap metal is being used than ever before. To every available source of scrap metal there is a demand.

In order to facilitate the systematic collection of scrap metal and steel in the three Prairie Provinces, the Western Salvage League, a Government Company, has completed arrangements with the following Western Canadian provinces for collection and purchase of scrap metal and steel:

Alberta: Western Salvage League, Ltd.
Manitoba: Western Salvage League, Ltd.
Saskatchewan: Western Salvage League, Ltd.

These Canadian provinces and purchase the material on behalf of the Government and sell it to the Government, and collect proceeds to be shared by the provinces.

An Agent of one of the above named Western Canadian provinces has been appointed in your district as an agent for the collection of scrap metal and steel. He will be in contact with you by mail or by telephone. He will be in contact with you by mail or by telephone. He will be in contact with you by mail or by telephone.

This plan applies to all scrap metal in the three Prairie Provinces.

Your contribution to the war effort and to our country is through the scrap metal and steel. It will be in contact with you by mail or by telephone. It will be in contact with you by mail or by telephone.

Send your scrap metal to the Western Salvage League, Ltd. in your district. It will be in contact with you by mail or by telephone. It will be in contact with you by mail or by telephone.

Barley Wheat Crops of the Past

This is a year of heavy rainfall.

Since the year 1892-44 years—

twenty years the wheat yield for the

three Prairie Provinces combined has

averaged over 10 bushels to the acre,

all being years with better than

normal rainfall.

In only four of these years, how-

ever, has less than six bushels been

produced. The year 1912 was an

average year with 10 bushels to the

acre. The year 1913 was an average

year with 10 bushels to the acre. The

year 1914 was an average year with

10 bushels to the acre. The year 1915

was an average year with 10 bushels

to the acre. The year 1916 was an

average year with 10 bushels to the

acre. The year 1917 was an average

year with 10 bushels to the acre. The

year 1918 was an average year with

10 bushels to the acre. The year 1919

was an average year with 10 bushels

to the acre. The year 1920 was an

average year with 10 bushels to the

acre. The year 1921 was an average

year with 10 bushels to the acre. The

year 1922 was an average year with

10 bushels to the acre. The year 1923

was an average year with 10 bushels

Wheat Pools Reduce
"Street" Spread
 July 24th, 1942

The Western Wheat Pools decided at an interpro-

vincial conference, held in Calgary on July 16th and 17th,

to reduce by 1/2¢ the spread in the handling of "street"

wheat delivered to the Wheat Board through Pool elevators

for the ensuing crop year. This means that the "street"

spread in Board wheat handled by the Pools will be eliminated

and farmers who deliver on that basis will receive the

carlot price and benefit by 1/2¢ a bushel as compared with

last year's charges. The Wheat Board has been advised accordingly.

This decision was reached because of special conditions

which are certain to prevail in the marketing of the 1942

wheat crop. The present arrangement with the Wheat

Board provides that a producer must deliver 150 bushels

in order to qualify for carlot price. However, it is probable

that the first quota will be five bushels to the acre and

many farmers will not have a sufficient allotment to deliver

150 bushels, even although they may have substantial

quantities of wheat in farm storage.

The Wheat Pools have taken the leadership in this matter

just as they have in virtually every proposal to aid

western agriculture in the past.

At that Chapter is composed of men and women, but also having the "Arts" from his friends and family.

ARDROSSAN NEWS

Not while Congressmen clamor for factories and contracts as if the war were a great gray train.

Not while strike leaders hamper war production, despite a solemn promise that they would stop.

Not while the life-and-death need for uninterrupted production is used as a weapon to put over the closed shop.

Not while a man can't be employed on an army project or in a war plant until he pays off to a labor racketeer.

Not while the grim job of preparing our home communities against air raids and sabotage is grumbled up with boondoggling.

And we don't get maximum production. In short, unless, first, we fully realize our awful peril; and, second, give the Germans the goods of recent years.

Gimme shorter hours, gimme higher wages, gimme bigger profits, gimme more overtime, gimme less work, gimme more pensions, gimme greater crop benefits, gimme more appropriate taxation, gimme plants for my Congressional district, gimme feed and dress to work for Uncle Sam, gimme \$30 every Thursday.

France had the gimmes, too—had them until the Germans were close to Paris. Then everybody went frantically to work, too late.

France has no gimmes today—except gimme food for

Lead a Hand To Others

Friendship improves happiness, and alleviates misery by doubling our joy and dividing our grief, and a man should always be careful to keep his friendship in constant repair for friendship is that which stands between your yearning heart and the great outside world that you try in vain to warm and fill. If he does not make new friends and acquaintances as he passes through life, he will soon find himself alone.

He is a man who is interested in comparatively few people in his life. He is interested in those with whom he comes in daily contact—his family, a few business associates, and a small circle of friends. Outside of this little world, those with whom he comes in contact are strangers about whom he cares little and, possibly, about whom they care less. He simply regards them as people with their own habits and inhibitions similar to his own and is willing to let it go at that. He does not realize that the laws of friendship are great, austere, and eternal, of one web with the laws of nature and of morals.

Are these assertions to be doubted? Then observe the aloofness of the passengers in a railway car; the social

All too true. And yet a lively and sincere interest in our fellows as we journey through the years will give us an education that will broaden us, give us greater tolerance, more compassion, and make for a richer life.

It is an excellent thing to have a wide acquaintance, especially with those who have looked into the world; who know men, understand business, and can give you good intelligent advice when desired, just what most of us need is "the great common touch." Abraham Lincoln had it, and his face bore the imprint of it. He went live through the ages because of it, while the great materials of his day, in their narrow orbits, have long forgotten him.

[illegible][illegible]

**IT'S GOING TO BE TOUGH
for all of us
BUT NOT TOO TOUGH**

Income Tax is Fair to All

In the fourth year of war, Canada will need almost four billion dollars. This is the equivalent of nearly \$150 from every man, woman and child in the country.

Even with the highest income tax at 12%—only of the money Canada needs will be raised by taxation. The rest will have to be borrowed by means of War Savings Stamps, Certificates and Victory Bonds.

EMPLOYERS

If you have an employee who is an owner of Trade or Professional and has the right to deduct your income tax, you must deduct income tax at each pay.

Starting with the first pay period in September representing September earnings only, your employee is required by law to deduct your income tax from your wages or salary, and send it promptly to the Government. Everybody will pay his share as he goes along.

It's going to be tough . . . but not too tough! Here are some good features:

1. You will pay at you earn, so that you will not be faced with a large heavy amount every year.
2. The Unclaimed Taxes should be deducted during the first 6 months of the year for the best taking, and continue at the end of the Year.
3. Though the amount you must share a share because of last year's large payment of the income is actually smaller, it is paid back to you without extra tax.
4. The amount you are paying is the same as your previous payments, principal payments on your home, interest on your car, gas tax be deducted (up to a certain amount) from the gross portion of your salary. In many cases this will be sufficient to make the amount of the savings portion of the salary.

Employers and Post Offices have been requested to display in a prominent place the official Table of Tax Deductions.

Form TD-1 may be secured from your employer, Post Office, or local Income Tax Office.

Unless you are single, without dependents, and not making payments of the type mentioned in paragraph 4 above, you should fill Form TD-1 with your employer. Otherwise you may not be allowed the credit to which you are entitled. **DO NOT DELAY.** Fill Form TD-1 with your employer at once so that you may get the full allowance from the start.

The dirty, yellow, touchy-feel soap that cramps your style. By combining dirty white at peace toward our rubber pots.

And now at war we grab it all before we can get it. To know the stuffing out of him. And his Adhola, pat.

And now so that our Adhola can move. For rubber carries all. We add instant adhesion and volume and loss. Let for its need we fail.

And now civilian cars must wait. And trucks all soon must wait. Unless they stretch an inch before. All rubber. This means You.

The mass and the yellow rate. Will never find you caring. If you take your tire troubles. To Baren's for repairing.

SCHOOL FLASHES

WHO'S WHO

Dorothy Irene McKay—Miss March 2nd, 1938, from Miss Higgs. She has been in the school since the 1st of September. She is a very bright and active girl. She is a member of the school choir and the school orchestra. She is also a member of the school basketball team.

Lena Fay Johnston, a blonde beauty, was crowned queen of the school. She is a very bright and active girl. She is a member of the school choir and the school orchestra. She is also a member of the school basketball team.

What do you do with all this hay? The old farmer from the foothills had come to town to meet an old friend from Ontario who had come out for a visit. When they had driven out into the hay country the farmer was amazed at the number of hay stacks.

"What do you do with all this hay?" he asked. "We use it for everything," replied the other. "We use it for everything," replied the other. "We use it for everything," replied the other.

"What do you do with all this hay?" he asked. "We use it for everything," replied the other. "We use it for everything," replied the other. "We use it for everything," replied the other.

It seems evident to this observer that the background of the intensely interesting and lengthy discussion being held in Parliament this morning is the fact that the Ottawa newspaper, with its considerable resources, is being used to the detriment of the Ottawa people, and that the Ottawa people are being used to the detriment of the Ottawa people.

It is extremely doubtful if it is generally realized at the present time that the Ottawa newspaper is being used to the detriment of the Ottawa people, and that the Ottawa people are being used to the detriment of the Ottawa people.

It is extremely doubtful if it is generally realized at the present time that the Ottawa newspaper is being used to the detriment of the Ottawa people, and that the Ottawa people are being used to the detriment of the Ottawa people.

The Safest Way to Invest Your Money

VICTORY BONDS REPAY

... Every Dollar You Invest.

When you buy Victory Bonds you are laying up for yourself the best of all investments, for back of each one is your country's solemn promise that every dollar you invest in Victory Bonds will be repaid to you in full, plus a fair rate of interest. You can borrow against them, and they are readily transferable when you need the cash. And this solemn promise of repayment in full is backed by all the vast resources of the Dominion of Canada.

When the time is over, you will want to buy all the things we must do ourselves now. Then, your Victory Bonds will give you the money to buy all these — and your purchases will provide new employment for our boys when they come home again.

What's your share of the savings job? Well, as several Canadians would be loath to leave Canada to meet Canada's need \$1 in every \$5 of income left after taxes and compulsory

savings have been collected. But the average man is not fit for his own. Your own circumstances are not fit for your own. You may be able to do better both out of your current income and out of your accumulated savings in the bank — or you may not be able to reach the average. Your share of voluntary savings is every dollar you can possibly spare.

HOW TO BUY

Give your order to the Victory Loan salesman who calls on you. Or place it in the hands of any bank or post office, or give it to any retail company. Or send it to your local Victory Loan Headquarters. Or you can authorize your employer to act as a regular payroll collection plan for you. Bonds may be bought in 10 cent increments, or in \$1, \$5, \$10, \$20, \$50, \$100, and \$500. Bonds may be bought in 10 cent increments, or in \$1, \$5, \$10, \$20, \$50, \$100, and \$500.

HERE IS THE BLUE PRINT

The co-operative movement is democracy in business. As it depends on human agencies in conduct it, it can never be perfect, but it is a long way ahead of the capitalist stock company and the modern trust forms.

Co-operation does not exist in law or in formula. It exists in the minds and hearts and purposes of the people. It is founded on mutual confidence and trust. With the development of these ideals people can make a success of co-operation.

The Alberta Wheat Pool is a creation of the farmers of this province. It has demonstrated its efficiency as a business organization and also its adherence to the co-operative principles. To make it a greater success than ever, it needs the interest and support of a greater number of the farm people of this province.

BUY BOWEN

TODAY—NOT NEXT WEEK!

YOU CAN'T MECHANIZE A COW

From under the stress of war, the mechanization of farming can only be so far. But many a farmer has found that he can increase production by adding to his milking herd, using more fertilizer or better feed in his fields. Should such be needed for such productive purposes, the logical course is to talk your place over with your local broker.

LOOK TO FARMERS... Do you need a new piece of farm machinery? Do you need a new piece of farm machinery? Do you need a new piece of farm machinery?

RCAF

A Mobile Recruiting Unit of the Royal Canadian Air Force will visit the following points on the dates shown below:

MONDAY NOV. 30th
Fort Saskatchewan 10:00 - 11:00 a.m.
Lamont 11:30 - 1:30 p.m.

Men between 17½ & 33 and women between 18 & 41 who would like information about the many opportunities now available are invited to visit the Mobile Unit.

ROYAL CANADIAN AIR FORCE

Under the broad scope of its war program, the Government in Ottawa is now endeavoring upon a much more intensive part of the war.

An independent separation of the action inside Ottawa by this observer reveals that much of the emergency work is being handled by the federal government already in Ottawa. It is not surprising that the Government is not only handling the daily life of everyone in every home throughout Canada, but also the daily life of the nation as a whole.

These are the busy and pressing activities which are now being asked by the man-in-the-street to support the Government in Ottawa. The Government is not only handling the daily life of everyone in every home throughout Canada, but also the daily life of the nation as a whole.

What About Next Year's Crop?

Many farmers are worrying about the agricultural policy for next year. On August 1st next there will be left over large quantities of wheat and other grains on the farms and in elevators. Some suggest that no surplus on the farms should be allowed, and that all surplus should be sold for export.

GET 2 MORE LIGHT

For the price of a bit of soap!

Actual tests have proved that dust, dirt, insects and grime accumulating on lamps, shades and reflectors, will often reduce the light from your lamps by 25% to 50%. All these light-enslaving accumulations can be removed easily and quickly with warm water and a bit of soap.

Put the light you are now looking, yet paying for, back on the job making saving easier, making your home brighter, making reading, studying and housework easier and quicker.

It won't add a single cent to your electricity bill, but it will add much to the pleasure of living and the enjoyment of your home.

Keep your eyes in working order. Provide them with adequate light for easy effortless seeing.....

Men Sailing the Seven Seas
Get Help From Navy League

Forty-eight thousand Canadian sailors and other thousands of the Merchant Marine, through food and fuel weather, through the terrible hardships, face perils that would seem to be insurmountable. In fact, keep the life lines of the United Nations open, and carry the men in ships, many of them never to return.

This week is Navy Week, and we are celebrating it with a series of events. The Navy League is making every effort to help the men in ships, many of them never to return.

These men are giving unstintingly their services to the Nation so that

Sponsored by the Women's Institute of Fort Saskatchewan, under the leadership of Mrs. Mary Thum, a "Ditty Bag" to the value of \$1.00 is now going out in the hands of the women of the community. These bags will be used by the women of the community to help the men in ships, many of them never to return.

men, ready, chocolate, gum; soup; bread; etc. The Navy League distributes them to points needed.

At the present time, the small band of emergency women, known as the Fort Saskatchewan Women's Institute, under the leadership of Mrs. Mary Thum, are working to help the men in ships, many of them never to return.

Men Sailing the Seven Seas
Get Help From Navy League

Forty-eight thousand Canadian sailors and other thousands of the Merchant Marine, through food and fuel weather, through the terrible hardships, face perils that would seem to be insurmountable. In fact, keep the life lines of the United Nations open, and carry the men in ships, many of them never to return.

This week is Navy Week, and we are celebrating it with a series of events. The Navy League is making every effort to help the men in ships, many of them never to return.

These men are giving unstintingly their services to the Nation so that

RADIOGRAMS

The government has devotion and stands for the men who check in with outstanding facts of war. The "Canadian Broadcast" program believes that these men, who are the backbone of the country, are the ones who are the backbone of the country.

YOUR HELP ... NOW

Means a Christmas Gift To a Sailor of the

MERCHANT MARINE

The Navy League of Canada appeals to you to help the ordinary workmen of the SEA... the men who play a vital, indispensable part in manning the MERCHANT SHIPS of United Nations... the ships that mean—

VICTORY

Funds are urgently needed for materials to provide WOOLEN ARTICLES - 3,000 DITTY BAGS - SURVIVOR'S BUNDLES - and other comforts for men of the MERCHANT MARINE.

We must be faithful to the ALL-OUT SACRIFICING SERVICE they give us.

Please send your contribution, no matter how small, to:

J. A. McDougall, Treasurer, NAVY LEAGUE OF CANADA, Empire Building, Edmonton.

or TAKE IT TO YOUR LOCAL BANK MANAGER - TODAY
